We Are Very Blessed by this Process of Transformation

Lantos:

Greetings Dear Ones,

Dear Masters of the Light of Genesis, we are very Blessed by this Process of Transformation. The Blessed Process of Transformation may be experienced in different measures. One measure and method by which change is often seen is produced by cataclysm—devastating events causing disruption and great turmoil. Out of the ashes rises the new existence. In this method the shaking is felt by all, change is experienced by all. But in this measure pain dominates. Loss and suffering dominate the realm of change.

With great change it is possible, even likely, that the change comes about through the violent and abrupt destructive forces, designed to remove the unwanted conditions of the past, replacing them with the elements of the future.

There is no mistaking the effective nature of the bomb. As the bomb is set off the whole of the area is wiped away, nothing remains. This is often the way with Transformation. What remains is ashes. Out of these ashes rises the new expression. This is one measure of Transformation, this is one measure.

However; however, much is lost. There is great loss, great waste. It is a waste for Creation. And, the time required for the restructuring, the Re-Emergence of the Expressions of Life, may be very great, very lengthy. Much time must pass. This, Dear Ones, is one path which change—Transformation—may take.

There is another Path. As with the First Path, the Forces of Change—we may even refer to them as the Forces of Destruction—are called upon to remove the unwanted debris of the previous state. But unlike the complete annihilation of all elements, only the unwanted debris gets removed.

As Beloved Masters of the Light of Genesis, this is a very important point to understand. Life on all Levels is Experienced through Change. At times, great pain may be Experienced in living, causing that moment to be recognized for its Value of change. But the change which arrives more quietly may bring growth without the need for great suffering.

The child is growing every day, but only rarely will the child feel the pain associated with the growth. When the pain is felt, the mother reminds the child of the process of growth. It is at this moment of pain that the attention is brought to the condition of change. However, the condition of change, even greater degrees of change, may be experienced by the child without the experience of pain. Pain draws the attention.

Beloved Masters of the Radiant Light of Genesis, while pain and devastation may attract the attention, making change more readily visible, it is not required and, to the Grace of the Mighty Forces of Creation, it is not always the path selected.

Dear Ones, it is through the great efforts of the Times leading to this present that the path is chosen. We are very fortunate, we are very fortunate. Blessed Masters of the Light of Genesis, we have asked for the path of greatest light and we are most fortunate.

The child should not despair over the lack of attention brought to the process of growth. Only, it is important to continue forward, knowing with great reassurance that the process of growth is present in its Fullest Value. When sufficient diet and exercise have been offered to the child there is no need for the pain.

Beloved Masters of the Art of Creating, you have been Enlivening the Fullness of Eternal Light through your daily Techniques and Practices. The Light of Genesis has spread with great effectiveness. We are very fortunate.

Now we continue. Today we Experience the Value of growth through the Silence and the Melodious Phrases Emerging out of this Silence.

It is very good, very good.

Many Blessings.

The Beloved Star of Genesis

Lantos:

Blessed Masters of the Light of Genesis,

We are enjoying the Waves of Light which are rising from the Silence. Out of the Sublime Silence the Waves roll, a Blessed Structure is Forming.

Yes, Dear Ones, let us practice the Blessed Technique. Ten days of Transformation and now we will enjoy ten days of the structuring of the Beloved Star of Genesis, emerging out of the Realm of Sublime Silence.

Out of the Silence the Light Emerges. Out of the Silence generated by the performance of the Blessed Technique of Transformation, out of the Sublime Silence, the Brilliant Star is Forming.

Cindy:

And then he paused quite a long time, and then he said:

Lantos:

Yes Dear Ones, now we may perform our Blessed Techniques of Eternal Light. We will begin with our Blessed Technique of the Personal Pathway and Technique of Transformation. We may also perform our Precious Techniques of the Art of Creating and our Beloved Phrases of Affluence.

We will begin like this.

Very good, very good.

Enjoy the Blessed Silence.

Very good.

Many Blessings.

Eternal Light Moving to Form the Great Star of Light

Lantos:

Greetings Dear Ones,

A beautiful Structure is Forming—a Brilliant Star. It is the Radiant Star coming out of the Universal Light of Creation—Eternal Light moving, Eternal Light moving to Form the Great Star of Light—the Great Star of Genesis. Yes.

Dear Masters of the Light of Genesis, Eternal Light is on the move—emerging into the structure of the Brilliant Star of Genesis, with Radiant Points of Light spreading out in all directions. Beautiful.

And, we are moving with this Blessed Current of Eternal Light. Daily performance of the Blessed Technique of Transformation allows the cells of the physical structure to Shine with the Sublime Radiance of this Brilliant Light.

We will continue in this manner our performance of the Blessed Techniques: the Blessed Technique of Transformation, the Blessed Techniques of the Art of Creating, the Blessed Technique of the Personal Pathway. And, Dear Ones, we will also enjoy the Song of the Blessed Phrases of Affluence—it is the Song of the Emergence of Light and Abundance.

On the Waves of these few phrases the Heart swells—life rises on the Song of Creation. The Phrases of Affluence Emerge as the Precious Melodies of Creation, rising out of the Silence. Waves of Light rising out of the Sublime Silence—a Blessed structure is Forming.

Yes, Dear Ones, we will continue our performance of these Precious Techniques; for two more days we will continue in this manner.

Very good. It is very good.

Many Blessings.

Blessed Year of the Great Star of Genesis

Lantos:

Greetings Dear Ones,

Creation Emerges through the Process of Creating. Blessed Masters of the Art of Creating, you have Experienced, repeatedly, this Sublime Process. It is the Process of the Emergence of the Precious Light of Genesis through the Dynamics of Initial Rotations—Initiated by the Spark of Desire.

Creation Emerges out of the Blessed Source of Creation, and All of Creation seeks to Unite with its Source. It is a Continual Process—Waves Rising from the Silence, Waves Settling into the Silence—Rising and Settling. And the rise and return? This is the Process of the Dynamics of Initial Rotations.

Blessed Masters of the Light of Genesis, the Enlivenment of these beautiful mechanics, the Mechanics of Creating, the Continual Process of Enlivenment, has brought forth in Creation a Blessed Form. Through the process of Transformation, and supported by the Value of Time, a Blessed Form is Emerging—structured through the fabric of Eternal Light, the Radiant Beams of Creation.

The Beloved Star of Genesis rises from the Stillness, Emerges from the Silence. Out of the Sublime Silence of Eternal Light, Enlivened by the Performance of the Beloved Technique of Transformation, the Blessed Star of Genesis Emerges. Eternal Light moving—Eternal Light moving into the Radiant Expression of the Formation of the Star of Genesis. This Beloved Star is the Brilliant Expression, the Form of the New Era of Light—Eternal Light moving to Form the New Structure for Creation, the Expression of Creation.

Dear Ones, the New Structure is a Beloved Great Star. Dear Ones, the Blessed Rays of this Great Star will reach out across Creation. Blessed Masters of the Sublime Light of Genesis, the Brilliance of the Great Star of Genesis will be seen throughout Creation. Dear Ones, the Blessed Star of Genesis is the Form Emerging for the Blessed New Era of Eternal Light. It is the expression of Eternal Light—out of which Creation Emerges.

Continue now your performance of the Treatments, the Treatments and all Techniques of the Blessed Light of Genesis. The solid structures of the Earth are awakening. It is through the Blessed service of the Masters of the Light—spreading the Master Tools of Eternal Light—the solid Earth is awakening to the Great Blessings of the Light of Genesis.

David:

Now at this point, Cindy explained to Lantos—he paused—and so Cindy explained to him...

Back in 2010, on July 21 of 2010, Lantos had mentioned that it was very important to get the Pendant of Eternal Light out to as many people as possible.

He said, “The Pendant of Eternal Light is that Tool to generate this Great Transformation and this Tool must be in the hands of many. Let us consider now ways that we can place this Tool of Great and Timely Significance into the hands of many, into the hands of all”.

Well, over the past few months, we have had some Masters of the Light of Genesis ask how they could help to use the Pendant of Eternal Light to purify vast areas of land where “bad” things in the past have happened—wars and things such as that.

And Lantos gave very specific instructions on how to do that. She explained that these Masters of the Light had decided to donate the Pendants of Eternal Light to specific countries to be able to help purify the land of those countries.

Cindy:

And then Lantos continued on, and he said:

Lantos:

Yes, let us spend time to review this. We will review the Blessed works of Great Light. We will establish a weekly time for review in this Blessed Year of the Great Star of Genesis. We will gather together the weekly topics of interest, and we will sit to discuss the events; and in some cases, we will establish a new course of direction required for maximum benefit and full expression of the Sublime Radiance of Eternal Light.

Cindy:

And he paused again and so then I asked him, “When should we begin this kind of review.

Lantos:

We will begin on the Sun Day, the day of the Great Star of Genesis. Beautiful. Blessings of the Sublime Radiance of Eternal Light.

David:

Now we know that you have a couple of questions, at least, because we had those same questions.

First off, let me say that we do not know exactly the format that this new weekly session is going to take. We do not know if it is going to, in any way, replace the weekly conference calls. We don't think that it will. We think that it will actually be in addition to the weekly conference calls; that this will be a question and answer session with Lantos.

The other question that we had—Lantos said in his message tonight that we would resume doing all of our BioGenesis Techniques. So we wanted to know for sure what he meant by that. And Lantos said:

Lantos:

Our Beloved Masters of the Light of Genesis should continue with the Tools and Techniques of BioGenesis.

David:

Cindy then asked him, “So we should continue every day doing the Technique of Transformation?” And Lantos responded:

Lantos:

Yes, we may perform this Technique twice daily.

David:

Cindy asked if there were any other Techniques which we should perform every day.

Lantos:

We should perform with regularity the Techniques of the Art of Creating. We should perform our Blessed Technique of the Personal Pathway prior to our Technique of Transformation. We will perform our Shield Treatment, and we may, at any time, perform the Technique to Dispel the Darkness. It is good. Very good.

The other Techniques and Treatments, as well as the Phrases of Affluence, may be performed with regularity based upon the schedule of the individual. It is good to perform every Technique at least once every week. We will continue developing our performance of the Blessed Techniques of Relationship, utilizing the Pocket Seal and the Great Seal of Genesis. As the Star of Genesis grows in Form and Brilliance, we will see great leaps in the performance of each of the Blessed Techniques.

Very good.

It is a Very Great Blessing to be Living in this Time

Lantos:

Greetings Dear Ones,

It is a very great Blessing to be living in this time. This period of Great Transformation is a time of loss as well as gain. There is the loss of many of the old structures. These old structures have been in existence for some length of time. In this amount of time they have grown familiar to us—familiar in the same way which the wart becomes familiar to the foot. The foot, over time, grows accustomed to the wart. The wart, which is no doubt a burden to the foot, ceases to dominate the perception and experience.

Initially, the appearance and growth of the wart may be painful and draws the attention. After some time, this lump ceases to create the same distraction or disruption and the attention becomes more capable of focusing away from this problem. The foot and the sock become used to the mis-formed shape and life continues its path in other directions—always in search of great experiences of Fulfillment.

The path of life naturally moves away from problems and towards Fulfillment. This is the nature of the stream, the stream of life. The river will choose the most effortless path, the path which adjusts to experience the least value of obstructions.

Even when an obstruction is met, the journey of the stream continues, never ceasing. If a tree falls into the path of the river, the water may churn for days around the object which has disrupted its smooth path.

However, some time later: some few weeks; few months; or some length of time; the log will be absorbed into the path and the water will flow, nearly effortlessly, over the crossing of the log.

This is the nature of life—obstacles are encountered which, at first, may bring great distress. But, as time passes, these problems cease to hold the grip on the attention and life frees itself to move forward with greater ease.

In this time of change, Dear Ones, there are both Values: loss of the old and gain of the new. Even though this lump has brought disruption to the foot, as the lump is removed, the foot may experience a time of strangeness. Some strangeness may be experienced—it may be felt as a loss. The problem, as it disappears—the old, as it leaves—may be experienced with some feelings of strangeness.

As the riverbed is cleansed, the removal of the log may initially be seen as, once again, a disruption. It is a kind of surgical process. Sometimes the removal of the foreign object can create some sense of disruption in its surroundings. To remove the splinter from the finger may cause some feelings of disruption, some strangeness. Though this foreign object does not belong to life, the removal may also be felt with some strangeness.

Now, Blessed Masters of the Art of Creating, how do we best overcome these times of disruption brought about by the process of Great Change. The continued flow of the Light of Genesis brings smoothness to the disruptions caused by the process of change and purification. The Flow of the Light of Genesis—yes, it is the Flow of the Energy of Life.

Beloved Masters, we have received many great gifts. In our Technique of Transformation we govern the Energy of Life. This Blessed Technique governs the Energy of Life.

If the lump on the foot is detected, the Techniques must be applied to rid the foot of the lump. Even greater discomfort and disturbance may be experienced during this time, owing to the aspect of attention. The attention is drawn by the sense of discomfort, by the sense of strangeness.

Dear Ones, the smoothness will increase as these unwanted elements are released. These unwanted elements are on the level of the individual, the society and the grand Cosmic scale. At this Time in Creation—the Time of the Great Transformation—these objects which bind—these elements of darkness, which are found hanging onto the Light—are shaking loose. This will cause strangeness. Some aspects of this strangeness will be experienced.

We will pass through this time of the disruption through the Blessings of the Currents of Eternal Light. Continue with your performance of the Blessed Techniques of Eternal Light and the use of the Tools of Genesis.

Many Blessings Dear Ones.

Faith is the Belief that Everything is Possible

Lantos:

Greetings Dear Ones,

Faith is the belief that everything is possible, nothing is impossible. This is faith. Faith is the union of the Heart and mind of the individual with the Essence of the Creator, the Almighty Source of All Creation. This union, even momentary, produces an undeniable, indescribable experience causing faith to bloom in the life of the individual. When the limitations of the individual meet the limitless Radiance of the Almighty Sublime Source, the entire being is filled with awe—the entire being is swallowed up by the Sublime Experience of limitless Radiance. This is the source of faith; this is the dawning of faith.

Until this moment of dawning has occurred, the individual life is still propelled by an intense desire to unite with its source. This desire, while at the basis of life, may from time-to-time, be shadowed by the experience of doubt. However, in both cases, Dear Ones, the Goal remains the same—the journey of life continues in its direction of uniting with the Beloved Almighty Source of Creation.

Dear Ones, doubt can be a very valuable ally on the journey to the Goal. It is through doubt that many advancements may be made and mistakes may be averted. Let us consider the Value of doubt in the growth of the life of the individual.

The eyes tell us the Earth is flat, and it is only through the dissatisfaction brought about by doubt that this concept is questioned and we embark upon the journey, sometimes mentally, sometimes physically to correct this mistake. The eyes tell us that the sun travels across the sky and yet, we have all come to realize that the eyes are, in this case, also mistaken. The reality is embedded in our awareness as Knowledge. Knowledge of the reality has come to rescue us when our direct experience fails to provide us with the accurate answers.

Therefore, Dear Ones, we do not scold the Value or Experience of doubt. Doubt is a pillar of Progress. We seek to gather the answers and insights it may reveal. Together, Dear Ones, doubt and faith must exist along the journey to Fulfillment. In Reality, one does not exist without the other. In order for doubt to exist, faith must also be present.

One only can doubt the sun's journey across the sky, owing to the faith that there is another option. This faith in another possibility may be interpreted and experienced in certain moments as doubt, but in fact, the two are intimately connected. When doubt prevails, suffering dominates; when faith prevails, Fulfillment dominates.

Dear Ones, that which is seen and that which is unseen may, at times, only serve to create confusion. Fulfillment is not found in that objective reality without the Knowledge and training of the deeper reality. Life has been lived for thousands of years in this world of the basic senses and this is not the domain of Fulfillment.

Dear Ones, if the eyes do not yet see the Finer Values of the Radiance of Creation, we should not become distraught. We instead look to the Blossoming of this Sublime Light in other areas of Expression such as the Blessed Expressions of the Heart and Mind. The senses are the more concrete values of individual existence, and it can take some time for the functioning to make the necessary adjustments. Patterns have been established and routines have been set, which may take some time to alter.

However, Blessed Masters of the Art of Creating, we are today Experiencing the Greatest Emergence of the Brilliant Light of Genesis as the Earth has seen in millennia. It is a Cosmic Phenomena, receiving support from great Cosmic Forces of Light, Great Beings of Light.

Yes, Dear Ones, we will continue with our Techniques and training and use of the Beloved Tools of Genesis. And we will enjoy the rising Waves of Fulfillment and the Blessings of the Sublime Radiance in all its Forms and Expressions.

Many Blessings.

A Beautiful Structure of Light

Cindy:

I started by asking the question, “Can you tell us more about the Star of Genesis, and when we may be able to notice the Star”?

Lantos:

Greetings Dear Ones,

Dear Ones—the Star of Genesis, the Star of Genesis.

Blessed Masters of the Art of Creating, we have seen the Precious expressions of Light rising in many parts of the world. It is the Experience of the Formation of the New Structure of Eternal Light—the Structure, or Expression, of Eternal Light for the Era of Eternal Light. This is Forming. It is a Structure of Light, a beautiful Structure of Light, through which the Activities of Life, the Events of Creation, will be Expressed.

All life, all expression, will be conducted on this new stage, in this new arena. The old structure, the old arena, was insufficient, inadequate. The old framework was incapable of supporting life in its growing expressions of the Light of Genesis—life in the growing Radiance of Eternal Light.

Dear Ones, changes are made to allow for greater development, greater expression. Owing to the need arising, owing to the nature of Time, changes come about. When the realm of Eternal Light functions, when Eternal Light moves; it is beyond any speech, it is beyond any action; it is spontaneous, automatic. The changes come about automatically—as Waves, as Waves lapping the shore. Change comes about automatically—as Waves of Understanding, Waves of Perception, Waves of Illumination.

As with our Blessed performance of the Techniques of the Art of Creating, that Sublime Value of the Source of Creation spreads; that Sublime Value of the Source of Creation illumines the Realms of Creation through the Precious mechanism of the Heart, the Precious mechanism of the Heart of the individual. It is such a Wonder, such a Great Wonder.

The Beloved structure of the individual Heart is capable of such great heights of accomplishment. This Precious physical structure is capable of housing the divine expression of the Source of Creation. Such a structure is indeed most Precious.

As the Sublime Light of Genesis spreads across all realms of Creation, the framework of Creation must adapt in order to support this increased Value of Light. This happens automatically. As the Light increases, the framework to support this Light is structured.

Dear Ones, the Precious New Structure of Creation is Forming—the Structure to Support the Emerging Radiance of Eternal Light in this New Era of Existence. As our experience matures, we will gain the ability to comprehend an increased scope of Experience. Our Ability increases daily with our use of the Tools of Genesis and performance of our Blessed Techniques of Eternal Light.

Daily we are expanding our capacity for the experience of the deepest perception of the content of life—the Star of Genesis. The Star of Genesis, Dear Ones, is the Blessed structure, like the mechanism of the human Heart; capable of supporting the highest Value of Expression, the Fullest Value of Expression of the Infinite Source of Light.

As this Blessed Structure develops, as this Blessed Structure Forms; the Value of Life rises, perception rises, cognition rises. There is nothing in the Universe, on any plane of existence—mental, material or spiritual—which cannot be directly experienced. This is the Value of the Beloved Star of Genesis. It is the Brilliant Star of Eternal Light.

Dear Ones, we will receive a Blessed Master Tool and Technique of the Star of Genesis. Yes, Dear Ones, this is our Blessed Knowledge for this day of Eternal Light.

Many Blessings.

The Relationship of the Physical with the Physical

Lantos:

Relationship—we will now begin to apply the Precious Knowledge and Performance of the Techniques for Enlivening the Sets of Relationship.

We will begin with the performance of the union of the physical plane of existence with the physical plane. That is the relationship of the objective tangible level of Creation with itself. This performance of Enlivening Relationship on this level of physical with itself will strengthen all Values of Stability and will promote the Expression and accumulation of physical comforts. This level is the most Expressed Layer of Life, an outer layer which governs the sustaining of the physical values.

When we Enliven this Aspect of Relationship we are Enlivening the Fullest Experience of the Highest Form of each object within Creation. It is the Experience of the Highest Value of the human physical Structure, the Highest Form of the Relationship of each Structure with other Structures—the Structure of Nourishment, food. It is the Enlivenment of the Highest Form of all objects.

In this way all objects bow before the one who has mastered this Level of Relationship; offering always the Highest Aspects, offering always the best—the Highest Value of the food; the Highest Values of comfort; the rains fall on time; the sun shines in proper balance—for the maximal Nourishment on the Physical Plane. The Relationship of the Physical with the Physical is the Structure of Balance and Support.

For this reason we use the Precious Wheels of Clear Regeneration, Sunrise Energy Progress and Dark Violet Progress Wheels.

Now, Precious Ones, let us today enjoy some minutes of the performance of the Enlivenment of this Blessed level of Relationship.

Very good, very good.

On this Sun Day, we begin with the Enlivenment of the Physical Plane of Creation. It is very good.

Many Blessings.

The Relationship of the Physical Plane with the Mental Plane

Lantos:

Greetings Dear Ones,

It is very good, very good. We are Experiencing that Value which Unites—Relationship is that Unifying Principle in Creation. Establishing or Enlivening the Relationship of the Values of each place of Existence generates a Grand Expression of Fullness. It is the Expression of the Fullness of Eternal Light Enlivening each Aspect of Relationship, each Level of Relationship. We generate Fullness on that Level. The Relationship of the Physical Plane of Existence with the Physical Plane generates Fullness in areas of Concrete Physical Expression.

And, what do we mean by Fullness of Expression. This is very beautiful. Fullness is for Fulfillment, the Presence of Fullness generates Full-Fill-Ment—Fulfillment. Fulfillment is complete satisfaction. One is always striving for greater accomplishment, higher achievement—Fulfillment is the Attainment of the Goal. As long as the Goal is not attained, satisfaction will not be present, Fulfillment will not be present.

Today we Experience the Relationship between the Physical Plane of Existence and the Mental Plane—the Relationship of the Physical Plane with the Mental Plane. This Value of Relationship Structures Direction, establishes the Right Path—Action, Occupation. The Path of Action Emerges out of this Value of Relationship—the Highest Path, the Course of Action—bringing each element necessary to support the Highest Direction in Life.

Today we will perform the Technique to Enliven the Relationship of the Physical Plane with the Mental Plane. We will use our Blessed Wheel of Dark Violet Transformation; we will use our Full Rays and Dark Blue Wheels of Regeneration. Yes, we will perform now this Blessed Technique.

Very good, very good.

Many Blessings.

The Physical Plane and the Spiritual Plane of Existence

Lantos:

Greetings Dear Ones,

We enliven the Strands of Light, we enliven the connections to reveal the complete structure. One by one, strand by strand, beam by beam, we enliven the framework. The Precious Techniques of Relationship Enliven vast regions—great collections of individual Strands of Light—at once an entire Plane is Illumined.

One may build the skyscraper nail by nail, brick by brick; or one may erect entire floors, entire segments, all at once. With this Precious technology, the Techniques of Relationship, we are Enlivening the great expanses of the Planes of Existence at once. Day by day we Enliven the vast segment, or Plane, of Existence.

Today, we will experience the relationship of the Physical Plane of Existence with the Spiritual Plane of Creation. It is on this Level of Relationship that the Blessed Structural Transformation occurs on the human, Physical Level. The body rises to gain the full status of the Light of Creation, the Light of Genesis.

The Physical Plane of Existence is a great mystery, the Greatest Mystery. How it is that the Inexpressible came to be Expressed. It is a Great Mystery—how the Fullness of the Light of Genesis came into Form, entered into the Physical Plane.

In our performance of the Technique of Relationship, between the Physical Plane and the Spiritual Plane of Existence, we are connecting the Fullness of the Light of Genesis with the Physical Cellular Structure. This we will accomplish with our Blessed Wheels of First Rays Progress, Sunrise Energy Regeneration and Light Violet Progress.

After completing this Technique, it will be good to perform the Precious Technique of Transformation.

Very good, very good.

Now, we will begin.

Relationships of the Physical Plane of Creation

Lantos:

Greetings Dear Masters of the Light of Genesis,

Unity dawns as the Values of Relationship awaken on each Level of Existence.

We will proceed now with our performance of the Blessed Values of Relationship. Fullness has been revealed on the levels of the Physical Plane of Existence—the physical as it relates to each of the other Planes of Existence—the physical relating to itself, the Physical as it relates to the Mental and Spiritual Planes. Yes, these are the Values of Fullness Enlivened through the Relationships of the Physical Plane of Creation.

Let us practice now these Blessed three Techniques of the Physical Values of Relationship. We will begin with the Physical Relationship with the Physical. We will then introduce the Physical Relating with the Mental Plane; and then, Dear Ones, we will perform the Blessed Technique of the Relationship of the Physical Plane of Existence with the Spiritual Plane of Existence.

After we have completed these three Techniques, we will, together, perform our Beloved Technique of Transformation.

Very good, it is very good.

Many Blessings Dear Ones.

The Structure for the New Era of Eternal Light

Lantos:

Very good, very good. The Star of Genesis: the brilliant Star of Genesis; the Radiance of Creation; the Light of Creation; the Sublime Light which structures Creation; the Beams of Light which Form Creation. It is the Form. The Radiance is the structure of Creation—fully awake, complete Radiance.

This, Dear Ones, is the structure for the New Era of Eternal Light. The Star of Genesis is Forming, Emerging as the Structure for all Life, all Existence. And, what is this Form—this brilliant Radiance giving expression to Eternal Light, giving Form to Light? This Precious New Structure is the universal framework, the Form of the Universe.

On this stage, all of life's activities are performed. Through these specific paths of Eternal Light, Creation flows. The display of Creation unfolds on these Brilliant Beams, extending to all reaches of Creation, Illuminating all Creation.

The Blessed Star of Genesis. The home is structured; then the family enters into the home. The home is built: the ceiling and the walls are formed. Only then does the family enter. In this New Era of Eternal Light, the Blessed Star of Genesis is the home, and the creation enters into it. In this case, the home is taking form, taking shape, coming into being. A New Era means just this—it is a new home, a New Platform on which all action is performed.

As one moves from home to home, the entire reality of day-to-day existence is altered. The rooms are much larger, offering a greater range of possibilities for all activities within the home. The windows are much larger, offering clearer vision and greater perception. The kitchen offers all the latest technologies, providing the family with the greatest comforts, nourishment and ease. It is clean, fresh, brilliant. Still, it takes some period of adjustment. Always, change requires some period of adjustment, some time. Yet, the change is occurring.

One does not spend a long time in the process of a move. Great preparations must be made prior to the move. The move itself does not take the great time—some time, some time, for this process. Then, there is some time required for the adjustment to the new conditions, new surroundings. Yes, you see?

Now, Blessed Ones, it is of great importance to understand this Blessed New Structure, to experience this Blessed New Structure. It is the structure, it is the home, for the Brilliance of Eternal Light.

Very good, very good. A Blessed Tool—the Star of Genesis. Very good.

Now, let us practice our Blessed Technique for the Relationship of the Mental Plane of Existence with the Mental Plane. For this we will use our Wheels of Progress and Transformation.

Beautiful. Very good. Many Blessings.

The Relationship between the Mental Plane of Existence and the Spiritual Plane

Lantos:

Greetings Dear Ones,

Today we will Enliven the Relationship between the Mental Plane of Existence and the Spiritual Plane. In this experience we will Enliven the highest aspects of the Expressions of Creation. We will Enliven the finest aspects of Creation.

We Enliven the Plane of the Great Celestial Beings, the plane of existence which nourishes or feeds the Highest Orders of Energies in Creation—the Beings of Light, the Celestial Forms of Energy and Intelligence, which govern and promote the functioning of Creation on all levels of expression—the Orders of the Mighty Angels.

It is this Level of Existence which gets Enlivened and Nourished through our performance of the Technique of Relationship of the mental plane with the spiritual plane. Yes, these Precious Values of Relationship open and strengthen the Channels of Energy—the Beams of the Radiant Light of Genesis within our own existence—that which I do for you, I experience within myself. In nourishing the child, the mother grows in the strength of Love—there is gain for the child, gain for the mother. This is the Blessed Product of Relationship. Beautiful.

We will begin now with the practice of the Blessed Technique of Relationship of the Mental Plane with the Spiritual Plane of existence. Following this Technique, we will, together, perform the Vision Technique, the Technique of Refinement. It will be good to perform these two Techniques in one sitting—one following the other. One follows the path through the open door.

Very good.

Let us begin.

We Chart Our Path to the Goal

Lantos:

Greetings Dear Ones,

We have progressed through the steps of the Values of Relationship, moving from the Physical to the Mental and to the Spiritual Planes of Existence. In our Practice of the Technique to Enliven the Physical Plane with itself we strengthen the body—the Value of comforts, the Value of physical nourishment—a very important aspect of life; a basis for the Expressions and development of all Values of Life.

In our performance of the Relationship of the Physical with the Mental Planes, we chart a Path to the Goal. We fix our compass settings, we establish our course of Action—the Activities we will perform in this Precious Life—in order to achieve Fullness, Fulfillment, Illumination. These are the steps of Action. Beautiful.

Next, we proceed to our performance of the Physical as it relates with the Spiritual Plane of Existence. Yes? Step-by-step you see the development. One cannot think of the Higher Values of Life if one is plagued by an empty stomach. The Nourishment on the Physical Level of Life frees the Awareness to Perform the Higher Functions. Then we establish the correct Path; we chart the Path of Action leading to Fulfillment. Then we arrive at the performance of the Relationship of the Physical with the Spiritual Planes of Creation. This is the Value of Transformation of the Physical Structure into the Body of Light—the Fullness of the Light of Genesis Reflected on the Structural Level of Life.

This marks the beginning, the opening of the Radiant Value of Eternal Light in the life of the individual. This heralds the Awakening. The Enlivenment of this Level of Relationship heralds the Process of Transformation, Illumination.

Beloved Masters of the Light of Genesis, we sing the praises of development on every Level of Existence. At this level, we call out “Eureka!” The Radiant Values of the Blessed Field of Totality have penetrated the shell of the objective Layer of Expression. Now that which was without Radiance gains the Value of Radiance. The physical becomes Radiant; the Physical Level becomes the Vibrant Receptacle for the Radiance of the Sublime Light of Genesis. This is the Transformation of the Physical; it is the Relationship of the Physical with the Spiritual Values of Existence. For this, we also employ our Blessed Technique of Transformation.

Lantos:

Dear Ones, Beloved Masters of the Sublime Light of Genesis—it is Time, it is Time. Today we receive the Precious Vision from the Light of the Great Star of Genesis. On all levels, at all times, Vision awakens. As the level of Light changes, as the degree of Light increases, Vision becomes clearer; more is seen, greater Values are Perceived.

The Blessed Great Star of Genesis, in its arrival, brings the Supreme Value of the Light of Genesis. This Light Fills Creation—Light from the Source of Creation, Light of the Source of Creation. This is the Great Transformation Dear Ones—Light of the Source of Creation filling Creation. It is beautiful, it is beautiful—it is Time.

This great Light will Emerge first as Points of Great Light. The Galaxy of Light is seen Emerging as Points of Light. The Galaxy is Perceived as a collection of all Points of Light. Yes, the Galaxy, the Force of the Galaxy, is always Present. However, its Presence is seen through the Expression of the Points of Light.

Blessed Masters of the Light of Genesis, we will Form these Blessed Points of Light—the individual Points of Light which together Form the Assembly of Light, the Great Assembly of Light—known as the Beloved Great Star of Genesis. Beloved Masters of the Light of Genesis, we will Form Star Chambers, Chambers of the Light of the Brilliant Star of Genesis. Beautiful, beautiful.

In the course of Enlivening the Values of Relationship we arrive at the Transformation. And, out of Transformation Emerges the Beloved Great Star of Genesis. It is beautiful. This is the Path of Creation. These are the Steps of the Unfoldment of the Era of Eternal Light. And, today, we herald the Vision of the Blessed Great Star of Genesis and its individual Points of Expression as Star Chambers.

Beloved Masters, this day has brought about a Great Expression of the Radiant Beams of Light. As we approach the performance of our final Level of Relationship—the Relationship of the Spiritual with the Spiritual Plane of Existence—the Blessed Radiance of the Ten Beams of Creation bless us with their Sublime Light, the Sublime Expressions of Eternal Light.

Today, we will together perform our first three Techniques of Relationship—the Relationship of the Physical Level with itself, with the Mental Level and with the Spiritual Level—concluding with the performance of the Blessed Technique of Transformation.

Yes, now let us perform these Blessed Techniques.

Many Blessings Dear Masters.

There is a Great Assignment Ahead

Lantos:

Greetings Dear Ones,

Blessed Masters of the Sublime Light of Genesis, Blessed Masters of the Art of Creating, today we receive a Beautiful Vision. This is the Vision of the Structure of Eternal Light, the Vision of the Brilliant Radiance of the Beams of Eternal Light Forming the Great Star of Genesis.

This Blessed Great Star of Genesis is the New Form which is Emerging. It is the New Structure which is coming to be realized for our Precious Earth.

Today, we receive the Light of Knowledge, the Illuming Precious Beams of Eternal Light as together they Form the Structure for the Blessed Great Star of Genesis—the Blessed Great Star of Genesis. This, Beloved Masters, is the Form, the New Framework, for the Era of Eternal Light. Great activities lie ahead; there is great work to be accomplished. It is a beautiful, a most beautiful, time; a most Precious time in Creation. We are building the New Form, the New Framework, for the Sublime Light of Creation.

The house must be built, only then the family enters. First, the home must be Fully Structured; then the Honored Guests may enter in Great Dignity. One enters only after the home has been Structured. The preparations are accomplished before the arrival of the occupants. In this way, all may enter into the New Dwelling in Great Ease and Comfort.

This is the time of the Great Transformation; the period of entry into the New Era of Eternal Light. The New Structure of Eternal Light is Emerging. It is the Form; it is the home for the occupants of the New Era. It is the New Form of Expression of Eternal Light capable of supporting the heightened level of functioning, the Heightened Level of Energy for the New Era.

This Beloved Form, this Framework for Creation, must be established—established in the Expression of Fullness, established to uphold the Presence of the Sublime Radiance of Eternal Light. This Blessed Form for the New Era is the Beloved Great Star of Genesis.

Beloved Masters, the Earth is a Blessed Structure, a home—a Radiant home—capable of supporting the Highest Expressions of Life—Purity and Knowledge. The Highest Forms of Life and Expression are Supported by this Precious Structure of Creation.

During this Blessed Time of the Period of the Great Transformation, our Beloved home is experiencing great change as the old structures are swept away. It is the Blessed Time of

the Emergence of the New Structure, the New Form. It is the Blessed Process of the Emergence of the Great Star of Genesis.

At this present time, Beloved Masters of the Light of Genesis, we call upon your great assistance. The Formation of a New Structure requires many hands—much attention and preparation and many hands to carry out the necessary functions.

Dear Ones, Dear Masters of the Light of Genesis, collectively we will weave together the Beams of Eternal Light. A Sublime Brilliance will develop as the Luminous Rays of Light Connect to Enliven the Emergence of the Blessed New Form—The Beloved Great Star of Genesis.

The Earth is one Form, one Structure. In Essence, this Form is Expressed through solid matter, surrounded by fluid matter. That which is fluid—the Blessed world ocean, the Blessed global ocean—moves around the solid areas of land. Within the core, within the center—beneath the structures of land and water—is the Energy which Balances and Directs the Surface Expressions. It is One Body, One Home.

As with the body, the Inner Functions may be reached through the Outer Layer of the skin. The land is this outer layer of skin. The Actions which are performed on the surface of the land get absorbed into the Inner Aspects of the Earth, affecting the Energy and Balance of the Entire System.

Now, Beloved Masters of the Light of Genesis, there is a great assignment ahead. We are charged with a Blessed Task, a Global Task. For this many hands of Light are required. Beloved Masters of the Light of Genesis, together we will Form a Global Network of Light. We will establish Cells of Light, Small Chambers of Light, in many, many areas around the world; collectively Enlivening the Great Star of Genesis throughout the lands and waters of the Earth. It is the Formation of the Framework of Eternal Light, it is the Awakening of the Presence of the Great Star of Genesis.

Very good, very good.

On this coming Sun Day, we will receive, in fullness, the Vision of this Blessed program of action.

Very good. Many Blessings.

Today We Inaugurate Our Blessed Network of the Light of Genesis

Lantos:

Greetings Blessed Masters of the Light of Genesis, Dear Masters of the Art of Creating, Blessed Radiant Beacons of the Light of Genesis: the Sun shines with great brilliance on this Sun Day. On this Blessed Sun Day, the Vision is Illumined. The path is seen with great clarity. On this day of Radiance we receive the Blessed Vision of the New Form, the coming structure for the Era of Eternal Light. It is the Vision of the Formation of the Great Star of Genesis.

Beloved Masters, we will establish Star Cells of the Light of Genesis, Chambers of Eternal Light, throughout the world. We will Enliven this great Network of Light, the Blessed Great Star of Genesis, throughout the lands and the waters of Earth.

There is yet a residue of the past era remaining on Earth. It is a residue of past actions, past deeds, past events. Even thoughts generated on the mental plane are stored in the grounds of the Earth. But great amounts of this memory has been Enlivened, Awakened, in the Light of Genesis. The storage of negative energies has been greatly reduced. Time has directed this release.

With the passage of Time, many of the impressions of the past are shed. This occurs naturally over time, but certain areas retain the hardened patterns of the past. These may be areas or locations of greatest chaos—locations of disaster, locations of war and misconduct. These impressions, or residue of actions, are picked up by the individuals living in those areas. The forces of energy, the expressions of life, are influenced by the residual structure of memory.

This force of residue may be the cause for the creation of storms, the spread of disease; the general values of either progress or suffering for the area. It is the value of interaction between the residual force and the current impulses of energy which give rise to the structuring of the day-to-day events of life.

Blessed Masters of the Sublime Light of Genesis, the Precious Tools and Techniques of Eternal Light have far-reaching effects on the layers of existence. When one cleans the house, one sweeps and mops and scrubs the surface level of dirt. When one places in the room a great Pyramid of Genesis, one Enlivens the sleeping values of the surroundings; one awakens the values of the Light of Genesis within that vicinity.

Dear Ones, for the Purification and Enlivenment of each home on this Precious Earth we cannot think in terms of placing one-by-one Tools. Just as in the early days, a message was delivered by foot—one walked across the town to deliver the information to another.

Great expeditions were designed to bring Knowledge to another region of the world. The spread of information was a difficult process, requiring much time. Then came the radio and the telephone, and one could place a call directly into the other country. One could sit in the home and speak to the person in the next country.

This process of greater ease, greater ability, develops with time. The change comes with time. Now, the satellites are carefully positioned in the skies in order to transmit the signals; carry the information, the Knowledge, to all parts of the world. One may sit on the mountain top, and receive the message from the friend in the city. This, Dear Ones, is a network for information.

We are, today, inaugurating a network for the Light of Genesis; a Web-Work, a network capable of Enlivening the Beams of Eternal Light throughout the world, such that all receive Illumination. The Enlivenment of the Precious Web-Work, the Precious structure of the Great Star of Genesis, will Enliven the Radiance of Eternal Light; making it available to every individual in every location on Earth. This Radiant Structure emerging is the Form for the Light of Genesis for this Precious Planet. It is the Form to support the activities of the Era of Eternal Light.

The messenger carrying the information on foot could not have dreamed of the possibilities which exist at the present. Like this, the scope of the Transformation of Ability for All Existence is beyond the dreams or imagination. It only required the insight of a few to change the lives of all—only a few.

Blessed Masters of the Light of Genesis, Masters of the Art of Creating: we will Enliven the Blessed Great Star of Genesis for all. This is the inauguration of the Blessed Network for the Light of Genesis. This Network will be Formed by individual Star Cells of Eternal Light, together Forming Chambers of Eternal Light.

Ten Stars Cells together Form one Chamber of Eternal Light. Individual Star Cells are constructed in the Form and Nature of the Beloved Great Star of Genesis. It is a Blessed Form of Creation emerging for the Earth as the structure or Web-Work of Radiant Beams of Eternal Light; supporting Life and all actions in the Era of Eternal Light—one Chamber of Eternal Light consisting of ten Star Cells of the Light of Genesis.

The requirement for the structuring of this Blessed Form for Earth is based upon the residue of thoughts and actions of the population of Earth. Each individual is a vibrant receptacle influenced by the imprinted memories of the actions of the past, which are stored and emitted through the lands and waters of the earth.

These Chambers of Eternal Light must be positioned in locations based on past and present populations. A Chamber consisting of ten Star Cells may be placed in the ground or may remain on the surface of Earth. There should be one Chamber for every one million population of Earth, each positioned in the ground in the general area of that population.

This, Beloved Masters of the Light of Genesis, is the task at hand. To construct a Blessed Network of the Light of Genesis Capable of Supporting the Emergence of the New Form—the Beloved Great Star of Genesis for the Era of Eternal Light.

For this Beloved task, we will ask our Beloved Director of the Light of Genesis to appoint coordinators for each region. In this way the positioning of the Blessed Chambers of Eternal Light will Correspond to the need of the area. One may appoint a director for a region, for a country, and for a continent of land and people.

Blessed Masters of the Light of Genesis, the task is great. Each Star Cell will be trained with the Sublime energy of the Light of the Great Star of Genesis.

Yes, Dear Ones, today we inaugurate our Blessed Network of the Light of Genesis, a network, a Web-Work, Formed by the Radiant Beams of Eternal Light—the Illumining Rays of Eternal Light of the Great Star of Genesis.

Many Blessings Dear Ones.

The Nature of the Blessed Star Cell

Lantos:

Greetings Dear Ones,

Very good, very good. We will discuss now the nature of the Blessed Star Cell. We have here a beautiful picture of the Brilliant Form of the Star Cell. Ten of these cells configured near to each other generate the Blessed energy for the construction of the Great Star of Genesis. We may say this—we may say the construction of the Beloved structure for the Era of Eternal Light. These ten Star Cells must be trained in a specific manner; trained as one chamber, one unit, of the Blessed Energy of the Light of Genesis—the brilliant Radiance of the Great Star of Genesis.

These chambers may be placed in the home, in the business, or in the ground. They may be positioned above the ground or beneath the surface of the ground. The significant aspect of the placement is in the relationship of Chambers of Eternal Light with the corresponding population of that vicinity—one for one million population—one for one million.

The Blessed influence generated by this collection of Star Cells present in the land will Enliven the Blessed Dynamics of Eternal Light through the brilliant Radiant Beams of the Great Star of Genesis. The Chambers of Eternal Light work together, interact together, to generate the complete structure—the structure for the Earth. And this structure we are constructing is the framework required for the Beloved Great Star of Genesis.

The Earth is one Form, one body. It is essential to attend to all aspects of the body for the Emergence of Health, Well-Being, Peace, Fullness—the Fullness of Functioning—Allowing the Blessed Values of the Sublime Source of Creation to Emerge in the Surface Expression of the lives of all.

Now we will commence with this Blessed program for the Creation of the Great Star of Genesis.

Many Blessings Dear Ones.

Structuring the Framework for the Network of the Light of Genesis

Lantos:

Greetings Dear Ones,

Today we will begin the structuring of the framework for the Network of the Light of Genesis—the Network of the Light of Genesis. Beloved Masters of the Light, the steps for accomplishing this Blessed task are great, there is much work ahead. We will require the dedicated assistance of many Blessed Masters of the Light of Genesis.

Today we will offer the framework, the framework upon which this Blessed Network of the Light of Genesis may be constructed. Through the assistance of our Blessed Masters of the Light of Genesis we will Structure the Form; the Form for the Era of Eternal Light, the Form of the Great Star of Genesis. The brilliant Light of the Great Star of Genesis will shine for All, for All.

First we must establish the Cells, the Star Cells. The Cells are Formed and the Life Emerges—the Cells carry the Signature of the Life. The Cells carry the Knowledge, the Organizing Energy for Life to Emerge. These Star Cells—positioned properly according to the general areas of population—these Star Cells carry the Knowledge, the information, for the Emergence of the Beloved Great Star of Genesis. The Knowledge is contained Within the Cells. The Knowledge and the Energy is contained Within the Blessed Star Cells.

Each Beloved individual wishing to assist in this Blessed program to create the Network of the Light of Genesis will each become a tool, an instrument, of the Era of Eternal Light. One's hands, one's feet, one's life is Blessed with the Radiance of the Form of the Era of Eternal Light—the Sublime Radiance of the Great Star of Genesis. To assist in this program, to assist in the creation of the individual Star Cells, or to assist in the world-wide placement of these Clusters of Star Cells—the Blessed Chambers of Eternal Light—these actions, actions to create, actions to position properly, these actions carry great energy, energy of the Beloved Great Star of Genesis. The life force of the individual gets aligned with the brilliant Beams of the Light of the Great Star of Genesis. The individual engaged in this activity—the activity to create the Blessed Star Cells, the activity to position the Chambers of Eternal Light—the life force of the individual devoted to these activities gets infused with the energy contained within the Beloved Great Star of Genesis. The life gets immersed in the essence of the brilliant Form of the Era of Eternal Light, bathed in the Radiance of the Sublime Light of the Great Star of Genesis. The thoughts, the actions, the life, gets Illumined with this Blessed form of Sublime Radiance.

There is a world-wide requirement of 7,000 clusters of Star Cells, Chambers of Eternal Light. The task is great. The process to create this quantity of Star Cells requires vast

resources, and there is a tremendous need at this time for assistance to come from our Beloved Masters of the Light of Genesis.

Beloved Masters of the Light of Genesis, you have worked tirelessly for many years in the Enlivenment of the Genesis Energy for Creation. These actions, this dedication, and the dynamics of Time, have brought about this Blessed Process of the Great Transformation. This is the great shift of the structure of life. The shift from the suffering brought about by darkness, into the Era of Eternal Light. This, Dear Ones, is the Great Transformation and, as foretold by the wise of every culture, this Blessed period in Creation is Now. This is the Time.

The initial phase in this Blessed process has been accomplished. The Light must be sufficient for the New Form to be seen. Dear Ones, just as the foundation must be prepared before the framework is erected; the Light of Genesis must be Enlivened before the New Form Emerges. The land must be prepared—settled, leveled and prepared. Then the foundation is set.

Dear Ones, we have set the foundation. Now it is time for the construction of the Form. The foundation is of utmost importance. The entire development, or construction, of the Form can only be based upon this Platform. The solidity, the stability, the scope of the New Structure, is already established by the quality and design of the foundation. Our foundation, Dear Ones, is solid.

The Light of Genesis, Enlivened by the performance of the Techniques of Eternal Light, the Art of Creating, the use of the Blessed Tools of Genesis—all of the efforts of our Beloved Masters of the Art of Creating—have established a brilliant structure, a brilliant foundation upon which the New Form for the Era of Eternal Light may Emerge. This Form, Dear Ones, is the Beloved Great Star of Genesis. The foundation is accomplished.

The second phase is the Process of Creation. In this phase, Dear Masters of the Art of Creating, you will find the blossoming of your abilities. In this Process of Creating, you will find the Fruits Forming from the Seeds which you have laid and tended to in your performances of the Blessed Techniques of Eternal Light. Creation is the second phase in this Beloved Formation of the Era of Eternal Light—Creation of individual units of Eternal Light, the Star Cells. This is the construction of the framework.

The final phase in this Blessed process of the great shift in Creation is the Formation of the Network of the Light of Genesis. And this is accomplished through the proper placement of the Clusters of Star Cells. Many hands of Light will be required for the proper placement of these Chambers of Eternal Light throughout the lands.

There will also be Star Cells, especially designed, for placement within the waters of the Earth. The Blessed Cells, these Star Cells, carry great power and energy. Each contains the signature of the Blessed Great Star of Genesis, just as every cell in the body is imprinted with the Knowledge of the Form.

Dear Ones, at this time we will ask for the assistance of those who are able to offer the resources for the creation of the Blessed Star Cells for the Network of the Light of Genesis. Every Blessed Master of the Light may participate in this phase, either on an individual scale or on a large scale. Each home of our Blessed Masters should have at least one Chamber of Eternal Light.

Many performances are to come which will use the Blessed energy of this great structure of the Great Star of Genesis. By the middle of this year we will see 1,000 Star Clusters in place around the world. With this energy in place we may begin our instructions in the Techniques and use of the Blessed Star Cells in the Era of Eternal Light. It is a beautiful Emergence of the Blessed Great Form of the Light of Genesis for All.

Yes, it is very good, very good.

Many Blessings Dear Ones.

The Great Star of Genesis is the Beloved Form for the Era of Eternal Light

Lantos:

Greetings Dear Ones,

Beautiful, beautiful—the Blessed Form for the Era of Eternal Light is emerging. The Great Star of Genesis is the Beloved Form for the Era of Eternal Light. We are structuring the framework, Dear Ones. We are putting into place the framework for the Emergence of this Great Form—the Great Star of Genesis. The Framework, Dear Ones, is the Network of the Light of Genesis.

As this Global Network of the Light of Genesis is Established, the Brilliance may be seen by all. The Brilliance of the Light of Genesis in the Era of Eternal Light is for All to see.

The Essence of the Structure of the Great Star of Genesis is contained Within the Individual Star Cell. Clusters of the Cells Form a Blessed Chamber of Eternal Light capable of transmitting the Energy of the Blessed Form of the Great Star of Genesis to the Surroundings. Many Clusters Form the Framework—the Blessed Global Network of the Light of Genesis. Yes, beautiful.

These are the dynamics of the shift from one Era of existence into the New Era of Eternal Light. It is a great shift, it is a Great Transformation. There is great work to be accomplished in the months ahead.

Our Beloved Director of the Light of Genesis will appoint coordinators for the Network of the Light of Genesis—first appointing continental coordinators; then we will gather the Hands of Light which may position properly these Blessed Chambers of Eternal Light, centering in the locations of greatest population of Earth.

We are creating one Chamber of Eternal Light for every one million population—7,000 Blessed Chambers of Eternal Light Forming the Beloved Network of the Light of Genesis.

As this Network Forms, Luminous Rays of the Great Star of Genesis will shine with Great Brilliance. As the Framework is completed, the occupant enters the dwelling.

Beloved Masters of the Art of Creating, we are Blessed with the task of preparation. We are trained in the Knowledge of the Light of Genesis and the Precious Knowledge of the dynamics of the Process of Creating. Many hands are required for this great task. We will establish 1,000 Chambers of Eternal Light by this coming mid-year, positioning properly the Clusters of Star Cells, such as, to support the Blessed Network of the Light of Genesis.

At that time, we will train our Blessed Masters of the Light in the Techniques of the Great Star of Genesis. These instructions will be on the use of the Blessed Chamber of Eternal Light in aligning the physical structure of the body with the Form of the Luminous Rays of the Great Star of Genesis.

Dear Ones, as these Chambers of Eternal Light are established in the proper locations, Forming the Brilliant Network of the Light of Genesis, your own homes will become Holy Grounds—grounds Blessed with the Streaming Radiance of the Luminous Rays of the Great Star of Genesis. Yes, it is beautiful.

For this Blessed great task, all hands of assistance are required. We are erasing the negative residue remaining in the lands and even in the waters of this Precious body of Earth. Sublime Energy and Balance will Emerge for the entire system.

Very good, it is very good.

Many Blessings Dear Ones.

Today is a Day of Great Silence

Lantos:

Greetings Dear Ones,

Today is a day of Great Silence, the Blessed Great Silence dwelling at the basis of all Form. Within all Form of Activity, all Form of Existence, lies the Silent Layer—Fullness of Silence, Complete Silence, Pure Silence. This Silence is within all Form.

Today, this Blessed Silent layer Emerges to bless all Form, all Creation. On this Blessed day of Great Silence, we will discuss the inner nature of the Form of Eternal Light, the Beloved Great Star of Genesis. Our Beloved Great Star of Genesis draws its Form from the depths of this Beloved Great Silence. The glory of the expression of this Blessed great Form of Eternal Light, the Great Star of Genesis, owes its origin to this Realm of Blessed Stillness. The expression—eight points of light extending out in all directions—is Formed through the Rotations of the Blessed Process of Creation, Initial Rotations. The Great Spiraling which occurs at the basis of all Form, this process of Creating, generates the eight points of Light, the eight pyramids of this Mighty Form of this Era of Eternal Light.

The Blessed eight points of the Radiant Great Star of Genesis are Formed on the basis of Silence. The Silence is located in the Inner Core of the Beloved Great Star of Genesis. Out of this Inner Core Radiate Shooting Beams Spiraling out in eight directions. This, Dear Ones, is the Structure of our Beloved Great Star of Genesis—the Form for the Era of Eternal Light.

In the center is Silence, Stillness—the greater the Silence the more dynamic the actions surrounding it. Out of this Great Silence Emerges the brilliant shooting rays of Light, Forming the Blessed Network of the Light of Genesis for all. This Blessed Network of the Light of Genesis is Formed through the Proper Placement of the Blessed Star Cells; each an Eight Pointed Star, each Reflecting the Energy contained in the Mighty Great Form of the Beloved Great Star of Genesis.

The proper placement: the placement in the lands and in the waters of Earth, the placement according to the residue of action. Action—impressions left in the memory of the location. We will position these Blessed Star Cells according to the population.

Impressions get deposited into the Earth's structure through the thoughts and actions of the individuals of each continent. There will be separate methods applied to the positioning of each cluster of Star Cells for each continent.

Yes, Dear Ones, now based on this Blessed day of great Silence, let the dynamic actions be launched to Form the Blessed Network of the Light of Genesis. All hands are

required. The work is for our Beloved Masters of the Light of Genesis, our trained Masters of the Art of Creating.

The placement of the Beloved Chambers of Eternal Light—in your homes, in your areas—working together to support the creation and placement of our Beloved Network of the Light of Genesis.

In the coming days, following this Blessed day of the Great Silence, we will commence assembling and training the Precious Star Cells within this Phase of Creation of the Network of the Light of Genesis.

Enjoy the Sublime Blessings of the pure Silence which has Emerged today in the Brilliance and Fullness of the Glory of Eternal Light.

Many Blessings Dear Ones.

This Great Miracle of Creation

Lantos:

Greetings Dear Ones,

There exists, on every Layer of Creation, a particular energy—certain impulses of Creation, certain vibrations. These impulses give rise to the expressions of life on that layer of existence.

An apple seed will only give rise to an apple tree. It will not grow into a coconut tree or an orange tree. The Form of the apple seed contains the Energy, the Knowledge, the Structure which gives rise to the Formation of the fully developed apple tree. This entire body of information, the entire Form of the apple tree, is contained within this small seed, which one may easily hold within the palm of the hand.

Can you imagine the surprise if this connection is unknown to an individual. One may point to the mighty apple tree and then to the seed and say, “You see, this too contains the energy, the Knowledge, the Form, of that mighty structure”. Such a surprise—the person would receive a great shock. How can this be? The Knowledge and the Form, the Energy of that Great Structure, is contained within this tiny seed.

Yes, Dear Ones, it is a great amazement that the energy, the Knowledge, of the Beloved Form of the Era of Eternal Light—the mighty structure of the Beloved Great Star of Genesis—is contained within the Blessed Star Cell, which can be held easily within the palm of the hand.

Just consider for a moment, this great miracle of Creation—such a great Blessing. The energy, the Knowledge, of the mighty structure of the Great Star of Genesis may be held in the palm of the hand.

Just as the seed requires proper placement, a proper environment for its growth, so too, the Blessed Star Cells require a specific environment, a specific placement for the development into the Full Value of the Mighty Form.

Now we are speaking of the Layers of Creation, the positioning of the Star Cells into specific Formations, specific Arrangements. These, Dear Ones, are the Formations of the Chambers of Eternal Light—the Assembly of Star Cells laid out in a specific pattern according to the location of the placement on Earth—the placement on the land, the placement in the waters, the placement in the lower levels of altitude, the placement in the higher levels of altitude.

We will have four different types of arrangements of the Star Chambers. The positioning of the Chambers of Eternal Light throughout the lands and waters of the world is to be designed according to population.

Soon, very soon, we will enter the process of the creation of the Blessed Star Cells. Each Cell will contain the Blessed energy, the Knowledge, the dynamics of the mighty structure of the Beloved Great Star of Genesis. Each Star Cell is a Precious Form, a Form containing the Energy—the brilliant Radiance of the mighty Star of the Era of Eternal Light.

We are Forming the Blessed Network of the Light of Genesis. We are Forming the Blessed Network to stretch across the Earth, Purifying, removing the residue of action.

This Blessed Network of the Light of Genesis consists of one Chamber of Eternal Light for every one million population. This is the great power of the Radiance of the Beloved Star Cells.

Dear Ones, with your Beloved assistance and dedication, we will generate this Blessed Form for the Era of Eternal Light.

Many Blessings Dear Ones.

One Chamber of Eternal Light for Every One Million Population

Lantos:

Greetings Dear Ones,

Do we have our coordinators?

Cindy:

And I answered his question that I believe we have several of the coordinators selected. And then he continued,

Lantos:

Our Blessed coordinators will begin to construct a plan for the proper placement of the Beloved Chambers of Eternal Light for each continent, based upon the population—the locations of greatest population. There can be an Assembly of Chambers of Eternal Light in areas of great population.

For each continent, look at the maps, maps which detail the populations for each region of the world. Areas of greatest density must receive the greatest numbers of Star Cells. Within each continent, the designation is for one Chamber of Eternal Light for every one million population.

Each Beloved Chamber of Eternal Light consists of Ten Star Cells. These Blessed Star Cells, Assembled in the Clusters Forming Chamber of Eternal Light, will rid the lands of the residue of the effects of action—human condition, thoughts, actions. The residue must be cleared away.

The Blessed Chambers of Eternal Light are not only responsible for the clearing away of the past, together they Form the Beloved Network of the Light of Genesis, the structure for the Emergence of the Great Star of Genesis—the Form for the Era of Eternal Light.

The Phase of Creation is under way. Soon we will be Generating the Beloved Star Cells. By the middle of this year, we will have positioned the first one thousand Chambers of Eternal Light, and we will be set to receive the instructions for the personal use of the Star Cells, as well as our Blessed Water Cells.

Let the coordinators create the maps for the Network of the Light of Genesis—the plan for the Network of the Light of Genesis. We will review this plan. We will review these maps, charting the general placement of the Chambers of Eternal Light for each continent.

It is very good, very good.

With the assistance from all, we will move to create this Blessed Network of the Light of Genesis.

Many Blessings Dear Ones.

The Global Network of the Light of Genesis

Lantos:

Greetings Dear Ones,

The Blessed Network of the Light of Genesis—we will refer to this Blessed directive as the Global Network of the Light of Genesis—yes, the Global Network of the Light of Genesis. Our Beloved Linda is our Global Coordinator and Director of the Light of Genesis with our Blessed coordinators for each continent.

Tomorrow we will announce the names of our Blessed Continental Coordinators of the Global Network of the Light of Genesis. This beautiful seminar will offer each individual the full scope of Knowledge of the Sublime Activities which have commenced. The detailed Knowledge of the structuring of the framework of the Global Network of the Light of Genesis for the Emergence of the Mighty Form of the Era of Eternal Light—the Beloved Mighty Great Star of Genesis.

Blessed Masters of the Light of Genesis, Masters of the Art of Creating, you are each presented with a Blessed Invitation to align your attention, your activities, your support, with the Radiance of the Global Network of the Light of Genesis in constructing the framework to support the Beloved Form for the Era of Eternal Light—the mighty Great Star of Genesis. Aligning the life force of the individual with this Blessed activity; one receives the Radiance, the Sublime Energy, from the Beloved Great Star of Genesis.

We are focusing on the Full Range of Structuring the Layers for this Global Framework, from the Layers of the Smallest Expression—the Individual Star Cell—through the Layers of Increasing Expressions of Fullness—the Clusters of Star Cells, which we Call Chambers of Eternal Light—the Collections of these Chambers within the boundaries of areas of great populations, ascending to the scale of the great regions and continents of Earth.

From the tiny Star Cell Rising Upwards, to the Layer of Greatest Expression of the Mighty Great Star of Genesis—the Fully Formed Expression of the Beloved Global Network of the Light of Genesis.

Tomorrow, Dear Ones, we will Receive the Knowledge of every Aspect of this Blessed Unfoldment of the Era of Eternal Light.

Many Blessings Dear Ones.

The Precious Water Cells Act for the Waters of Earth

Lantos:

Greetings Dear Ones,

The Form of the Era of Eternal Light is the Beloved Mighty Great Star of Genesis. This Form will Emerge in its Full brilliance as the framework of the great Global Network of the Light of Genesis is structured for the Earth.

We may understand this process more easily and clearly as we consider the process of the construction of a home, a dwelling. A dwelling is the framework, or form, for the activities of a family. In a house with only one or two rooms, the family's activities are limited, limited by the lack of certain features. For instance, this one or two room home does not have a kitchen and, thus, does not support the function of preparing the meals.

In this structure—a framework without a kitchen—the path of the family, the activities of the family, remains limited. Great efforts must be applied in order to prepare the meals in such a house. The lack of a kitchen does not entirely prevent the food preparations. We do not say that it is impossible to prepare the foods; only, we say that in such a house, in such a form, the activity of cooking is not supported.

As it happens, some time passes and a new house is constructed for the family. It is a very great Blessing for the family. In this new house, this New Form, there is a greater number of rooms—the sleeping and bathing rooms, a kitchen, a library, a play room. As the family enters this new dwelling, it is quite automatic that the daily activities expand to include actions which were not supported by the previous form. The young children play in the playroom, the older children perform their studies in the library and the meals are prepared with great ease in the kitchen. The activities are performed with ease, owing to the support offered by the form.

Dear Ones, in such a manner the activities of life are performed, carried out within the structure of the framework, within the structure of the Form for that particular Era. A Form with limitations will not support Greater Expressions of Life. Life's Full Value will not easily be attained under the conditions of a form with many limitations.

This is the Time of the Great Transformation. It is the shifting of the Form—the shifting of the very Structure through which Life's Activities are carried out. Actions are performed by every individual and, yet, these Actions are performed on the Stage. The Stage is the Platform on which the Actions are performed. It is the same Structure, the Platform—we refer to it as the Form of the Era. The Form of the Era of Eternal Light is the Beloved Mighty Great Star of Genesis.

Yes, good, very good.

The Global Network of the Light of Genesis is to establish the Blessed framework for the Emergence of this Mighty Form.

Each Star Cell is the Reflection, the dewdrop of the Blessed Radiant Mighty Form. The drop is the Reflection of the ocean—the relationship of the ocean with the drop. The structure, the nature of the ocean, is contained within the drop.

Collectively, the Precious Star Cells Form the Clusters, and these Clusters Form the Global Network to Support the Emergence of the Mighty Form—the Beloved Great Star of Genesis. The Star Cells act for the lands of Earth. The Precious Water Cells act for the waters of Earth. The Water Cells perform a separate function. The function of the Water Cells, assembled into Water Chambers, is to generate a cosmic energy—an energy, a vibration, one may even call it a sound—which is of the highest order. These Precious Water Chambers are receptacles brilliantly reflecting the Radiant Beams of the Great Star of Genesis as they encircle the Earth, Blessing All.

Now, Dear Ones, we will position these Blessed Water Chambers in the major bodies of water—the Earth's ocean and the great waters of the Earth. In turn, we will receive the great Blessings from these waters. The waters will be changed; the waters will offer the Earth the frequency, the energy, for the structuring of the Beloved Global Network of the Light of Genesis for All.

We will ask for a Coordinator for the Waters. This Coordinator will work together with our Beloved Masters of the Light of Genesis across the Globe, in placing Water Chambers in each of the great waters of Earth.

Based upon size, we will distribute and place into the waters, some number, some number in the vicinity of 3,000, Water Chambers. Based upon the proportion of Earth's surface, we will position these Blessed Water Chambers. Some consideration will be offered for depths, but greater emphasis is placed on the spread of the water across the surface of the Earth, the surface area. Only some small consideration is added, some extra several chambers may be added for greater depths.

Yes, yes, very good, very good.

We will discuss this further in great detail with the maps. We will examine the maps.

Yes, very good. It is beautiful.

Many Blessings Dear Ones.

These Blessed Clusters of Sublime Energy will Awaken the Lands

Lantos:

Greetings Dear Ones,

Silence is the core. Within the field of action, one locates within the Silence. Our Blessed Star Cells radiate out brilliant Beams of Sublime Light—Beams like brilliant lightning bolts, streaming out in all directions. This brilliant activity, issued on the surface, is generated by the source of this energy. The source of the energy of the Star may be traced to the dynamics which occur within the Core of the Star.

The outer expressions of bursting Light and Energy arise out of the process which occurs within the Great Star. Like this, in this same manner, the Blessed Mighty Great Star of Genesis is the energy source which is reflected by each individual Star Cell. Each Star Cell is a brilliant Reflection of the Blessed Energy of the Beloved Great Star of Genesis. Eight points, radiating out in all directions—the Blessed Form for the Era of Eternal Light.

Now, we will place these assemblies of Star Cells in the proper arrangements, according to layer, according to continent. These Blessed Clusters of Sublime Energy will Awaken the lands—Clearing the Memory, wiping clean the residue from past influence, action—the Impressions which have been deposited into the Structure of the Lands. These Structures, these Impressions, Influence the Quality of Life for all in that location. And, the lands of every location impact the Structure of the Global Form. We refer to this Global Body as the Form of the Earth, as the Global Form.

At this time of the Great Transformation, this Earth is experiencing the Great Shift from the previous form to the Form of the New Era, the Era of Eternal Light. The Expression of this Form, the Structure of this Form, is the Beloved Mighty Great Star of Genesis.

Through our Blessed Global Network of the Light of Genesis we are placing these Blessed Star Cells, arranged in proper assemblies, to rid the areas of the residue which still remains, existing within the lands and waters of the Earth. We are positioning the Beloved Chambers of Eternal Light, and the Water Chambers, to rid the Earth of these impressions which have been deposited into the structure of the Earth—through the thoughts, the actions, the impulses of activity—generated by the individuals of every continent. Together we are Forming the Beloved Global Network of the Light of Genesis.

Dear Ones, the Invitation is for Action—Action to accomplish the Sublime Blessings which await all Existence at this very time in Creation.

It is very good, very good Dear Ones.

Many Blessings.

A Great Joy to Announce the Star of Genesis Training Course

Lantos:

Greetings Dear Ones,

It is a great joy, a great joy.

We will structure the course for the training of our Blessed Masters of the Global Network of the Light of Genesis. A course to offer the Techniques for utilizing the Blessed energy of the New Form which arrives for this Blessed Era of Eternal Light—the Mighty Great Star of Genesis.

We will train our Beloved Masters in the Techniques for healing, Techniques for increasing the vibration of the environment—beginning with the household—Techniques for guiding one’s life along the proper path. The path is marked by the Beloved Mighty Great Star of Genesis. The Star of Genesis is the Guide, the Tool which will guide one in the proper direction.

When there is a problem, a dilemma, the solution is seen by the Guiding Light. The Beloved mighty Great Star of Genesis shines as the Guiding Light of the New Era, the Form of the Era of Eternal Light—a Star, a Mighty Star.

Yes, Dear Ones, you will receive the proper training whereby this Blessed Tool, the Beloved Star Cell, will serve as the guiding light; Illuminating the Path, Illuminating the Goal—the great Star which shines in the sky, signaling the Goal.

Dear Ones, such a vision has been received on Earth in prior times—the sign of the Great Star. At those times, in those earlier periods, the Star would appear, only to again disappear. The Blessed Mighty Star—the Great Star of Genesis—is the Form which, once structured through our Beloved Global Network of the Light of Genesis, will shine with great streaming rays, extending outwards in all directions.

Once the framework has been achieved, the Beloved Great Star of Genesis will assume the position as Guiding Light for Earth’s New Era—the Form for the Era of Eternal Light. This Light will shine with great fiery brilliance for tens of thousands of years, before settling into its Subtler Form.

Dear Ones, it is a great joy—today it is a great joy—to announce the Star of Genesis Training Course for our Beloved Masters of the Global Network of the Light of Genesis. It is a great joy.

Many Blessings.

These Blessed Star Clusters Cleanse the Earth

Lantos:

Greetings Dear Ones,

Dear Masters of the Light of Genesis, our steps are supported by Great Elements, Great Beings of Light, as well as the direction of Time. We are structuring the Blessed Global Network of the Light of Genesis—the Blessed Network Formed by the Chambers of Eternal Light placed in set locations across the lands and waters of the Earth.

As a Plan Forms, even the Formation has an effect on the environment. Yes, even the Structuring of the Blessed Global Network of the Light of Genesis, in this Phase of Creation, in this Phase of Formation, even this—the early Steps of Activities—has Generated a Wave of Energy and Light. Even before one embarks upon a significant activity, one may experience a taste prior to the activity. At this time, we will gather all Forces of Support, all hands of Assistance, in order to Accomplish the Formation of the Blessed Global Network of the Light of Genesis.

The Essence of the Structure of the Great Star of Genesis is contained within the individual Star Cell. Together the Clusters of Cells Form the Beloved Chambers of Eternal Light, emitting the Energy of the Blessed Form of the Mighty Great Star of Genesis to the surroundings.

Positioned in locations around the world, these Great Clusters of Light Form the framework for the Blessed Global Network of the Light of Genesis. It is very beautiful, very beautiful. We are ridding the body of Earth of the impact of human action, the residue of human condition, the memory of action stored in the lands and waters of Earth.

These Blessed Star Clusters cleanse the Earth, the lands, the waters, of these negative deposits—one Chamber for every one million population, centering in the locations of greatest population. The positioning of the Clusters according to population will Bring Forth the Full Radiance of this Blessed Great Form for the Era of Eternal Light. Yes, it is very good, very good.

Now, let us act together to Form this Great Structure for all.

Many Blessings Dear Ones.

Make Way for the Arrival of the Beloved Mighty Great Star of Genesis

Lantos:

Greetings Dear Ones,

Today, on this Blessed Sun Day, the Knowledge arrives to us in the Form of one simple instruction: Make Way for the arrival of the Beloved Mighty Great Star of Genesis. Yes, beautiful—the Beloved Mighty Great Star of Genesis: Make Way, Make Way! We have received the instructions establishing one Blessed Chamber for every one million population.

The human structure is a Form, which both generates impulses of energy, impulses of activity, as well as receives impulses of energy from the environment. One knows the effects of energy on the human structure—electrical energy has an effect, magnetic energy has an effect, sound energy has an effect. All Forms of Energy have an Influence on the condition of the human system. Likewise, the human system generates its own influence—this is the influence of action. Action is energy, energy which radiates to the environment—affecting not only the actor, the one generating the action, but also impacting the surroundings. The effects of these actions are stored in the lands and waters of the Blessed Earth. The Earth is impacted by these stored actions—actions which affect the quality of the overall condition of the Earth, and in turn, the Earth's ability to support life. You see—one affects the other.

Over Time the Earth's system cleanses itself from many of these residues. This process occurs both naturally, through the Earth's own mechanisms, as well as through the continual influence of actions generated. The Earth is continuously cleansing itself, through measures such as storms, rains, fires, winds—these features serve as the tools to cleanse, to purify itself from residues of action, deposits which have been stored in the physical structures of Earth.

This purification may also be accomplished from the side of human action. As the positive vibration of action increases, much of these negative residues are uplifted, eliminated from the structure of the lands and waters. But there still exists some deposits of the past, some residues we call them. These residues continue to influence the lives of all. All life is affected by these remaining packets of past action. Even after the rocks have been cleared from the road, some dirt is left behind—some particles, some smaller pieces—still making it dangerous to navigate.

Dear Ones, it has taken many thousands of years to clear away the old boulders, the large impediments, causing the suffering seen existing generation after generation. In this Blessed Time, this Blessed Time of the Great Transformation, we hail the great removal of these large impediments to life. And yet, there still exists some hesitation, some

conditions, preventing the Full Experience of the Sublime Radiance of the Era of Eternal Light.

The framework of the home, the structure of the home, must be fully constructed before the owner enters the dwelling. Yes. For this, for this, Dear Ones, we are assembling the Blessed Global Network of the Light of Genesis, constructing the framework for the Era of Eternal Light, and it is upon this Platform that the Beloved Mighty Great Star of Genesis—the Form for the Era of Eternal Light—may Emerge in full Radiance, shining with Sublime Brilliance to guide all life for thousands of years to come.

Today, we are simply instructed to make way, make possible, make preparations to offer your assistance and dedication to assembling these Chambers of Eternal Light, placing them according to population around the world. We have the maps—our Blessed coordinators for each continent have generated maps, indicating numbers and locations for the placement of these Chambers within each region of each continent. We will soon have available the first 1,000 Chambers of Eternal Light for distribution.

Dear Beloved Masters of the Light of Genesis, while it is important to assemble the proper number of chambers for your own region, it is equally important to accomplish the Formation of the framework in other regions of the world, as this Blessed Network of the Light of Genesis is truly a Global Network. And, while the bedroom and closet may be constructed, the framework is not complete until the kitchen and living rooms have also been completed. Each region is important, each region is significant to structuring the Whole, and Wholeness is required, Wholeness is required.

Very good, very good.

Many Blessings Dear Ones.

Each Chamber of Eternal Light will be Set According to Each Location

Lantos:

Greetings Dear Ones,

Very good, we are Forming the framework, we are constructing the framework. Each Chamber of Eternal Light will be set according to each location. Each Chamber of Eternal Light will be tuned according to the frequency of that layer within that particular continent.

The signals must be transmitted properly, just as in the case of the satellite network. Each satellite dish must be pointed in the proper direction so as to receive and carry the proper signals. Each Chamber is designed to both receive as well as transmit. We are constructing the Beloved Global Network of the Light of Genesis. Upon this Platform, upon this framework, the Mighty Great Star of Genesis Emerges as the Form for our Blessed Earth.

Each Blessed Chamber of Eternal Light is tuned in such a way as to send and receive the Blessed beams of the Great Star. Each individual Cell is a Reflection of the whole. Within this structure is the brilliant Reflection of the Radiant Dynamics of the Blessed Great Star of Genesis. Each Cell interacts with the other Cells, Forming the Unit, the Cluster, the Radiant Chamber of Eternal Light. Together, these Blessed Radiant Units Generate the Radiant Form of Wholeness.

Dear Ones, the Blessed upcoming course—the Star of Genesis Training Course—will offer the Knowledge, the instructions, for utilizing these Blessed Tools. We will offer the Knowledge, the instructions, for initializing the Holy Waters with our Precious Water Cell. We will practice the Procedures to receive the Guiding Light of the Blessed Great Star of Genesis with our Star Cells. Yes, Dear Ones, you will become Masters of the Global Network of the Light of Genesis and receive all Knowledge: all Knowledge, all Knowledge.

Very good.

Many Blessings Dear Ones.

A Worldwide Presence of the Blessed Star Cells of Genesis

Lantos:

Greetings Dear Ones,

Each expression of Creation has Form. As Creation Emerges, as Creation Emerges, it Emerges as Vibration. Yes, Creation Emerges as Vibration. This Energy, or Vibration, has a Specific Pattern, a Certain Pattern. This Pattern is the Form—the Form of the Expression of Creation. This is the Process of Creating, yes.

Dear Masters of the Art of Creating, this is the Blessed process whereby—out of the Limitless Realm of Eternal Light—Creation Emerges, Form Emerges. Yes, this Blessed process occurs on every level, on every scale of Creation—from the smallest scale to the largest scale. From the Creation of the tiniest dust particles to the Formation of the grandest galaxies, the process is the same—it is the Process of Creation, the Process of Creating.

Knowing this, understanding that this process is the same process, the same process for the Creation of all Form, one realizes that—even when we are speaking of the Creation of a Mighty Form, the Beloved Great Star of Genesis—we are speaking of the same process: it is the Process of Creating. Yes. It is good to always see the simplicity of Creation: while the expressions of Creation are many, the Process of Creating remains the same.

Our Blessed Global Network of the Light of Genesis will establish a World-Wide Presence of the Blessed Star Cells of Genesis. The Reflections of the Energy and Form of the Beloved Mighty Great Star of Genesis, assembled together: ten of these Precious Star Cells generate the Energy, the Vibration of a Chamber of Eternal Light. Each Chamber of Eternal Light transmits the energy across distances of Earth, cleansing the lands, clearing the lands, of the effects of human activity. The Blessed Chamber of Eternal Light generates an influence of the Great Star of Genesis and Enlivens the energy to purify the negative residues stored in the lands and waters of the Earth.

Past deeds, past thoughts, past events—these influences have been stored in the Earth as a residue and have been carried forward through time, burdening the Earth, causing disruptions in the cycles of the Earth, as well as creating disturbances in the patterns of the weather and climates of the Earth. These influences, the burden of these residues, impact all life, all forms, causing disruptions, suffering, disease and war.

At this great time, the mountains of memory have been released out of Earth's atmosphere. The Blessed Great Beings of Light, together with the ongoing Blessed activities of the Light on Earth, have cleansed the Earth to a very great degree. In this Great Transformation, supported by the Great Cycle of Time, in this shift we now have

the Blessed opportunity to construct the framework whereupon the New Form for Earth may Emerge. This Beloved Form is the Mighty Great Star of Genesis.

Dear Ones, in these coming two, three months, we will place 1,000 Blessed Chambers of Eternal Light throughout many countries. It is through the assistance of our Beloved Masters of the Radiant Light of Genesis that our Blessed Global Network of the Light of Genesis will Form. Yes.

It is beautiful, a beautiful structuring. Beautiful.

Many Blessings Dear Ones.

A Star Master—Monarch of the Stars

Lantos:

Greetings Dear Ones,

We are opening the doors to the Great Light, the Great Light of Creation. This is the transition—this process of opening the gates is just that. We welcome the arrival of the New Era, we welcome the arrival of the Form of the Era of Eternal Light—the Beloved Mighty Great Star of Genesis.

This is the Great Transformation—from the previous state to the state of Sublime Radiance—the Radiant Beams of the Great Star of Genesis. All life proceeds in the direction of a greater state.

As we Construct this Beloved Global Network of the Light of Genesis we are Constructing the Framework to Support this greater state. To have in one's own home this Precious structure is a great Blessing. The structure of the Chamber of Eternal Light is such that the Brilliant Illuming Rays of the Mighty Star may be reflected or transmitted into the surrounding lands. The effects go into the Earth. The Earth absorbs this structure, this framework, and, as a result, the Earth releases its grip-hold on the impressions of the past—past actions, past thoughts.

This Precious Chamber of Eternal Light automatically sends out the signals to other Chambers in the surrounding area. The signals travel across the distances. When picked up by another Chamber, there is an increase in the effect; there is an increase in the Light, an increase in the energy.

It is like the traveling whales. The whale travels the great distances across oceans: underwater, swimming and going along, proceeding along the designated path. From time-to-time, the whale sends out the tone—the sound which carries great distances. When received by another whale this signal creates ripples of joy, it generates a collective effect, an increase of energy. Collectively these Blessed Chambers of Eternal Light act to rid the lands of the remaining influences of human condition, allowing for the upsurge of this Blessed Mighty Structure, the Form of the Era of Eternal Light.

And then he paused a long time, and I thought he was just done. But then he went on and said,

A Star Master, Monarch of the Stars—this is the coming Knowledge, the coming experience for our Beloved Masters of the Sublime Light of Genesis.

Very good, very good.

The Mighty Form Emerging to Support All Life

Lantos:

Greetings Dear Ones,

This Global Network, yes, this Global Network of the Light of Genesis—it is a structure, it is a Web-Work. Do you see? Each Chamber is a clear Reflection of the Great Star of Genesis. The brilliant rays expand outwards in all directions.

The structure—the structure of the Blessed Star is a subject for discussion in our upcoming Course of Training. During our Course of Training, we will investigate the nature of the Great Star of Genesis, as this Mighty Form is the Form for our Blessed Earth for the Era of Eternal Light.

We will gain the Techniques for the use of the Star Cells. These Precious individual Tools are the Units of the Blessed Form of the Era of Eternal Light. The Units, the Cells—together a Cluster of these individual Cells Forms the Chamber. A Chamber is Formed out of the arrangement, the specific sequence, of these Precious Cells, Units. These Blessed Star Cells shine with Streaming Brilliance, Lighting the Path, indicating the Proper Path, Signaling the Goal—yes, the Goal which is at hand.

As these Chambers of Eternal Light are assembled for each region, each region becomes illumined, connected. In this manner, the Network is structured. Very good.

We are constructing the Platform for the Blessed Form of the Great Star of Genesis. This is the mighty Form emerging to support all life, all activity, for the Blessings of All for thousands of years to come.

Many Blessings Dear Ones.

The Beloved Great Star of Genesis is the Coming Form for Our Blessed Earth

Lantos:

Greetings Dear Ones,

This is it! This is it! The Form, we are commenting now on the Form of the Era of Eternal Light. Within the Form abides the complete Value of Expression—such Perfection, such Perfection of Expression. The Expressions come forth out of the Form—out of the Form the Expressions Emerge. The Form is the basis, the Framework. That which is not contained within the Form will not be Expressed. This is a very beautiful point, very beautiful.

One does not go to the flower shop to purchase a car. One can only Acquire that which is Supported by the Form. From within the flower shop the selection may be made for the Tulips. The selection may be made for the white Tulips or the yellow Tulips, the selection may be made for the red Roses—many choices, a full range of choices. Yet, this is the form of the flower shop—all flowers, all plants—but there is no ability to acquire a vehicle here. The thought for purchasing a vehicle does not even arise while browsing around the lanes of the flowers. This is the role of the Form, the Form.

The Form Acts as a Filter, out of the Complete Range of Fullness; the Filter Acts to allow certain Qualities, certain Expressions to Emerge. You see? The Form determines the Array of Expressions Emerging out of Fullness. The Form Establishes the Channels, the Pathways of Expression for Creation.

Fullness Flows through these Open Channels. And who designs this Blessed Structure? The Great Cosmic Architect, the Great Universal Being of Light possessing the Vision—Complete Vision, Vision to Perceive the Unfoldment, the Dynamics of Interaction as time unfolds.

Through the Unfoldment of time all these Expressions Emerge along the Pathways Defined by the Form of the Era. A beautiful Vision, a complete Vision.

Now, Dear Ones, in this Time of the Great Transformation, the Form—that Filter for the Structure of Creation—the Form is Shifting. It is a Great Cosmic Shift, from the old to the New. From one house, one structure, to a New Structure. The Significance is Great—Total, Complete.

While there may be similarities from one dwelling to another, the Experience will be Greatly Altered—the family living in one home shifting to another. Now the family may Experience the Greater Possibilities coming along with the new home, Greater Possibilities—bedrooms, library, entertainment, swimming. Experiences which were unavailable in the old dwelling will be at the fingertips, easy access with the New Structure.

Like this the Form, the Precious mighty Form of the Era of Eternal Light, will offer a vast increase in all that is possible—all that is available in the experience of the expressions of Creation. This is a New Form, a Platform for the expressions of Creation.

The Beloved Great Star of Genesis is the coming Form for our Blessed Earth. Yes, Dear Ones, this is the significance of the Blessed structure, the Blessed Form of Eternal Light. It is, for this reason, that we are establishing the Global Network of the Light of Genesis to generate the Web-Work of Light, Energy, around the World, for the Emergence of this Blessed Mighty Form of Creation.

Many Blessings Dear Ones.

We Are Preparing for Great Action

Lantos:

The leader of a nation wields the directorship for the people of the nation. The greater the nation, the greater the authority held by the post of leadership. The leader is the Reflection of that which is led. The leader of a great corporation is met with reverence and respect. It is like this, like this.

Our Blessed coordinators for each region, for each continent—our Blessed coordinators reflect the energy associated with the Formation of the Network of the Light of Genesis for that area—the Mighty Energy associated with the collection of Star Cells, the assemblies of Chambers of Eternal Light for that region, that continent. Soon Dear Masters of the Light of Genesis, very soon, our Beloved Chambers of Eternal Light will be ready for placement.

The Phase of Creation has commenced and soon we will require the many hands of Light for the positioning of these Beloved Chambers of Eternal Light. Each Chamber must be positioned to bless an area of the land. Placement of the assemblies of Star Cells in the proper arrangements will purify the lands, will awaken the lands; purifying the lands from the past influence, the residue of action. We are clearing the memory, the residue of human condition. Our Blessed Global Network of the Light of Genesis will purify the lands and waters of the Earth.

Dear Ones, this is the call for action, action to complete the Phase of Creation, action to implement the Phase of Placement. Through these activities we will structure the Platform for the Form for the Era of Eternal Light—the Beloved Mighty Star of Genesis. We are preparing for great action.

Your many months of experience with the Blessed Techniques for Creating have prepared your cells for this great period of change. Now, again Dear Ones, as we await the arrival of our Blessed Star Cells—the Pure Reflections of the Great Star of Genesis—we will practice on these Sun Days, again, our Blessed Technique of Transformation.

Today, following this message, each individual, in the comfort of the home, should again sit and practice our Beloved Technique of Transformation. Yes. With this instruction we will begin.

Many Blessings Dear Ones.

The Beloved Water Cells are Initialized Specifically for Each Individual

Lantos:

Greetings Dear Ones,

The Blessed Star Cells: these Blessed Points of Light reflect the beautiful structure of the Great Star of Genesis. Yes, it is a great amazement!

The Energy, the Structure, the Nature of the Mighty Great Star of Genesis, can be Awakened within a small, small Form. Such brilliance, such blinding Radiance generated by the Dynamics of the Process of Creating, Awakened in an object which can fit in the palm of the hand. It is the brilliance of a Spark. Yes, the Blessed Star Cell is like the brilliance of a tiny Spark.

Within the Nature of the tiny Spark Exists the Qualities of the Great Fire. Even this tiny Reflection of the great whole can ignite a blaze. The Spark possesses the same Form, the same qualities, as the great blaze—one Spark—it is Precious in its nature. A cluster of Sparks interact to express more fully the Nature of the full blaze. Like this, like this, our tiny Star Cell is the Reflection of the Mighty Great Star of Genesis. Like this, like this, our Precious Water Cells serve as the drop, the Precious drop, reflecting the mighty fullness of the ocean.

The Beloved Water Cells are initialized specifically for each individual. Each individual will provide the information of the full name and the birth day. With this information the Water Cells will be initialized for the specific sequence code of the individual. It is a blueprint, a blueprint of Life—the code of memory, the channels of Light—through which Life passes, Life progresses.

Life is lived on these bands of Light—the Channels of action, memory—specific to each individual. The Blessed Water Cells will be initialized with the Knowledge of the fullness of the individual blueprint, restoring the memory. We will discuss the nature of the functioning of the Blessed Water Cells further.

At this time we will sit comfortably together now. Let us enjoy the practice of the Blessed Technique of Transformation.

Many Blessings Dear Ones.

Training Course and Celebration

Lantos:

Greetings Dear Ones,

The Blessed Water Cells, the Blessed tiny droplets of the Great Cosmic Ocean. This, Dear Ones, this aspect of the Great Star of Genesis, is the Blessed Great Cosmic Ocean—the flowing aspect of the New Form of the Era of Eternal Light. It is the aspect of fluidity. The Great Cosmic Ocean is the fluid aspect of the Mighty Form. Do you see?

For some time now, this Blessed Great Cosmic Ocean has approached our Sphere of Earth. It is a great purifying influence; an influence of the highest vibration, the highest order. Its very Presence Purifies—Purifies and Uplifts—raising the Vibration of all Life, establishing the Connection between the Forms on Earth with the Great Universal Energy.

It is an Ocean of Energy, an Ocean of Life, an Ocean of the Motion of Light—Motion of Energy. This, Dear Ones, is the Blessed Great Cosmic Ocean. It has appeared at certain times in recent months, offering Great Blessings, Great Upliftment.

As we establish our Beloved Global Network of the Light of Genesis, we will establish the Form to house, to support, the Blessed Great Ocean. The two work together. The Beloved Mighty Great Star of Genesis is the Form for our Blessed Earth. The Beloved Great Cosmic Ocean is the Blessed Aspect of Motion—Purity. These two aspects complement each other to Form the complete framework for the structure, the Form for our Beloved Earth. It is the complete Form to support the highest experience of life, the highest order of Energy on Earth.

We, Blessed Masters of the Light of Genesis, we are Forming this Global Network to support the Highest Experience of Life—the Experience of Eternal Light in all Aspects of living, all Expressions of Creation. It is the Form which supports the experience of life. The Form acts as the Great Cosmic Filter to offer up the specific channels of possibilities.

The Blessed Great Star of Genesis is the Form. The Great Cosmic Ocean is the flowing aspect which interacts with this Blessed Mighty Form, together Forming the magnificent, Complete Value of Life—Supreme Value of Life, Supreme Value of Sublime Life, Life Experienced in Fullness, Fulfillment.

We are offering Fulfillment to all through the structuring of this Beloved Global Network of the Light of Genesis. Do you see the role now each one of our Beloved Masters of the Art of Creating is to Fulfill? You are establishing Points of Light, Clusters of Light—here, there, in every area of Earth—Forming a Global Network to support the Brilliant Light of the Great Star of Genesis. It is not degrees of Fullness—Fullness Emerges as

Fullness. It is not 80% Fullness, 90% Fullness—once it is there, it is there. It is beautiful.

We are discussing the nature of our Beloved Global Network of the Light of Genesis. Starting with the droplets of the Great Cosmic Ocean, the Blessed Water Cells, we are Forming the Water Chambers. We will position these Blessed Water Chambers into the Oceans of Earth, just as the Oceans of Earth wrap around the lands of the Earth, together Forming a Whole. Like this, the Great Cosmic Ocean wraps around the Beloved Mighty Great Star of Genesis, Forming a Complete Structure, a Supreme Form for the Blessings of all—a Form for the Era of Eternal Light.

We will soon distribute these Precious Tools, Master Tools. We will offer the training course to instruct our Beloved Masters of the Light in the proper use and placement of these Precious Instruments. We will structure this course for July. July is the time of the Great Assembly.

During the Assembly of Light, we will train our Beloved Masters of the Light—one hour on the 7th of July, an hour on the 8th, an hour on the 9th. On the 10th of July, we will Celebrate the Placement of the Beloved Chambers of Eternal Light around the World. It will be the beginning of the great steps to achieve the Global Network of the Light of Genesis—the initial Placement of one thousand Chambers of Eternal Light around the World. Beautiful, beautiful. Training in the use of these Blessed Master Tools, training, and then Celebrating the Placement. Beautiful.

Let us connect with our dear Masters around the World. Can this be accomplished with video? Let us offer the visual Celebration to each of our Beloved Masters of the Light. Those working tirelessly to assist in the Great Transformation—the Transformation from limitations to the Life Illumined by the Limitless Value of Eternal Light. Yes, let us show to all the great map of placements, the locations of the Blessed Clusters of Eternal Light, and the Water Chambers, together Forming the Blessed Global Network of the Light of Genesis. Yes.

Many Blessings to all.

The Precious Structure of Creation is Brilliant

Lantos:

Greetings Dear Ones,

We will consider further the nature of the water droplet, the droplet of the vast and Mighty Ocean. In this way, with this simple example, we may more clearly understand the Relationship of the Star Cell—the individual Star Cell—with the Mighty Great Star of Genesis.

One droplet, one droplet—this single Expression contains the Essence of the Great and Vast Ocean. The wetness, the saltiness—the similarities are there in Structure. And, it is this Structure which Supports the Great Diversity of Life seen Existing within the Mighty Body of the Ocean. We say the droplet offers the taste of the Ocean. The droplet provides a clear Reflection of the Qualities of the Mighty, Vast Ocean.

And yet, and yet—this is an important point—there is still yet something missing from the droplet, something missing. That Element, that Missing Something, can only be found within the Collection of Many—Many Individual Droplets. That which is missing can only be found in the Assembly of Many, the Collection of Many. The Droplet, in and of itself, is a Great Representation of the Nature and Qualities of the Ocean, but something is Missing.

What is Missing is Fullness, Fullness—that Fullness which Emerges out of the Collection of Individual Droplets. Only then the True and Mighty Value of the Ocean Emerges. Only then, the tiny Droplet rejoices as the True Status of its own Nature is revealed. Do you see? Nothing has changed for the Droplet of Ocean, individually it remains itself—and yet, and yet, this tiny Droplet has Assumed the Status of the Mighty Ocean.

This Transformation, this Transformation comes about through the Proper Assembly of the individual Droplets. The change comes about through the Great Assembly, and it is through this Great Assembly that the whole array of New Possibilities Emerge.

Though the Entire Whole is merely a Collection—an Assembly of individual Droplets—Infinite New Possibilities Emerge as the Collection is Assembled. The corals may grow, the whales may exist, the tides may Form, the waves may rise. These Great Possibilities come out of the Collection. Great Possibilities Emerge out of the Proper Assembly. You see?

Dear Masters of the Art of Creating, it is Brilliant. The Precious Structure of Creation is Brilliant—a Brilliant Plan, a Brilliant Design.

The Reflection of the Mighty Ocean is contained in a Droplet. The Mighty Tree Emerges from the tiny Seed. The Source of the Great and Mighty Universe may be located within the smallest Values of Expression.

When we say we are Forming a Global Network of the Light of Genesis, what we are saying is that we are Assembling the many, many Droplets in the Proper Form, the Proper Arrangement—the Precious Star Cells. We are Assembling many, many Star Cells in the Proper Clusters and Positioning these Chambers of Eternal Light in the Suitable Locations throughout the world according to Population. And, in so doing, we are generating the Expression of the Fullness of the Great Star of Genesis—the Mighty Form of this New Era of Eternal Light. It is the Blessed Global Network which offers the Structure, the Proper Framework. And, what Emerges? Fullness. It is brilliant, the design of Creation is Brilliant—such Simplicity at the basis of such Great Diversity.

Dear Ones, through the Great Assistance and Support and dedication of our many Masters of the Light of Genesis, we are Creating this Blessed Global Network of the Light of Genesis. Yes. It is through your devoted support and efforts that this is coming about for our Blessed Earth.

In the coming few weeks, we will have our first Star Cells and Water Cells; our first Chambers of Eternal Light and Water Chambers, to begin the Phase of Action, the Phase of Placement. More and more Chambers are required for all parts of the World.

Let us hear a report from our Blessed Continental Coordinators on the requirements for their regions. In our upcoming Sun Day conference, let us hear the description of the Beautiful Design of the Plans for Placement. On this coming Sun Day we will enjoy the reports from our Blessed Coordinators of the Global Network of the Light of Genesis. Yes, we will look forward to this Blessing of Knowledge.

Very good. Very good.

Many Blessings.

It is the Mother's Day

Lantos:

Greetings Dear Ones,

It is the Mother's Day—the Blessed day Honoring the Source. It is a day of Celebration for that Great Force of Creation responsible for All Life. Mother is the grand title given to signify this position. One has offered one's life for the great purpose of Creating and Nourishing. A higher role than this does not exist. With deepest reverence, we offer gratitude to every mother. Beautiful—the day of this most beautiful Expression of Life, the day of this Expansion of Life.

Now Dear Ones, on this celebratory day, we will hear from our Blessed Coordinators of each continent—those individuals with the broad scope of Vision, the heightened sense of Direction; along with a great capacity to Organize and Guide the Energy and Resources to accomplish the Goal of establishing the Global Network of the Light of Genesis.

We will hear now from each Continental Coordinator, beginning with the continent with the greatest population, and in descending order, continue along until we have a complete Vision of the requirements for the World; the requirements for our Beloved Global Network of the Light of Genesis to Generate the Platform for the Mighty Great Star of Genesis—the Form for the Era of Eternal Light. Yes, it is very good, very good.

On this day, when Hearts and Minds are focused on the Highest Value of Creation, the Value of the Source, we will enjoy this Blessed Vision of the structuring of Fullness for our Blessed Earth. It is the Emergence of the Highest Light, the Beloved Mighty Great Star of Genesis. Yes, yes.

Dear Masters of the Light, let us enjoy now these words of Vision from our Beloved Continental Coordinators.

Many Blessings.

This is the Great Shift of Time

Lantos:

Greetings Dear Ones,

These are the Blessed Days of Training. One will look back upon these days with great appreciation for the steps taken. It is the preparation. Before Ascending to the Throne, there are some preparations, some training period. Our Beloved Masters of the Art of Creating have been practicing the Blessed Steps of Creating, the Blessed Process—Universal in its Nature—of the Art of Creating. These things are learned through repetition. Then, that which is learned is sustained. It becomes a part of the life, a part of the day-to-day process of living.

This is the Great Shift of Time. We are in the Process of the Great Transformation of one Era into the next. We will continue our steps along the Path. These steps have Great Significance. Each step is Significant in Structuring the Results.

We are now in the Process of Creating the Framework for the Era of Eternal Light. We are Assembling the Chambers of Eternal Light. Our Beloved Continental Coordinators are establishing the designated locations for the positioning of these Blessed Chambers of Eternal Light. All hands working together will Structure this Blessed Global Network of the Light of Genesis. Upon this Framework of Light, the Mighty Great Star of Genesis will Emerge as the New Form for our Blessed Earth, the Form for the Era of Eternal Light for all.

In only a few short days we will begin the process of distribution of these Blessed Chambers of Eternal Light. We will commence the phase of placement, the phase of positioning.

Each Blessed Star Cell is a Luminous Reflection of the Mighty Great Star of Genesis. Each Blessed Star Cell offers Brilliant Streaks of Lightning-like Radiance which travel out in all eight directions, shooting across great spaces.

We may think of the Stars spread across the vast ocean of space. One Star, so isolated, separated from others by enormous lengths of distance, and yet—and yet—the Light from this Brilliant Fiery Cell travels across all space, its Radiance reaching all other Stars. Together they Connect; together they Form the Web-Work of the Great Galaxy.

The positioning of each Precious Star in relation to each other will determine the Quality or Identity of that particular Galaxy. Galaxies are Formed in certain Patterns or Formations according to the Placement of the Stars within that Galaxy. One Formation may result in a Spiral Galaxy, another Formation may result in a different Pattern. Each Pattern or Formation will have a particular set of Qualities and will behave in a specific manner.

Like this we have our Blessed Individual Star Cells—each Cell, a beautiful Reflection of the Mighty Great Star of Genesis. When Assembled together we see the Formation of a Chamber of Eternal Light, a Cluster of Star Cells.

According to the particular Formation, different Effects will be seen. It is an important point to understand this Relationship of the Individual Star Cell with the Collection—an Assembly of Star Cells into the Specific Chambers of Eternal Light—one Galaxy here, one Galaxy there. Together these Blessed Galaxies Form the Great Band of Universe. It is the Collection. Out of the Collection, Fullness Emerges. The distances may be great, and yet they are Linked Together, one with the other, altogether. The great Universe Emerges out of this Collection of each Individual Galaxy Formed in particular Patterns, Arrangements of the Blessed Individual Star Cells.

Dear Ones, it is a Great Amazement, it is a Great Amazement. Within each individual Star Cell is the Reflection of Totality—the Whole. Fullness of the Form of the Great Mighty Star of Genesis is Reflected within the Precious Star Cell. The grandeur of the Great Tree is Reflected within the tiny Seed. Yes, this is the Blessed Vision.

You will be given the details of the specifics for placement in the Training Course. Now, Precious Masters of the Light of Genesis, let us Assemble this Great Form. Let us Assemble this Great Universal Form of the Mighty Great Star of Genesis for Earth.

Very good. It is very good.

Many Blessings.

A Universe of Possibilities

Lantos:

Greetings Dear Ones,

Now we will consider the Formation of the Blessed Global Network of the Light of Genesis. Night and day, day and night—this is our focus. The focus is on Structuring the Platform, the basis, the Web-Work of the Channels of Light for the Emergence of the Great Form—the Mighty Great Star of Genesis.

This should be in the thoughts of every Blessed Master of the Light of Genesis. In so structuring this Blessed Network, we Structure the Home, the Residence for the New Era. The Path of Life is lived in the Conditions set forth by the Environment. The Actions of Life are enjoyed; Life Finds Expression through the Structure of the Form Present.

We will take an example—one living in the desert will not learn the wonders of the ocean. The form of the desert will support other activities, but not the familiarity with the ocean journeys.

Precious Masters of the Art of Creating, we are Experiencing the Period of Great Transformation—one complete State of Existence, one Complete Set of Possibilities, Shifting to give rise to a Blessed New State—New Possibilities, a Universe of Possibilities, lively within the Structure of the Form of this Blessed Era of Eternal Light.

We are discussing the Nature of the Blessed Great Star of Genesis, the Mighty Eight-Pointed Star of Supreme Light. Each Point contains the Dynamics of Creating, Radiating out from the Center, from the Core, to each Direction of Creation—the Process of Creating Awakening all in every Direction. It is beautiful, beautiful.

It is time now for all to see our Blessed Star Cell, the Pure Reflection of the Great Light of the Mighty Great Star of Genesis. This image must be seen by our Beloved Masters of the Light. It is the image of our Beloved Star Cells.

Very good, very good.

We are approaching that Blessed Time of Commencement of the Phase of Positioning.

It is beautiful.

Very good, very good Dear Masters of the Light.

Many Blessings.

We are Celebrating the Commencement of the Global Network of the Light of Genesis

Lantos:

It is beautiful, yes? Beautiful. Our Beloved Star Cell—the Reflection of the Mighty Great Star of Genesis; the Precious Droplet Reflecting the Sublime Glory of the Mighty Ocean; the Precious Spark; the Reflection of the Brilliant Flames of the Sun. Yes, Dear Masters of the Art of Creating, it is beautiful.

The Blessed Structure which Supports the Glory of the Vast Form of the Era of Eternal Light—it is beautiful. The Cherished Form of the Seed, the Seed which Contains the Glory of the Mighty Great Tree—it is the Great Amazement of Creation, a Great Amazement—the Reflection of the Mighty Tree contained in the tiny Seed.

Today, Dear Ones, we will enjoy the Blessed Radiance of the view of this Blessed Star Cell. Dear Ones, we are Celebrating the Commencement of the Global Network of the Light of Genesis, now and for all to come, for all to enjoy.

Many Blessings Dear Ones.

All Life on Earth will Enjoy the Expanded Reality of Life

Lantos:

Greetings Dear Ones,

The Conditions of the Earth, the Conditions of Existence on Earth, are determined by the Form Governing the Earth—the Form. Yes, Dear Masters of the Art of Creating, we are in the Process of the Great Transformation. On Earth, this is the Great Shift of the Conditions of Life, Existence. It is the Field of Change.

At this time of Transformation, that which Dominates is Change. As the New Form is Structured, as the Mighty New Form Emerges, that which will Dominate is the Field of Eternity. The New Form for the Era of Eternal Light is Without the same Limitations, Without the Boundaries which Guided the Expression of Life for Millennia.

Life is Directed by the Governing Form. This New Form, the Mighty Great Star of Genesis, is the Structure which Supports the Limitless Realm of Light—the Light of Genesis. Such a beautiful thing—a Structure which Supports the Structure-less, a Form which Supports the Formless—it is beautiful.

The Energy, the Vibration, which is Emitted from each of the Precious Chambers of Eternal Light Awakens the Form, gives Structure to the Form of the Era of Eternal Light. In only a short time you will Experience the Energy, the Awakening, of the Pure Energy of the Mighty Form—the Beloved Great Star of Genesis.

We will Experience the Structuring of the New Form for Earth, for all. All will enjoy the changes—all life on Earth will enjoy the Expanded Reality of Life, the Real Nature of Life—Supported by the Mighty Form of the New Era.

All Activities will Flow, all Life Flows on the Stream of Time. And yet, the Platform whereon all Actions are performed, the Platform, will Hold the Energy, the Intelligence Required for Complete Success in the Techniques of the Art of Creating. It's beautiful. It is the Nature of the Great Star of Genesis.

Even though it is the same Earth, the same continent, the same village, and the individual is still completely engaged in the activities of Time and Space—even so—the individual enjoys the Expanded Range of Possibilities Offered by the Beloved Mighty New Form. This is the Realization of the New Era. Yes, this is the Structuring of the Global Network of the Light of Genesis for all.

Many Blessings.

We Begin the Discussion of Placement

Lantos:

Greetings Dear Ones,

Today we begin the discussion of Placement—Placement. Always, in every Plan of layout, there are Levels of consideration. This is the Brilliance of Creation, the Brilliance of the Process of Creating. There are many Levels, Layers. We have the Layer of the Global Network of the Light of Genesis, the Layer of the Structuring of the Platform for the Emergence of the Form, the Mighty Form of the Great Star of Genesis for all. This, Dear Ones, is one Layer, one Level of consideration—Fullness.

It is the consideration of the Whole. There is the Layer of the Continents, the Vast Regions. On this Level of consideration we look at the general Aspects of population. Population is an indication of the Level of Human Activity, human condition, which has left impressions in the lands and waters of the Earth—residue of action deposited in the Structure of Earth, Impressions deposited by the Thoughts and Actions of the population over time.

Placement on the Level of the Continents is a general consideration according to overall population. From the level of the continents we go through the Levels of the Regions, to the Levels of the large Cities, to the localized Level of the Household. At each Layer of consideration, the Plan for Placement becomes less general, more specific, more and more localized. Each Layer has its own conditions and each Layer relates to every other Layer, Structuring Fullness. Fullness Automatically Emerges out of the Collection of the many, many Layers. It is the Brilliance of Creation.

The Structuring of Fullness comes out of the Collection of Every Layer of Creation, Automatically. Each Layer will have its own Set of Conditions, its own Set of Knowledge. Brilliant, beautiful.

We have now some idea of Placement on the larger Levels of area—on the Levels of the Regions and the Continents, even on the Levels of the Cities—we have some good idea of the numbers of Chambers of Eternal Light required to Fulfill the Structuring of the Global Network of Sublime Light.

Our Beloved Continental Coordinators have designed beautiful maps, maps for the Placement of these Precious Chambers of Eternal Light, Reflecting the Radiance of the Mighty Great Star of Genesis. Beautiful, beautiful.

As our consideration comes to the Finer Layers, the more Localized Layers, we arrive at a more specific set of conditions, a Specific Set of Knowledge. It is on this Layer that we will consider the Specific Placement of the Chambers of Eternal Light within the household.

Do you see the Relationship of the Finer Layers with the larger, more General Layers? Together the Collection of the individual households give rise to the Layers of the Cities and Regions.

The Layer of the Global Network of the Light of Genesis Emerges from the Assembly of All Layers. Out of the collection of All, Emerges Fullness—the Form of the Era of Eternal Light, the Beloved Mighty Great Star of Genesis, the Blessed Form of the New Era.

We will discuss the details of the Placement within the household on Sun Day.

Many Blessings.

Locate a Place of Honor

Lantos:

Greetings Dear Ones,

The household is the location of the Form of the Family. It is an Individual Energy, Formed out of the Structure of the home, along with the Energy of the Individuals dwelling within the home.

As a new individual enters the household the Energy of the home Shifts. The arrival of the guest has an Influence on the members of the household, and the guest, in turn, receives the Blessings of the Form of the house. The Energy is exchanged in both directions. The honored Guest Offers the Blessings to the home and the household Offers the Blessings to the New Arrival.

The Placement of the guest will determine the Dynamics of the household. If the guest is placed in one room, the children are asked to move their play to the other side. On this Surface Level of consideration, we may understand the Effects of Placement, the Influence of Placement.

Now Dear Ones, today—on this day of Illumination, on this Sun Day—we will consider the Effects of Placement of our Precious Chambers of Eternal Light within the individual household. As with the consideration of the Placement of the esteemed guest, we will offer some points, some Insight, into the Influences Generated through the selection of Placement of the Precious Chambers of Eternal Light.

Positioning: There are Layers of Consideration; Knowledge Arises in various Expressions according to the Layer of Consideration. First, we will consider a very broad Layer, the Global Layer.

Because our Blessed Chambers of Eternal Light are each a Precious Reflection of the Brilliant Form of the New Era—because of this Significant and Sublime Layer of Consideration—we will offer a general guideline.

Within every home one may locate a place of Honor, a place in the home which, when the attention is focused on this location, when the attention is focused in this direction, the attention is Elevated, the Spirit is Raised, owing to the Heightened Quality of the Existing Conditions.

These Conditions may include special objects such as family images, pictures, plants, objects of beauty. Or, or, this location of Honor may simply be a Quiet, Still Location—one which does not attract the day-to-day objects. This Special Location, this Location of Honor, is a very good choice for our Precious Form, our Precious Chamber of Eternal Light.

It is the Placement of Honor: the Precious Chamber of Eternal Light may be placed on a table, it may be placed on a shelf, it may even be placed upon the floor. If the floor is the location chosen within the household, it will be good to Offer a Mat or some material to be placed under the Chamber. It may even be acceptable to position the Chamber of Eternal Light within a drawer or within a case, providing that there are no day-to-day objects within the same location.

This Precious Cluster of Star Cells, Dear Ones, will be Performing an exceptional task day and night. Therefore, a Location of Honor should be Offered. This is the Knowledge on the Global Level of consideration, on the broadest Level of Consideration. This selection of Honor will be acceptable on All Layers.

Now, there are several other Layers one may consider. These are considerations on more Localized Layers. One may consider the level of the needs of the individuals within the household. Different placements will accomplish different, specific results. These individual needs may include points such as the health of a member of the family, the status of the head of the family within one's community, or within one's workplace. One may also consider the happiness or wealth of the family as another aspect for consideration when placing the Precious Chamber of Eternal Light. According to the desired specific effect, the placement may be selected, may be directed, specifically to match these needs. We will continue this discussion of Placement in the coming days. It is very good.

The arrival of the Precious Star Cells, the entry into the Seat of Eternal Light—the Seat of Eternal Light is the Gateway for these Blessed Master Tools of the Light of Genesis—the Star Cells flock to the Seat of Eternal Light to enjoy the Blessings of the Great Beings of Light.

From here, they will spread to all parts of the Earth for the Blessings of all.

Many Blessings.

We Welcome the Arrival of Our Precious Star Cells

Lantos:

Greetings Dear Ones,

We welcome the arrival of our Precious Star Cells. The Quality of the Light for Earth is increased. Even the Presence of these Precious Tools, even the Creation of these Blessed Forms, has Expanded and altered the Structure of Earth. It is a Great Expansion for the Precious Light of Creation.

This increase of the Level of Energy, this Quality of Light, draws the Angels to Earth. This Sublime Value of Light offers the suitable conditions, the suitable environment, for the Great Cosmic Beings. Earth, in this Time of the Great Transformation—this Great Time of the Shift from one Form, the previous form of Earth's Existence, to a higher Universal Form—Earth rises to become a suitable home, a Blessed Location for the Great Beings of Light. The Shift for All Mankind, all individuals, is Great.

In addition, this Shift will bring, will draw to Earth, many New Orders of Luminous Beings—Angels and Great Luminous Beings will rejoice. Mankind will develop the Latent Potential, the Latent Skills, Blossoming into the Fullness of Individual Life—Individual Life Embodying the Fullness of Universal Light, the Light of Genesis. This is the Fruit of the Achievement of the Global Network of the Light of Genesis.

We will offer to you now the instructions for the Initialization of our Beloved Tools, the Precious Reflections of the Mighty Great Star of Genesis—the New Form which Emerges for the Era of Eternal Light.

Cindy:

And, he paused for a bit there and then I decided that...he had mentioned in the last message that he would be discussing in great detail the placement of these Chambers of Eternal Light within the house, and how, you know, different spots that we would place them would have different influences. So I asked him, I said, "You'd mentioned this and would you like to discuss this at this time".

And he said,

Lantos:

Yes, yes. In these coming few days we will discuss the Aspects of Placement. You see, it is like a Mighty River, the water is Flowing in a Direction, it is Flowing along a Set Path. If one places a boulder within this river, the Flow of water is affected. The object Interacts with the Environment in a particular manner. The Positioning of the Boulder will Create varying results, the Outcome will be Different.

Placing the boulder on the side of the river Creates a different Effect, a different Result than if this same boulder is positioned in the center of the river. The Depth of Placement will also Generate Different Results.

Every detail may be considered—the more Significant the Object, the Greater the Need for Consideration of these Specific Details. Placing a pebble here and there along the path of the mighty river will not have much consequence.

Dear Ones, the Chamber of Eternal Light is a Great Reflection of the Mighty Great Star of Genesis and this, Beloved Masters of the Light of Genesis, is a Great Object generating Immense Influence for the surroundings and; therefore, Illumined Consideration may be well applied to the Placement of this Brilliant Cluster within the household.

Very good.

Now we will begin our discussion of the steps of training for these Precious Star Cells.

Many Blessings to our Beloved Masters of the Great Art of Creating.

Master Lantos

It Is a Global Plan, a Global Event

Lantos:

We are in the Phase of Preparation—Preparation for the arrival of the Blessed Chambers of Eternal Light, the Blessed Star Cells, the Clear and Radiant Reflections of the Mighty Star of Genesis. The preparations are being handled on many Layers of Existence: on the Cosmic Scale, on the Individual Scale. Preparations are for the Establishment of the Global Network of the Light of Genesis. It is a Global Plan, a Global Event—an event whose Effects spread throughout Creation, Influencing Creation as the Great Transformation occurs into the Era of Eternal Light.

On the Individual Scale we prepare our household. We make arrangements for the Placement of the Chambers of Eternal Light. When we consider the Aspect of Placement, we may consider the Influence of the Placement of an object within its environment. We have evaluated on one Level the Placement within the home. We have found that the Peaceful, Uncluttered Location—a Location of Respect or Honor—such a Location will Glorify the Influence for the members of the household.

Now, let us consider the greater specifics, the more minute details of the Influence of the Energies of the Blessed Chambers of Eternal Light. There are often many rooms in a house. With each room, we may look to several Qualities which Define its Nature. One Element is the Purpose of the room. Is it a place of food preparation, or it is a place of rest? The intended Purpose of the room has an Effect on the Energy of those entering that particular location. If one feels hungry, one will not enter the bedroom. One gets accustomed to the Pathway of Fulfillment for each of the daily Needs. Purpose of the room is one Element.

A Second Layer or Element is the consideration of the individuals most Connected to that particular room. The playroom has a greater connection with the children; the children's connection is not so great with the business room or office room.

There is a Third Layer we will consider in our Evaluation of the Specific Details for Positioning this Great Cluster of Light. This Third Element is Direction: Direction with respect to Earth's Functions. We are referring to the Compass Directions, the directions of the sunrise, the Directions of Earth's Impulses. With the consideration of these three detailed layers, we may identify certain locations which may offer the greatest benefit for an individual of the household, or for a Specific Desired Result.

It is important to consider many Layers at once—while considering one Layer, we should not lose sight of other Layers. We should always keep in mind the General Considerations, while at the same time giving Recognition to the Details: a Location of Peaceful Honor will serve the General Purpose of this Mighty Cluster of Light. Also, we should always Acknowledge the Highest Purpose of these Precious Chambers of Eternal

Light as the Elements to Structure the Global Network of the Light of Genesis, bringing about the Brilliant New Form of the Great Star of Genesis.

During the course of training, we will cover many Specific Effects of Placement within the household. This will take about one hour's time, and it will be good to have present with you the Precious Chamber of Eternal Light. It will also be good to make note of the Location of the sunrise, as well as sunset, and the Fixed Directions of north, south, east and west as relating to the household or Location of the Placement of the Chamber of Eternal Light. The Chamber of Eternal Light may be positioned in a house or in an office, or in nearly any building. Or, the Precious Cluster may be planted within the Earth's Structure: in the ground or in a cave. The Water Chambers go into the waters, and we will discuss this Process later.

There is Great Value to the Placement of the Precious Chamber of Eternal Light within a home, or within a location where one spends time: a school, an office, a government structure—these are Highly Effective Locations which offer Specific Benefits. The Presence of the Chamber of Eternal Light within a continent will be Felt; therefore we do not need to concern ourselves much with these very Specific Layers of Consideration.

The Importance is in the Structuring of the Global Network of the Light of Genesis. In this way, all will be Blessed. The Great Star of Genesis will offer the Structure for the Fullness of Life to be lived by all. How can there be any other real concern?

We Focus on the Accomplishment of the Placement of 7,000 Chambers of Eternal Light throughout the World. This is our Focus, dear Masters of the Art of Creating. Yes, this is our Focus. All hands, all attention, must be offered to the Achievement of the Assembly of this Precious Framework. Yes.

Very good, it is very good.

Many Blessings Dear Ones.

The Star Cell Training Course

Lantos:

Greetings Dear Ones,

The Star Cell Training Course will be offered during the time of the Great Assembly of Light. The first lesson will cover the Details of Placement of the Chambers of Eternal Light within the residence, within the household. It will be good to receive this lesson in your home, in the Presence of a Chamber of Eternal Light. The length of this first lesson will be about one hour.

Cindy:

And I asked him, because we had had the question of the timing, I asked him if it would be alright to do the 6:00 pm Pacific Time. And he said,

Lantos:

Yes, good.

We begin by Establishing the Proper Setting for each household.

On the second day we will delve deep into the Energy contained within each Star Cell, the Great Universal Energy Expressed by the Great Star of Genesis. On this second day, we will describe in detail each Reflection of the Great Star of Genesis. We will describe the specific uses for each Tool.

On the third day, we will offer the instructions to those wishing to learn the Process of Initialization of Holy Waters. This may only be accomplished with the Sequential Star Cell, and the Initialization of the Waters of Life may only be achieved in the Presence of an Enlivened Value of the Form of the Era of Eternal Light. This requires the Presence of the Influence of the Great Star of Genesis.

Today, Dear Ones, we are on the doorstep of the Initialization of the First Chambers of Eternal Light. These Chambers will be sent out to all parts of the World and, by the time of the Great Assembly of Light, we will have 1,000 Chambers spanning throughout the World. This is a start to the Formation of the Global Network of the Light of Genesis.

What is required is the mark of 7,000 Chambers world-wide. For the Blessed Process of Initialization of Holy Waters—the Enlivenment of the Individual Sequence Code of Life within each individual, Awakening the Memory of Fullness—for this Process we require a Significant Presence of the Reflection of the New Era, a Clear Value of Reflection of the Great Star of Genesis.

This may be accomplished with multiple Chambers of Eternal Light in an area of dense population and surrounded by land. One may require Five Chambers of Eternal Light. Five Chambers positioned properly will offer a Brilliant Starburst of the Energy of the New Form—the Beloved Great Star of Genesis. This will enable the Process of Initialization to generate the Individual Sequence Code of Life: Restoring the Memory, Cleansing the broken Values, Restoring that which was forgotten—the Values of the Physical, Mental and Spiritual—to the State of Full Radiance, Supreme Balance, Supporting the Awakened State of Living—Life lived in Fullness.

In preparation for this Illustrious day, Dear Masters wishing to be trained in the Process of Initialization of the Holy Waters, it will be good to obtain in advance the proper number of Chambers of Eternal Light, also, the Individual Master Tool. We refer to this Tool as the Supreme Sequence Star Cell, that Precious Master Tool capable of Initializing, with the Individual Sequence Code, the Holy Waters of Life—one Master Tool for each individual. It is like this: one Supreme Sequence Star Cell for each individual. With this Master Tool, and in the Presence of the Radiance of the Great Chambers, one will obtain the Showering Blessings of the Sublime Sequence Code of the Individual Expression of Universal Life. Very good, very good.

Now, on the final day of the Training Course, we will discuss the Blessed Global Network of the Light of Genesis. This will be followed by Celebration and a Message of Light. Very good. Great events are commemorated by the Display of Light. Good.

It is clear?

Cindy:

And then he paused, so I just said, “So it will be one hour each day, and then the last day, how long?” And he said,

Lantos:

Less time will be required for this final day, half the time. Enough time to enjoy the Global Vision of Light.

Many Blessings.

Much gratitude goes to those who have generated this Great Success. It is a Brilliant Success for Earth, for all. Beautiful.

Now we continue with the steps required for the Complete Fulfillment of this Great Activity of Creation. Yes, we all share in the Radiance of the Blessed Achievement. Here now begins the next phase.

While we continue with the steps of the First Phase, we today, commence the Next Phase of the Establishment of the Global Network of the Light of Genesis, the Phase of Placement—Placement in every continent, Placement according to the required needs of the lands for the removal of the residue of action imbedded in the memory of the lands, lifting the residue of the heavy burden laid down over time, Generated by the Thoughts and Actions of the Collective populations.

This, Dear Masters of the Art of Creating, this Dear Masters, is our task at hand. We continue the Process of Creation, we now begin the Process of Placement.

Very good, very good. Well done.

It is a Week of Great Achievement

Lantos:

Greetings Dear Ones,

It is a week of Great Achievement, Great Success. We are Celebrating the Achievement of the Initial Phase of Creation for the Blessed Star Cells: the Pure and Radiant Reflection of the Mighty Great Star of Genesis, the Clear Reflection of the New Form for our Beloved Earth and the Great Transformation into the Era of Eternal Light. The Blessed Energy of the Mighty Great Star of Genesis is Emerging.

With the Establishment of the Global Network of the Light of Genesis we will Experience the Great Awakening of Ability, the Achievement of the Works of the Art of Creating, Mastering the Art of Ability: Ability supported by the Structure, the Form which Governs the Dynamics of Activity of Life on Earth. The Establishment of the Global Network of the Light of Genesis is the Creation of a New Platform for all Life, a Platform for All Actions and Expressions of Life.

Now we will take some time to review these Precious New Tools—Tools of the Mighty Great Star of Genesis, Tools for the Establishment of the Global Network of the Light of Genesis. We will now hear from our Blessed Coordinator a description of each of these Precious Tools. We will Enliven in our thinking the Establishment of the Global Network of the Light of Genesis.

Dear Masters of the Art of Creating, we are heralding the Creation of the New Era through the Establishment of the Global Network of the Light of Genesis. Yes, it is very beautiful, very beautiful.

Let us hear now these beautiful descriptions.

The Emergence of the Great Form for Earth

Lantos:

Greetings Dear Ones,

The Whole Vision is so beautiful—the Complete Vision of the Development of the Platform for the New Era—the Form, the Development of the Framework for the Emergence of the Great Form for Earth. We have commenced this Blessed Process. It is the Process of Awakening.

The great painter Awakens the colors and the Form onto the canvas. Some strokes here, some strokes there. It is out of the accumulation of brush strokes that the Form Emerges. The Form is not fully contained within the singular stroke. The Totality of the Brilliance of the Form does not Emerge out of the singular stroke. It is the singular stroke which Enlivens the Values of the Form. The collection of strokes brings about the Brilliance of the Totality of the Mighty Form itself. The strokes are Individual Reflections, Reflections of the Greatness of the Form.

When all strokes have been Assembled, when all strokes have been laid onto the canvas in the Proper Positions, Proper Locations, that which Emerges is a State of Fullness, Full Awakening of the Form. And, in this State, every stroke receives the Full Glory of the Form. There is a Transformation which Occurs. That which was once an assembly of strokes—though each a Brilliant Spark of Color and Form—that Collection, when complete, brings about the Transformation from the Assembly of strokes to the Emergence of the Brilliant Radiance of the True and Mighty Form. It is a Process of Creation and placement of the strokes—a Phase of Creation and a Phase of Proper Placement for the Full Development of the Emergence of the Mighty Form.

You, Blessed Masters of the Art of Creating, are the Great Artists of Creation, Artists of Creating, casting your strokes upon the canvas, each Positioning Properly the Blessed Individual Reflections of the Full and Mighty Form of the Era of Eternal Light—the Blessed Great Star of Genesis.

Each stroke is Precious, each stroke necessary for the Completion and Emergence of the State of Fullness—the Fullness of Form, the Form which will Govern Life and Its Expressions, Actions. All Expressions of Living will be Guided by this Great Filter, this Cosmic Filter, which will offer a Range of Possibilities to Life greater than can be foreseen or foretold. It is not enough to speak about the Glories of Fullness—Fullness must be Lived. It is not enough to describe the State of Full Possibilities—this State must be Experienced, must be Lived.

It is a Great Transformation. The Strokes are Assembled and the Mighty Form Emerges. You are the Artists of Creation Creating the Blessed Masterpiece—piece by piece the Master Emerges. Fullness is represented by the word Master, Master is Fullness. Therefore, the Great Masterpiece is just that—it is the Process of the Phase of Creation and the Phase of Placement of the pieces to Form together the Fullness.

On the Platform of Fullness the Master Emerges. This tells the whole story. Yes, it is clear? The whole story of the Blessed Art of Creating may be Expressed in one word—Masterpiece. Out of the Collection of all parts, all pieces Properly Assembled—out of this Emerges Fullness. Then it is seen that within each stroke, within each of the pieces, Fullness Exists.

Beautiful, beautiful.

Many Blessings to the Great Artists of Creating.

The Place of Each Chamber of Eternal Light is Significant

Lantos:

Greetings Dear Ones,

One by one the Blessed Reflections of the Mighty Great Star of Genesis are Illuming the Earth, one here, one there, one by one. It is not a large number which needs to be Achieved; it is very manageable, only 7,000 total Chambers for the lands of the Earth.

Our Beloved Continental Coordinators will offer the guidance and assistance to the Masters of the Light for each continent. The Placement of each Chamber of Eternal Light is Significant and must be recorded and logged into the mappings for the Illumination of the lands in our Global Network of the Light of Genesis. It is the Blessed Light of Genesis, the Radiant Beams of the Great Star of Genesis, which clears the remaining residue of the previous era of existence. It is a house-cleaning, a clearing away of the residue of the past action.

This Process of clearing is Performed through the Dynamics contained Within the Radiant Star Cells. It is contained within the Structure. This Blessed Eight-Pointed Structure Generates the Influence to Purify the Structure of Memory of the lands. Purification means Awakening—Awakening of the Natural State, Awakening of the Natural Conditions, ridding the structure of the outer influences which have been laid down over thousands of years as a heavy burden on the lands of the Earth.

This burden is experienced by all, all who walk upon the lands. As you enter a room you can see immediately the atmosphere in the room—are the people happy and joyous, are they arguing and distressed. Right away the atmosphere from these actions can be picked up and felt on a solid level of experience. It is a Concrete Experience. One can sense the Quality of the residue of action. These Impulses, these Memories, are absorbed into the Structure of the lands. The lands absorb the Influence of Action of each individual over all of time. It is an immense accumulation over time. All human condition, the Effects of Thought, Speech, Action—All Levels leave the impact.

Now, Dear Ones, as these Precious Chambers of Eternal Light are spread to many different locations, the Effects of this lifting of the residue which weighs down the Earth's Energy will begin to be felt by all. We are spreading hundreds of these Precious Reflections of the Mighty Great Star of Genesis to locations in all parts, all lands. It is a great coordinated effort, organized under the insightful guidance of our Blessed Continental Coordinators.

Now, the Chambers are spreading out—it is a very Great Process which has begun. The Purification of the residue is the Awakening of the lands. The Beloved Mighty Great Star of Genesis is the Precious New Form, the Form of the Era of Eternal Light.

We are preparing for the Blessed training course. In these few days, you will gain the Knowledge for the Placement of the Precious Chambers and the use of the Great Tools of Light—the Precious Star Cells.

It is very good. Great steps have begun—the Phase of Creation, the Phase of Placement—together Structuring the Global Network of the Light of Genesis for all.

Many Blessings.

Great Call to Action

Lantos:

Greetings Dear Ones,

We issue a Call to the Supreme Light of Creation, the Light which Illumines Existence, beginning with the tender First Expressions of Creation, continuing through the multitude of Expressions of Galaxies. We issue a Great Call to Action. We begin with the sounding of the Bells, the sounding of the Bells Awakens the Finest Values, the Finest Layers of Life, stirring the Cosmic Forces of Light. We ask for the Radiant Blessings of the Great Universal Beings, the Great Cosmic Beings of Light, the Radiant Messengers of Creation. We ask for the Blessings from All Levels of Creation—the Light of Creation, the Light of Genesis and all its Expressions. We sound the Call to Action, marked by the ringing of the Bells.

Beloved Masters of the Light of Genesis, this Great Call to Action signals the Advancement of the Global Initiative to Bring Forth the Mighty Great Star of Genesis. We are implementing a Global Network to position in designated locations 7,000 Chambers of Eternal Light, 7,000 Radiant Reflections of the Great Star of Genesis.

Each Reflection is a Brilliant Point of Light. Each Reflection Embodies the Qualities of the Great Star of Genesis. Each Reflection brings forth the multitude of Expressions of the Great Star of Genesis.

But, it is an important point here—the mirror can offer a crystal Pure Reflection of the Beloved Qualities, the Precious Droplet of the Ocean can Reflect the saltiness and the wetness of the Mighty Ocean—and yet, and yet, and yet—this Individual, Precious Reflection does not compare, does not compare, to the Immense Greatness of the Fullness of that Mighty Power which is at the Source of these Expressions. These Sparks of Reflections, these Sparks of Reflections are Sublime, most Radiant, Precious Expressions.

And yet, these Reflections do not individually capture the Immense Nature of Brilliance of the Mighty Great Star of Genesis. For this, we require the Full Support of the Global Network of the Light of Genesis. This Mighty Structure—the Mighty Great Star of the Light of Genesis—is coming forth as the Form, the Platform for all Action, all Expressions of Life, in this New Era of Eternal Light.

This is the significance of our endeavor. This Global Network of the Light of Genesis brings forth the Emergence of the Full Form for Earth—the Beloved Mighty Great Star of Genesis. The Blessed Global Network will Generate these Reflections spread in all areas, Generating a Web-Work of Supreme Light. Each Blessed Chamber of Eternal Light will rid the environment for each location of Earth. Each Precious Chamber will

rid the environment from the burden of previous thoughts and actions deposited in the lands and waters, raising Earth's Energy to the Vibration of Light, Light of the Mighty Great Star of Genesis.

For this reason, Beloved Masters, we have called our Global Initiative the Global Network of the Light of Genesis. This is the Great Call to Act.

Dear Ones, we must make great steps of advancement in these early days. With these Great Initial Steps Great Upsurge will follow. We must position adequate numbers of the Chambers of Eternal Light in areas throughout the World to Generate a Network Effect—an Effect of Dynamic Interaction between each of the individual Precious Units--Creating the first Structuring of this Blessed Global Network. It is a Web-Work of Light, reaching across the lands and waters of Earth.

This is the Great Call to Action. We must establish 1,000 Chambers of Eternal Light, Positioned according to population, at this time. This marks the Formation, the Level of Activation of the Global Dynamics of the Light of the Great Star of Genesis—the Form of the Era of Eternal Light. This is our task at this very time; this is our Great Call to Action.

Now, let us Bring Forth these Radiant Blessings.

Many Blessings.

It is a Beautiful Privilege

Lantos:

Greetings Dear Ones,

These are the days of Action, Action for the Advancement of the Global Network of the Light of Genesis. This is the Blessed Action of the Great Light, the Light of the coming Form for the Era of Eternal Light—the Mighty Great Star of Genesis.

We are, together Dear Ones, taking the steps to accomplish the Formation of the Blessed Global Network. In all times past, the Beloved student stands on ready to act at the Call of the teacher. This is the Blessed Role of the student. It is the Nature of the student to offer Service to the Guiding Light.

Together, Dear Ones, we are honored to be in this role of Service to the Supreme Light of Creation. Our Service goes to the Enlivenment of this Great Light for All Creation, All Existence. It is a Great Privilege to be in this Role, entrusted with this momentous Structuring of the Platform to Uphold the Immense Light and Energy of the Form of the Era of Eternal Light. It is a beautiful Privilege. It is an Immense Responsibility.

At this time, Beloved Masters—whose thoughts and actions have paved the way for this Blessed Structuring—at this time, we must Act to Spread these Luminous Reflections of the Mighty Great Star of Genesis. These Blessed Chambers of Eternal Light are to Shine with Great Brilliance, here and there across the great Globe. This will bring about the Awakening of this Network—this Global Network of the Strands of Light, Streams of Light of the Great Star—Connecting as a Web-Work. This Web-Like Structure captures the remaining impurities of the lands, the residue of the lands and waters of the Earth. This is what is required at this time. We will advance from here step by step.

This is the Program for our Blessed Earth. We are eliminating the residue of past influence for our World specifically. This is our task, one World Structuring the Platform for the Great Star of Genesis for Earth.

Very good.

Genesis Fusion

Lantos:

Greetings Dear Ones,

Day by day the Blessed Global Network of the Light of Genesis expands. Day by day New Points of Light are added to the Precious Web-Work, extending across lands and waters of Earth. Our Precious Chambers of Eternal Light are the Blessed Reflections of the Great Star of Genesis. Day by day the Structure grows.

Each Precious Reflection, each Precious Chamber, establishes a Center of the Brilliant Streaming Light of the Great Star of Genesis. Each Center Connects Globally with the other Centers of this Star Light—Light of the New Form for the Era of Eternal Light.

We are constructing the Network, establishing the Framework for the Great Star of Genesis to Emerge as the Mighty New Form, the Platform of Life, the Platform of Action and Existence for the Era of Eternal Light. It is a Blessed New Era of the Light of Genesis.

For this we establish the designated number of Points of Light, Centers of Light, spread here and there, according to the population, for the release of the residue of action, the remains of action, the impressions left imbedded in the structure of the lands and waters of the Earth.

These impressions must be released out of the Structure. The impressions create limitations, imbalance, and suffering for life lived. The Blessed Chambers of Eternal Light Perform the Function of eliminating these residues. The Blessed Chamber of Eternal Light also Performs the Function of Establishing the Web-Work of Light—Star Light, Light of the Great Star of Genesis. These two Functions are Performed Simultaneously. This is Genesis Fusion. Our Beloved Chambers of Eternal Light Perform these two Functions through the Process of Genesis Fusion. It is a Dynamic Process.

We have learned of this Process, the Dynamic Process of Genesis Fusion, we have learned of this Process in the Blessed Days of Knowledge—our Star Cell Training Course. We began describing this Burst, this Igniting of Sublime Light as the Beloved Super Star Cell contacts the individual life force. The meeting of the two elements—the Element of the Individual and the Element of the Super Cell—this combination Generates this Bursting Process of Genesis Energy. It is a Highly Dynamic Process. It is this same Process Applied on a different Level, on a different Scale.

Our discussion now is on the Genesis Fusion which occurs on the Level of the Chamber of Eternal Light together with the Contact of the Earth. This is what we mean by Proper Placement. Proper Placement is determined by continent, by altitude and by population—these ingredients. Proper Placement may also include individual considerations, considerations for the benefit of the individual or family in the immediate surroundings.

These factors being met set the stage for the occurrence of this Dynamic Process of Genesis Fusion. It is the Process of Combination of the Energy and Structure of the Great Star of Genesis, together with Earth's Structure—the Structure of land, the Structure of water. In this Process there is a great Burst of Energy and, with this, the elimination, the throwing off, of the residue of action—the throwing off of the Impressions deposited in the Structure of Earth. Two things, both things get accomplished. It is beautiful, beautiful.

More and more Chambers are sent out daily. As these numbers increase, the Effects will multiply. On the Level of the Individual, we have our Beloved Star Cell Tools, the Great Tools of the Light of Genesis. Our Beloved Tools are now reaching the hands of the Masters of the Light of Genesis.

Soon we will offer the Advanced Knowledge for the use and Effects of these Beloved Mighty Tools of the Great Star of Genesis.

Many Blessings Dear Ones.

Experiences Will Emerge Which May Appear Unexplainable

Lantos:

Greetings Dear Ones,

You are receiving the Great Tools of Light?

These Tools, these Precious Tools of the Great Star of Genesis Enliven the Energy of the New Form. The Platform for the Structure of the New Form is developing as more and more Brilliant Reflections of this Great Form are Awakened around the world, positioned around the world.

There is an Automatic Process of linking together; the Web-Work Develops Automatically. The Mechanics are so beautiful. Such a Great Intelligence organizes the Flow of Creation, the Structure of Creation. It is beyond the scope of scholarly investigation. The Source of Creation, the Supreme Source of All Creation Existence, is therefore called Almighty—the Almighty.

As we continue in our Activity, our dedication to Structuring the Global Network of the Light of Genesis, Experiences will Emerge which may appear unexplainable, unimaginable—Experiences which are New, New to the Structure of day to day living—New Events.

As we Assemble these Precious Tools, these experiences will Emerge. It is a Shift in the Form. It is much like moving into a new house, or remodeling the old structure. Many new features are added. Now we have the switch to put on the lights, the water flows with the twist of the handle. These things were unimaginable. All it took was a New Form to replace the old form.

The previous structure upheld life and activities suitable to that Era of Existence. As we enter the New Era, New Activities develop, New Possibilities arise. When we speak of these things on an intellectual level, without the Presence of the Tools, without the Enlivenment of the New Energy—New Structure—the understanding will be limited. That is why we must have these Precious Tools in hand, to Perceive the Possibilities, to Gain the Full Knowledge.

Let us hear an ongoing report of the Expansion of these Beloved Tools of the Era of Eternal Light. We wish to Enliven in the attention of each of our Blessed Masters of the Light, the general locations of the Chambers of Eternal Light around the World.

Each Blessed Master of the Light of Genesis should have some Knowledge, some perception of the locations of the Blessed Star Chambers, the Precious Reflections of the Great Star of Genesis. It will be very good to put the attention on this Blessed Global requirement.

Today we will Structure the Advanced Star Cell Training Course. We will hold this course on an upcoming Sun Day. As the Tools reach the hands of our Beloved Masters of the Light, we will set the date. We wish to train our Blessed Masters for the Enlivenment of the Form of the Great Star, and the Awakening of the Energy of the Era of Eternal Light.

Many Blessings.

Great Things Can Be Accomplished With Great Ease

Lantos:

Greetings Dear Ones,

We are investigating the Nature of Life as one Form, one Platform of Experience, is replaced by a New Form. In the early stages, the shift of Experiences from the old way of functioning into the new style of functioning—all this seems so new. It comes as a great surprise that these things, great things, can be accomplished with great ease. Yes, at first it comes as a great surprise—the Healing occurs with ease, the Desires are met with ease.

There is a Great Stability Generated through the Establishment of these Great Units of Star Light. Each Unit, each Precious Chamber of Eternal Light, Enlivens the surroundings. Together, these Units Interact to Assemble a Framework of Light—a Great Web-Work of Light. And this beautiful Web-Work at once serves two Functions; Two Great Functions are accomplished simultaneously. The Precious Chambers of Eternal Light Act to rid the environment of the remains of action, the residue of action. This is one Aspect. The second Function is the Development of the Platform, the Global Platform of Light.

Dear Ones, how do we obtain this Mighty New Form for Earth, how do we obtain this Great Universal Form of Light? What method can be applied to call to this Mighty Universal Force of Light, that it comes to take up this Great Post for Earth, for the Blessings of Earth, for Ages to come. It is a Great Phenomena which occurs.

Dear Ones, we are Constructing—piece by piece, Unit by Unit—the Blessed Web-Work, and this Global Web-Work is made of Individual Units of Light, Star Light—the Pure Reflections of the Great Light of the Mighty Great Star of Genesis. We are Assembling the comfortable residence, we are Assembling the Structure. Upon completion of this Blessed Global Network, the Beloved Mighty Force Enters into this Creation. That which we are Assembling is the Structure; this Precious Structure Shines with the Pure Reflection of the Light of the Mighty Great Star of Genesis.

But, yes, there is a hesitation. This Precious Pure Light, this Precious Reflection, is not the Light of the Mighty Force itself; it is a Pure Reflection of this Brilliant Light. We may think of the full moon in the sky above. This Beloved Structure is Formed in such a way that it can Reflect Purely the Light of the Mighty Sun. Much can be seen by the Light of this Pure Reflection.

Dear Masters of the Light of Genesis: as more and more Chambers of Eternal Light are Positioned Properly around the Earth, the Web-Work of Light gets more and more developed. Once Assembled, it is a Mighty Framework of Light; it is a Framework of the Light of the Great Star of Genesis. And, it is into this Beloved Structure that the Blessed

Mighty Great Star of Genesis Enters. The Structure is Formed and the Precious Life Enters. The Form must be capable of supporting the Energy, the Soul, the Life, the Light.

If the Object, or the Material Structure, is no longer capable of supporting the Existence of the Life, the Energy departs. It is for this that the Great Respect is given to the Value of the Form. As the Form Changes, the Life which is Supported Changes, the Activities Change. That which is possible changes with the Change of Form. It is a beautiful Knowledge. One Supports the other. The Life Glorifies the Form; the Form Supports the Channels of Direction of Life. It is the Platform for the Performance and Progression of Life.

Dear Ones, you are receiving now your Blessed Supreme Sequence Star Cells, and with this the Form is Renewed with the Precious Knowledge of the Proper Sequence Code of Life. Beautiful, beautiful.

Our Activities, our Deeds, are Performed on the Highest Level, Impacting Life for all; All Existence receives the benefits of these Sublime Actions of our Blessed Masters of the Art of Creating. It is a Sublime Process of the Emergence of the Great Era of Eternal Light.

Many Blessings.

Ambassadors of the Light of the Great Star of Genesis

Lantos:

Greetings Dear Ones,

We are receiving the Tools? The Tools of the Mighty Light of the Great Star of Genesis are spreading across the lands of this Blessed Earth. This is the Process. It is the Process of the Establishment of the Global Network of the Light of Genesis. The Earth rejoices with this Process. It comes as a great relief; the removal of these deposits of past influence, past action—the removal comes as a great relief.

These residues have burdened the Energy of Earth; these deposits have been stored in the Energy Structure of Earth. It is an Impression. Just as the tracks are left in the mud—the Generating Influence is gone, but the Impression remains. It is an Impression in the Structure of Earth. These Impressions are stored in the lands and waters and affect the actions, the experiences, of those dwelling in those areas.

These Impressions affect all Aspects, offering Balance or imbalance. Storms and disruptive weathers come up as a result of imbalance. It is the Process of the Elimination of Imbalance. Just as the Energy builds within the crust of the Earth and then the earthquake comes to release this Energy, the imbalance is corrected, Balance is restored.

This is always the Direction of Life; Life Flows in the Direction of Balance. These residues drag down the Flow of this Current of Life. On a very Great Scale, we are restoring Balance to Earth--Balance is brought about by the release of these residues. It is a Global Network which Functions in a Coordinated Manner. One Blessed Chamber of Eternal Light interacts automatically with the others, together Forming the Blessed Web-Work of Light.

We will speak more of this Blessed Energy, this Genesis Fusion, in our Advanced Course.

Cindy:

And he paused right at that moment and I just said to him, “We have scheduled the Course for this Sun Day”. He said,

Lantos:

Very Good. We will discuss this Knowledge on the Level of Experience. As our Blessed Masters of the Light of Genesis receive these Precious Tools, we will be able to describe these things on the basis of Experience.

Cindy:

And, at that point he paused again so I asked him about how long would this Course last?
He said,

Lantos:

This may take some time. Each Tool must be understood, the Functions must be Experienced. In this way, our Beloved Masters will be able to very easily proceed with their work.

Their work is the work of the Guide—the Great Ambassadors of this Precious Light of the Era of the New Form—Ambassadors of the Light of the Great Star of Genesis, Ambassadors of the Light of the Great Star of Genesis. It is the job to lead, to chart the course; to offer Great Assistance to all, to Establish this Blessed Structure for all. It is very good.

Cindy:

And he paused again, so I asked again, about how long would it take for the Class? He said,

Lantos:

We will Experience the Effects of these Precious Tools. This may take one hour. We will see how the class proceeds. In so far as instruction, the directions are simple. It is the Understanding; it is the Experience, which is Significant. We wish for all of our Blessed Masters of the Light to Experience these Blessed Tools of the Mighty Light of the Great Star of Genesis.

Yes, we will prepare for Sun Day by having in hand our Precious Tools and Chambers of Eternal Light.

Cindy:

And I asked him, “Should we have all of our Tools present, or just the ones that are the Stars? Should we have all of the Tools? And he said,

Lantos:

Yes, yes. We should be prepared with all Tools.

Very good, very good.

Many Blessings.

A New Process of Energy

Lantos:

Greetings Dear Ones, Greetings Dear Ambassadors of the Light of the Great Star of Genesis,

You are the Guides, the Guides to assist the people, the Guides equipped with the Knowledge and Techniques to bridge the gulf between the mode of functioning which existed in the previous era and the Abilities and New Structure which is coming along with this New Era Emerging now.

These Precious Tools and the Techniques for their use in Enlivening the Great Streams of Energy of the Great Star of Genesis Structuring the Blessed Web-Work of Light, these Elements, Dear Ambassadors, are the Key—the Key. There is much Knowledge to be gained. As Ambassadors you will continue to grow in Knowledge, grow in Ability. The main thing, the point of Greatest Importance, is the Continued Enlivenment of the Beloved Structure. The Continued Progress made in the Direction of Establishing this Blessed Web-Work, this Blessed Network, which is the Platform. It is the home into which this Great Universal Form of Light enters. This, Dear Ones, is the task. We are the Builders of the Structure of the New Era of Eternal Light. We are constructing the Platform for the Era of Eternal Light.

We have experienced now some aspects of this Great Energy—some localized Aspects of this Great Universal Energy. Let us continue our experience and understanding of these Precious Effects Generated by these Tools of the Great Star of Genesis.

Dear Ones, for many years you have worked with the Blessed Wheels of Genesis. For many years, these Great Cosmic Spheres have offered their Influence in treating an individual or a general area, Blessing the treated area with the Specific Qualities of the Light of Genesis. These Influences are understood by our Beloved Masters of the Light of Genesis.

Now, Precious Ambassadors of Light, we are introducing a New Platform, a New Energy, a New Process which becomes accessible in the Presence of the Blessed Tools of the Great Star of Genesis. It is a New Process of Energy. This Energy is called Genesis Fusion. It is Genesis Fusion. It is the same Process of the Enlivenment of the Basic Layers of Creation—that Basic Process of the Dynamics of Creation.

However, now this Process is Filled with Bursting Radiance. The Process is Filled by the Bursting Light of the Energy which Sustains the Mighty Form of the Great Star of Genesis. It is a Mighty Form of Light. The Blessed Great Star of Genesis has a Physical Expression in the Form of this Multi-Directional, Eight-Pointed Star. This is very Significant. The Shape, the Form, is very Significant. The Eight Points are shaped around the Center, the Core.

Out of this Space—this Central Space which is at the Core—the Process of Initial Rotations occurs, the Process of Creation occurs. It is a Spiraling Process. You can see it in the very Expression of the Form of the Physical Expression of the Structure. Out of the Center, Bursting out in Eight Directions—the Pure Energy of Creation Spirals from Totality to Nil. That is the Range of Creation. It is from Fullness to Nil. This is the Expression of the Mighty Form of the Great Pyramid. It is the Expression of this Great Process, the Expression of the Process of the Rotating Energy Emerging from Fullness extending into the Expressed Values of Creation. This Expressed Value is the Material Form, the Physical Aspects of Creation.

If one looks at the shape of a Spiral, the Spiral starts out with a wide base and gradually collapses into a Point. It goes from the wide base to a point. This is the Dynamics which give rise to the Mighty Structure of the Great Pyramid Shape. It is the Expression of this Process of Creation.

In our Blessed Tools of the Light of Genesis we find this Shape of the Pyramid. This is an Expression of the most Basic Aspect of Creation. It is the Aspect of the very Process of Creation Itself. Therefore, the Pyramid of Genesis is the Great Teacher, the Embodiment of Light and Knowledge.

Our Beloved Tools of the Great Star of Genesis are made in the Form of the Mighty Great Star of Genesis—a Great Universal Form of Light. This Form is Expressed through Eight Pyramid Structures, each Pyramid containing the Energy of the Process of Creation.

Eight, it is a Significant Number. Eight represents Totality of Fullness on the Level of the Source of Creation, as well as Fullness as it moves into every aspect of Physical Creation—the Full Range, the Range from the wide base of the Spiral, up to the Point or Nil Value of the Spiral. It is the Expression of Fullness as it travels from one extreme to the other extreme. It is the Full Range. Great Energy is Generated through this Process. It is a very Dynamic Kind of Exploding or Bursting Kind of Radiance. This Bursting Brilliance is the Process of Genesis Fusion, Genesis Fusion. Beautiful.

The Great Star of Genesis brings to the Earth the Fullness on every Level of Expression—Fullness not only in the Finer Layers of Life, but also Fullness onto the Outer Expressed Layers of Existence. Fullness on the Outer Layer of Life Awakens the Great Possibilities, the Possibilities which were previously available only on the Finer Layers of Creation.

The Beings of Light: the Great Beings of the Finer Layers of Existence, the Angels, the Masters of the Light—these Blessed Beings can perform Actions which appear Incredible, beyond the Level of Possibility of the Surface Layer of Existence.

This Blessed New Form, our Beloved Great Star of Genesis, brings to the Surface the Full Range of Possibilities found Existing at the Finest Layers of Creation. You see?

This is the Final Stage of Transformation, the Stage in the Process of Transformation when the previous form is replaced by the New Form. This is always the Final Stage of the Process, when the Actual Form itself gets replaced.

Much Preparation goes into this Process. It is like the Beautiful Process of the butterfly. This is Transformation. The Preparation goes into the Formation of all the necessary Conditions. It is a time of great uncertainty and confusion, disruption of the normal processes of life. And yet, that which Emerges is a Great New Form, a New Form with completely New Abilities—Abilities which previously were thought to be impossible. It is the Final Stage of the Great Process. It is the Transformation of Form.

Dear Ambassadors of the Light of this Great New Form: we will continue in the coming lessons our practice and experience with these Precious Tools of Light.

Many Blessings.

The Experience of the Process of Genesis Fusion

Lantos:

Greetings Dear Ambassadors of the Light of the Era of Eternal Light, the Light of the Great Form of the New Era, the Mighty Great Star of Genesis,

Today our focus is on the Experience of the Process of Genesis Fusion, the Process of the Dynamic Interaction which is the Radiant Source of Energy for the Form of the Era of Eternal Light. It is similar to a process of assimilation and digestion.

When we eat a meal, we eat some of this and some of that—a little bread, a little vegetable, a little water. Different ingredients are input into the physical system and, through the process of digestion, these different elements become useful to the body, useful to the cells—offering Energy, offering Nourishment in the Proper Form, in a useful Form.

This is like the Genesis Fusion. We combine different Elements—a Progress Clear Wheel of Genesis for example, along with the Precious Super Star Cell. And, in the Presence of the Individual, Physical Energy, these ingredients combine in a Bursting, Radiant Process of Genesis Fusion, resulting in Usable, Useful Energy, Directed according to the Initial Ingredients.

Let us understand this further. In the process of digestion, one inputs into the physical system the type of food required at that particular time. One may input a light fruit at one time, and, at a different time, one may require a heavier, full meal. The results will vary according to the ingredients which were offered to the physical process of digestion. It is a process, digestion is a process—a dynamic process which may assimilate many, many different forms or elements. There are one million possible things to eat. This amazing Physical Process of digestion comprehends and Automatically responds to the Material Input and Releases Energy to the cells as a direct result.

Like this, Dear Ones, Dear Ambassadors of the Light of the New Era, Genesis Fusion is a Highly Efficient Process. It is the combining of the resources presented, and out of this Process of Combination, a Huge Amount of Energy gets Released.

We may Combine a Clear Progress Wheel with our Blessed Super Star Cell, and out of this Combination, we receive a Bursting Influence of Light and Energy. There are, in fact, other ingredients involved which we have not listed. In addition to the Clear Progress Wheel and the Super Star Cell, the Positioning on the body will have an Influence on the specific results. The Placement on the body will have an Effect on the type of Energy Released to the individual.

If the Tools are placed on the right side of the stomach, the Type of Energy Released will differ from a Positioning on the neck or head. If Positioned on the Left side, we Apply the Super Water Cell. The Process is Highly Efficient, offering a tremendous Amount of Energy to the Blessed Individual. If a certain Effect is desired, we may try several Combinations until finding the most Effective Placement for all Tools.

For instance, let us take the example of heart disease. Some aspects of the physical structure of the heart are located on the left side of the body. We therefore, may begin experimenting with the Super Water Cell and these Blessed Great Cosmic Spheres. However, it may be necessary to move to the right side of the heart and, therefore, we would shift to the Super Star Cell. In the Center of the body, we may apply any of our Precious Star Cells.

The Energy of the Star Cells and the Energy of the Blessed Wheels, Generate a Sublime, Universal Quality. It is a Cosmic Combination of Energy. However, these Precious Super Cells may also be used with our Blessed other Tools of Light, just as the body benefits tremendously from a variety of different foods. We will discuss some specific effects of each combination as we continue in our training.

Very good, the Progress is very good. We will move forward in Knowledge and Experience, Blessed by the Radiance of the Light of Genesis.

Many Blessings.

The Star Cell Treatment Session

Lantos:

Greetings Dear Ones,

Let us Assemble our Star Cells. Today we will Experience a Brilliant Burst of the Energy Enlivened through the Star Cell Treatment Session. In this, we begin with a Call for Awakening. We ring the Bell of Genesis, sounding the Invitation to the Forces of Light. We sound the Bell of Genesis Inviting the Presence of the Higher Beings of Light, the Radiant Celestial Beings—let us sound the Call to Light.

Very good.

Now, Dear Ones, we will begin the Treatment with our Blessed BioTranslator and BioAmplifier, making the Call to Enliven in every cell the brilliant Process of Genesis Fusion through the Presence of the Mighty Great Star of Genesis.

We Position under our treatment area the Blessed Chambers of Eternal Light. If available, we Position three Chambers—one at the head, one under the mid-section and one beneath the feet. If available, the Presence of Three Chambers Enlivens the Energy Pattern of Infinity. We will discuss this Value at a later time.

Now, we begin the Process of Aligning the Star Cells. We must look first at the Tools we have available. We will reserve one Super Cell as our Director. Our Director will be positioned on top of our Point of Focus, located somewhere along the Physical Structure.

If our Point of Focus, the location in the body which we wish to Direct the greatest attention to, if this Point is on the Left Side of the body, we will use a Super Water Cell, if it is located on the Right Side, we will use, on this location, the Super Star Cell.

One Super Cell will be our Director of the Mighty Great Star of Genesis. The Super Cell will be placed directly on the Point of Focus.

Now, we look at the remaining Star Cells. These other Star Cells we will place along our Central Core of Energy, over positions such as the forehead, the throat, the heart, the stomach. At each Point of Energy we position a Star Cell. For this we may use either Super Cells or individual Star Cells. It will be very good to apply at least Three Star Cells along this Central Core.

If we have an additional Super Star Cell, as well as an additional Super Water Cell, we may hold one in each hand. In the Left hand we will hold the Super Water Cell. In the Right, we will hold the Super Star Cell. Yes.

For the remainder of this session let us Experience now these Blessed Energies. It will be good to allow at least 10 minutes in this position, 10 minutes. We will discuss further this Brilliant Process on this Sun Day.

Many Blessings.

Technique for the Establishment of a Protective Shield

Lantos:

Greetings Dear Ones,

Once the Energy Source is located, the Power may reach the entire town. The Energy Source must be Established, it must be Available. Then, the Lights will come on for all. The Energy Source comes along first, then the Entire Range of Possibilities follows.

This is the Case with Creation. Energy is located as the Source and then the Possibilities Emerge—many Possibilities, the Full Range of Possibilities. During our Precious Star Cell Treatment Session, many Possibilities Emerge. The Energy Source is located in the Experience of Genesis Fusion and then the results follow Automatically. The Effects are the Automatic Result of the Source.

With our Precious Chambers of Eternal Light, we Enliven the Great Field of the Web-Work of Light and Energy, Generated by the Great Star of Genesis. The Precious Chamber of Eternal Light Enlivens the Web-Work of Energy, Structuring the Global Network of the Light of Genesis. It is a Global Influence which follows the Source. The Source is the Precious Light of the Mighty Great Star of Genesis—the Brilliant Radiance of the Mighty Great Star of Genesis. This, Dear Ones, is the Source of the Web-Work which is Connecting all parts of the World, Structuring the Platform for the Emergence of the Form; it is the Physical Form of the Mighty Great Star of Genesis.

The Chamber of Eternal Light is the Reflection of the Great Form of Light. We have present this Luminous Reflection of the Great Form in every Star Cell Treatment Session.

When three Chambers of Eternal Light are present, the Structure of Infinity Emerges—the Structure of Infinity Emerges. It is the Source. The Effects which follow Reflect the Nature of the Source. The Nature of Infinity Emerges for the Individual in the Star Cell Treatment Session when the three Chambers of Eternal Light are present.

Yes, you see. The Direction of the Source determines the outcome. This is the Nature of Creation—the Source Directs the Outcome, the ingredients determine the meal. The Star Cell Treatment Session offers the Dynamic Energy of Genesis Fusion and Directs this Radiant Energy along the Channels established by the Placement of the Tools, the Positioning of the Tools—left side, right side, the Director Enlivening the Point of Focus, the Enlivenment of the Central Core Energies. These Elements determine the specific Outcome. Each Session offers New Possibilities. Each session may be Directed towards a Specific Need or Desire.

Today we will describe a Technique for the Establishment of a Protective Shield. This Energy Shield is Generated by the Presence and Positioning of four Star Cells around the bed at night—one at the head, one at the feet, one to the right, one to the left. These

Precious Cells may be positioned on the ground or may be elevated. Only, they must surround the sleeping quarters, the bed of the individual.

Beside each Star Cell position a BioAmplifier and face the Amplifier in the outward direction, away from the individual—four Star Cells, four BioAmplifiers. The Star Cells may be of any sort—Super Cells or Individual Star Cells. It may be that a combination is used for the configuration of this Star Shield.

It is a Force Generated for Protection. It is very Uplifting, Purifying, Energizing for the Individual; and this Beloved Star Shield Dissolves the negativity in all directions.

Beautiful.

Tonight, Blessed Ambassadors of the Great Star of Genesis, you may Experience the Dynamics of this Blessed Star Shield.

Very good, very good.

Many Blessings.

An Energy Acceleration Treatment

Lantos:

Greetings Dear Ones,

There are two Aspects along the Path of Development. One Aspect is the Knowledge of the Tools and Techniques, the Value of Understanding. The other Aspect, Blessed Ambassadors of the Light of the Great Star of Genesis, the other Aspect is Experience.

As the Blessed Global Network of the Light of Genesis stretches out across Earth's lands and waters, the Radiance of the New Form, the Form of the Mighty Great Star of Genesis, grows. Along with this growth of the Web-Work of Light, we find our Value of Experience changing. As the New Form Emerges, the Aspect of Experience naturally changes. The Experiences of Life in the Structure of one house will differ from the Experiences which are possible in the Structure of a New Home.

This New Structure offers a Greater Range of Experiences. It supports activities which were not available in the Precious Structure, owing to the limitations of the Structure—limitations on the Level of the Form. This New Form offers Fullness.

As we prepare for the treatment session, we arrange the Blessed Chambers of Eternal Light. We arrange three Blessed Chambers of Eternal Light to offer the Structure of Infinity—the Form of Infinity.

Yes, Beloved Ambassadors, we may even use these words of description—we may call it the Structure of Infinity, the Form of Infinity. How is it that this Infinite can have Structure? This, Dear Ones, is the Magnificence of Creation. Within the Structure we may locate Infinity—through the Structure, through the Form, Infinity is located. It is beautiful, it is Brilliant.

These Precious Reflections of the Great Light of the Mighty New Form, these three Precious Chambers of Eternal Light, when Positioned Properly—under the head, the mid and the feet—these Precious structures interact to Form the Structure of Infinity. With different Forms come different Possibilities. With Infinity, All is Possible.

As the Blessed Global Network of the Light of Genesis grows in its Presence across every continent, we will Experience New Possibilities Emerging on all Levels of Life. This Form, this Mighty New Form, brings forth the New Aspects of Experience for all in daily life. As Ambassadors of the Great Light of the Mighty New Form, your role will be to Guide, Guide in Knowledge, Guide in the Experiences.

For this reason it is very important to Experience the Blessed Energy of the New Form. To Experience the Nature of the New Form through these Blessed Practices with the Sublime Tools of Light. We are gaining the Experience of the Form; we are gaining the Vision of the Form—before the Full Arrival of the Form.

In this way, we are gaining the benefit of the Knowledge, as well as the benefit of the Experience. Both of these Aspects of development Structure Precious Ones, the Quality of Ambassador of the Light of the Mighty New Form. We are moving through the process of training, training in the Techniques of the Radiant Energy of the Star Cells. We are Experiencing the Bursting Energy of Genesis Fusion.

Today, Blessed Ambassadors, we will go through the steps of a very simple Treatment. It is an Energy Acceleration Treatment. You will see how even this simple Form of Treatment may bring about Great Results.

As always, we Invite the Great Beings of Light with a Sound of the Bell. We will hold our Beloved Translator, Calling for the Energy of the Great Star of Genesis. You will find, with this Process, an Increase of Energy, a Boost of Energy. It is a Boost, like the engines on a jet.

Position first the Precious Chamber or Chambers of Eternal Light. On the forehead Position a single Star Cell. On the area of the navel, Position an additional Star Cell. In the left hand hold a Super Water Cell, in the right hand hold a Super Star Cell. We will enjoy this Position for 10 minutes. This will offer the Boost.

We received the Knowledge of the Application of the Star Cells for the Creation of a Star Shield, a Precious Star Shield. Blessed Ambassadors, today we receive the Knowledge of the Star Boost, it is a Star Burst.

To this simple set of Positioning we will add our Beloved Wheels. We will discuss this in our next instruction. Now enjoy the Energy of the Star Burst.

Very good.

Many Blessings.

An Energy of Great Brilliance

Lantos:

Greetings Dear Ones,

It is a day to continue our Development with the Experience of the Tools and Techniques of the Radiant Form, the Great Form, of Light which is Emerging for All; with the Expanding Structure of the Global Network of the Light of Genesis—the Great Web-Work of Light, the Great Web-Work of Energy. It is a New Form of Energy. It is an Energy made possible through the Presence of the Expanding Web-Work of Light. This Energy we will call Genesis Fusion. It is an Energy of Great Brilliance. It is the Energy of the Mighty New Form of the Great Star of Genesis.

Cindy:

And he paused at that point, and I mentioned to him that, just yesterday, was sent out from the BioGenesis offices, the total count would bring it to 1,012 Chambers of Eternal Light to different parts all over the World. And then he continued,

Lantos:

Brilliant, Brilliant Light is Generated and it is through this Expanding Web-Work the Connection which begins to Form as a Global Structure, it is through this Network that the very Structure of the lands and waters begin to shift. It is the Final Stage of the Great Shift. This is the Process of the Purification of the residue, the remaining traces of the influence of the previous era, the action of the previous era, which has been stored in the structure of the lands and waters, and has impacted the Energy of Life on Earth.

This residue of action is released as we expand globally our Chambers of Eternal Light. The Network is Global; the Web-Work is Global. One thousand twelve Precious Chambers of the Great Light of the Mighty Great Star of Genesis—1,012—1,012 Radiant Star Clusters of Light beginning to Form the Great Web-Work of Cosmic Light, Universal Light. One thousand twelve, it is very good. Well done. It is very good. Beautiful, the Expansion is beautiful.

Dear Ambassadors, let us continue in our focus on the Expansion of this Blessed Web-Work. It is through the growth of this Web-Work that the Structure is Formed; the Platform is Formed for the Emergence of the Great Form of Light for the New Era. Beautiful.

Your efforts are bringing about great change, great results. The results are Global, the results are on a Global Scale. The Influence of a Chamber of Eternal Light, a single Star Cluster of Radiant Star Cells, a single Cluster Generates a Global Influence. Yes, it is a Global Influence.

Today, we will continue our Experience with the Star Burst Treatment of Acceleration. It is a Great Energy Treatment. Today, we will add to the Treatment the First Rays Progress Wheel of Genesis. Today we will see the effects of a very slight addition and the Shifting of the Results which Emerge out of this slightest addition.

In this way, we will find Precious Ambassadors, the vast range of Possibilities which open to our Direction as we become familiar with the Experience of the Great Energy of Genesis Fusion.

Today we will set the Treatment Tools as before, placing the Star Cells in the arrangement on the forehead, on the navel, on the left and right hands. This Establishes a Great Pathway of Energy, a Great Pathway of Light through the Physical Structure of the Individual.

Cindy:

And he paused for a moment, and I asked at that time a question that we had had about whether the specific types of Cells that you are putting on the forehead and, also, on the navel, whether they have to be the Singular Star Cell or if they can also be either of the Super Water Cell or the Super Star Cells, if they have to be specific types of Star Cells. He said,

Lantos:

These may be Singular Star Cells or they may be Super Cells. In the Central Core, along the Central Pathway of the physical body, any of the Star Cells may be applied.

Cindy

So I said, "So we could use one Singular on the forehead, and then one Super Cell, we can use any combination like that?" He said,

Lantos:

Yes, yes, the Great Central Core is the Source of the various Expressions which Emerge. Out of this Core the Expressions Emerge.

Cindy:

So, he paused at that point, so I again just said, "So any of the Cells can go along the center." He said,

Lantos:

Yes, Yes.

Today we will now experience the addition of a single Wheel, the First Wheel of Expression, the First Impulse of Expression, of the Great Cosmic Spheres. This is the Expression of the First Ray Wheel of Progress.

We will position this Wheel on the forehead. If a second Wheel is available, a second First Rays Progress, we may position this Wheel on the navel, along with the placement of the four Mighty Star Cells. This is our session for today.

We will discuss the results in our next session.

Cindy:

And then I said to him, “So, if we have two Wheels, then the two First Rays Progress Wheels are to just go along with the Star Cells on the forehead and the navel, and then we have the two Super Cells in the hands. So two Wheels and then the four placements would be exactly the same as the other Treatment? And he said,

Lantos:

Yes.

Cindy:

And then I said, “Should we do the Treatment for the same amount of time, about 10 minutes? And, he said,

Lantos:

Very good, it will be very good.

Many Blessings.

The Precious Wheels of Genesis are the Cosmic Spheres

Lantos:

Greetings Dear Ones,

It is a Great Blessing. We are Blessed with the Knowledge of Genesis Fusion and the Direct Experience of Focusing this Energy along the Pathways established by the Wheels of Genesis.

The Precious Wheels of Genesis are the Cosmic Spheres, the Great Cosmic Regions. Each Wheel of Genesis Reflects the Energy Pattern Enlivened by that Cosmic Region. There are 27 Great Celestial Regions, 27 Spheres, 27 Wheels, along with one Wheel of Hope.

Each Wheel Enlivens the certain Set of Aspects of Creation, certain Qualities of Existence. In order to Direct the Energy of the Blessed Mighty Great Star of Genesis along a certain Pathway we add a particular Wheel of Genesis to the Treatment.

At this time, we are describing the Personal Values of Individual Treatment. The Blessed Star Cells may be applied in many ways and we will continue to expand our understanding of the applications of this Blessed Energy of Genesis Fusion.

In our previous session, we arranged the Placement of the Star Cells. A Super Water Cell in the left hand, a Super Star Cell in the right hand. We positioned a Star Cell on the central forehead and one on the area of the navel region. We positioned our Blessed Chambers of Eternal Light under the area of Treatment. This, Beloved Ambassadors, is our Basic Placement of the Star Cells for the Purpose of Energy Acceleration. To this configuration, we added a single Wheel—the first Wheel of expression—the First Rays Wheel of Progress.

Beloved Ambassadors of the Mighty Great Star of Genesis, we begin with the First Expression Emerging from Fullness. Out of the Source of Creation the First Expression Emerges and Creation follows along a specific Path. These Expressions of Creation are Reflected in the 27 Wheels of Genesis—the 27 Great Cosmic Spheres.

The First Sphere is the First Rays Wheel of Progress and, in our previous session, this Precious Wheel was added to the forehead, the forehead. And, if two Wheels are available, then the second is to be added to the navel region, each Wheel positioned alongside the Star Cell. The Precious Star Cell may be positioned alongside, above or beneath the Cosmic Wheel. The Value is in the closeness, the close range between the Star Cell and the Cosmic Wheel

We begin with First Rays Progress. This Cosmic Expression is the first to Emerge and, therefore, Fullness is reflected most Fully. It is a most Complete Reflection of the Fullness of the Source of Creation. This is the Nature of Creation. The First Impulses

Emerging out of the Source most Fully Reflect the Qualities and Nature of the Source. Beautiful.

The Nature of our Precious First Rays Progress Wheel is Fullness, Enlivenment of Fullness on every Layer of Expression. From the Physical Layer to the Spiritual Layer, each Layer of Expression is Awakened to the Quality of Healing. Fullness is Healing.

This First Rays Progress Wheel is the Mighty Healer. If there is doubt as to the specific Tool or specific Wheel for an ailment, this Precious First expression of Nature is a selection which carries with it the Blessings of the Source. The Nature of the Source is displayed clearly in this Great Cosmic Region.

Today, let us again Experience this Initial Wheel, along with the Mighty Energy of Genesis Fusion, Awakened through the Precious Star Cells.

Very good, Dear Ones, very good.

All Aspects of Life Get Regenerated

Lantos:

Greetings Dear Ones,

We enjoy the Waves of Knowledge, the Warmth of Experience. It is a Process of Discovery, a Process of Awakening the True Nature of the Cells. It is a Process of ridding the Structures of the burdens of the past—past action, the residue of past action. We are releasing the Structures from the weight of impurities—the Structure of the individual, the Structure of the land and waters.

Genesis Fusion: it is the Energy which Powers the Mighty Great Star of Genesis. Genesis Fusion: it is the Process of Culmination, and through this Process Virtually all Elements are Produced; all Aspects of Life get Regenerated. It is a Bursting Reaction, a Source Reaction, a Process which is the Source of Mighty Universal Energy—the Source of Energy for the Blessed Mighty Great Star of Genesis, the Form of the Era of Eternal Light.

Blessed Ambassadors of the Era of Eternal Light, we are discovering the Experience of this Blessed Energy. It is a Great Release of Energy which at once Purifies, Regenerates and Transforms. Do you recognize these Elements Blessed Ambassadors? The Aspects of Progress, Regeneration and Transformation—these are the components Structuring the array of Great Cosmic Spheres—the 27 Blessed Wheels of Genesis. Yes, it is a Cosmic Expression of Creation.

Let us continue our experience on this day with the Blessed Wheels in our Star Cell Energy Treatment. We will Experience the Dynamic Process of Genesis Fusion in our positioning of the Star Cells along the Central Core, as well as the positioning of the Super Cells in the hands. This is all in the Presence of the Chambers of Eternal Light, the Blessed Reflections of the Great Star of Genesis. Yes.

It is best to position three Chambers of Eternal Light under the treatment table. However, if only one is present we will proceed with an added Super Star Cell positioned under the head and a Super Water Cell positioned under the feet. Acceleration: Energy through the Dynamics of Genesis Fusion.

Today we will Experience the Progress Wheels. Select two Progress Wheels; position these Wheels along with the Star Cells on the Central Core. We will Experience Genesis Fusion in the Direction of Progress. You may select any two Progress Wheels—it may be a Progress Aqua along with a Dark Violet Progress; it may be a Clear Progress along with a Green Progress.

Place one Wheel on the forehead with the Star Cell and one in the region of the navel. Now let us Experience this Progress Motion of Acceleration. In these coming days, Dear Ambassadors, you may experiment with the Progress Wheels in these 10 minute Star Cell Acceleration Sessions. Yes.

Very good, very good

Many Blessings.

The Ability to Direct the Unfathomable Scope of New Energy

Lantos:

Greetings Dear Ones,

As we progress in our stages of training with the Precious Star Cells, we will begin to harness the Ability to Direct the Vast Energies Generated by the Process of Genesis Fusion. It is a Vast Range of Possibilities open to the Experience as we Enliven and establish the Platform for the Form of the Era of Eternal Light. Yes, Yes. Yes, Beloved Ambassadors of Eternal Light, this is our Purpose of these days and weeks of training in the various combinations and Effects Generated through the Energies of these Precious Star Cells.

You are gaining the Ability to Direct the Unfathomable Scope of New Energy, New Possibilities—Possibilities which Emerge as the New Form Emerges, as the Platform is Structured through the Establishment of the Global Network of the Light of Genesis. The New Form—the Mighty Great Star of Genesis Emerges as the New Form—the Form for the Era of Eternal Light. Yes, it is beautiful. This is your Role. It is a Great Role of Transformation, from the previous form to the Establishment of the New Form. It is a Great Role of Responsibility.

And, now, we will continue with our Experiences in the Process of developing our Understanding, as well as, our Experience of the Process of Genesis Fusion. We have Experienced the Star Cell Session of Acceleration and to this we have added the Wheels of Progress. Progress is one of the Three Basic Subdivisions of Energy. It is one of the Three Basic Energies. These Energies are the Energy of Progress, the Energy of Regeneration and the Energy of Transformation. Like the charges of the particle, each Charge—Positive or Negative or Neutral—each Charge will carry with it certain Qualities, certain Features.

As we begin with the Progress, this group of Charged Energy will have certain Effects, certain Influences on the Physical Structure. The Energy of Genesis Fusion Magnifies these Energies to an Unfathomable Magnitude. The Progress Energy is one type of Spin. This Energy has a specific Direction, or we may call it, a Spin.

As we experiment with the Progress Spin in our Star Cell treatments we may find the throwing off of certain residues. Certain types of Influences of past action will be more easily released through the Process of the Experience of the Progress Spin.

Again, today, once again, as we are aware of the Properties of Spin which are Generated, let us call for the removal of the binding influence of past action. We Call for the Energy of Genesis Fusion to release us from the burdens or residue of the past. Yes, again today, let us Experience the Progress Star Cell Acceleration Session.

Very good, very good. Many Blessings.

The Precious Spheres of Regeneration

Lantos:

Greetings Dear Ones,

Beloved Ambassadors of the Light of the Great Star of Genesis, today we are training with the Neutral Spin, the Regeneration Spin. This Neutral Level of Spin is at the same time a Spin moving in the Direction of Progress as well as the Direction of the removal of the unwanted—the replacement of one state with another. Regeneration represents Both Aspects—the Aspect of Growth as well as the Aspect of Transformation. This is the Value of Regeneration. It is, therefore, represented by a Dual Spin or we may even consider it to be a Neutral Spin—Spin of a Neutral Character.

We will select for today's session of Genesis Fusion Acceleration—we will select today—Wheels out of the set of Neutral Regeneration Spin. Neutral is the Property of Motion in both the Inward and Outward Directions. It is the Experience of the Repeated Process; it is a Simultaneous Process of Progress and Transformation contained within the Space of the Regeneration Great Cosmic Sphere. It is like a Whirlpool Influence. It is at once the Process of Creation, as well as the release of the material substance. It is at once the Process of Progress as well as Transformation. This is Regeneration, exactly this.

Today, we will Experience the Great Dynamics of these Cosmic Spheres of Regeneration. Select two or more wheels according to the number of Star Cells positioned on the Points of Energy of the Central Core. Regeneration is a Dynamic Process and, Experienced together with the Process of Genesis Fusion, much Activity can be expected to occur.

When there is a deep pocket of resistance within the tissues of the body, one which is unwilling to let go of the negative residue, we will Awaken it with the Spark of Regeneration. We will jump start it with the Genesis Fusion generated by the Mighty Super Cells together with the Precious Spheres of Regeneration.

Neutral Spin is the Source of All Creation Spin. Within the context of Neutral Spin we find the Possibilities of All Spin, it is a Great Awakener.

Be certain to ring the Bell before each session of Genesis Fusion. Each session with the Mighty Star Cells Calls for Awakening. We perform each session above the Chambers of Eternal Light.

These are the training days of Experiencing the Process of Genesis Fusion together with the Great Cosmic Spheres of Existence. Let us choose now, two or three, or several Wheels of Regeneration and ring the Call to Awakening. Let us begin our session.

Very good.

Many Blessings

We Are Experiencing Acceleration of the Physical Structure

Lantos:

Greetings Blessed Ambassadors of the Light of the Great Star of Genesis,

We are Experiencing Acceleration of the Physical Structure through these Beloved Dynamics of Genesis Fusion, produced by our Beloved Super Cells. It is a Great Process.

This level of treatment session is specifically tuned to the individual. The Blessed Chambers of Eternal Light are the Great Reflections Structuring the Global Influence and Creating a Platform for the Emergence of the New Form for the Era of Eternal Light. It is this powerful Influence, the same Radiant Influence which Structures a Global Web-Work. This Blessed Radiance is applied on the Level of the Individual. Yes, the Significance is Great.

The Dynamic Process of Genesis Fusion Transforms and rids the structure of the unwanted residues while Accelerating the cells with an Extreme Boost of Power and Energy. This is the Great Power which Fuels the Cosmic Forces, such as the Beloved Mighty Great Star of Genesis.

It is a Cosmic Source of Immense Energy. Yes, this is the Clear Vision. You see the Dynamics at work on many layers? These Dynamics are, at once, scaled to relate to the Layer of Individual Life—there is the Layer of the immediate household—as well as the Influence for the community.

On the Global Scale the Influence appears as a Web-Work of Connecting Streams of Light—Radiant Beams of Illumination. These Structures, these Beams of Light, offer the necessary Framework for the arrival of the New Form—the Form of the Mighty Great Star of Genesis. This is a beautiful Point of Understanding for our Blessed Ambassadors of Star Light.

Dear Ambassadors, the Influence will be felt on every Layer of Creation, and this Influence will be Expressed in different ways on Each Layer. The Effect on the Layer of the Individual will be Expressed differently than the Expressions on the Global Scale. And, while these Expressions may differ, the Dynamic Process of Genesis Fusion remains the same Process. It is the Great Cosmic Source of Energy. This Energy reaches the Infinite.

The three Chambers positioned beneath the treatment table Generate Infinity. The Global Establishment of the Complete Network of Chambers of Eternal Light Generate the Infinite on the Global Scale. Do you see? Yes, very good, very good.

The Wheels will offer the Direction and the Mighty Star Cells are the Rocket Boosters—Pure Energy. Without the Wheels still the Energy is Formed and the Rockets go. The

Wheels add the Fine Directional Tuning—we wish to go here Specifically. It is like a Cosmic Chart—a Great Cosmic Mapping System of navigating the twenty-seven Blessed Cosmic Regions. The Possibilities are endless and, if we want Specific Results, it is best to Apply the Great Cosmic Mapping System. It is a Great System of Navigation.

Dear Ones, we will instruct you in the Process of Selecting the Proper Wheel Combinations, selecting the Proper Navigational Direction. This will be taught later in this year, before the end of this year, after we have had some degree of Experience with the Blessed Effects of the Star Cell Acceleration Sessions.

Today, we will again select from our collection of Wheels of Regeneration. We will select Wheels to Navigate the Direction for the Rocket Boosters. We will Target the Direction and Experience this Blessed Process of Genesis Fusion.

Many Blessings.

The Directorship of Transformation

Lantos:

Greetings Dear Ones,

On this Sun Day we proceed with our Experiences in the Star Cell Acceleration Session. We will continue with this individual application of the Mighty Energy of Genesis Fusion. This is an application for the individual directed to the cells of the individual—Transformation.

Now, we will Experience that Element which annihilates one state and out of this Emptiness a New State is Formed. Life progresses along a continuum, a Path which Upholds the Expression of Individual Qualities. These Qualities are the sign posts of Life, the Expressions of Life. Over time, through the Actions of the past, a layer of residue clouds these Pure Expressions of Life. With Transformation, one state is reduced to its Pure Source and out of this Expressionless State a New Expression Emerges.

This New Expression, that which Emerges, comes about as a result of the previous conditions. With this Process of Acceleration through Genesis Fusion we introduce the Direction of Transformation. We introduce the Direction of the Spin in Creation Identified as the Process of Transformation. This Acceleration Session receives the Direction of Transformation.

We may say, in general terms, that the Direction of Progress is for Growth, Progress, Advancement. The Direction of Regeneration is for a Pinpointed Renewal—Renewal of a Specific Quality, an emotional issue or a disease—one element which is seemingly stuck in its own shell or case. To release this condition from its encasement we apply the Principle of Regeneration.

Today we experience the State or Direction of Transformation. Progress is a Momentum, it is a Spin. Like this Transformation is a Momentum, it is also a Spin. The Experience of Transformation is much like the Experience of Progress; it is for Direction. In this case, Change of Direction—Redirection. It is a Path Change, a Change of Direction in Life, an Overall change in the Direction of Health, Well-being and Happiness.

These General Pathways fall within the Directorship of Transformation. These Changes are brought about with Momentum, Spin. Progress is Spin in one Direction; Transformation is Spin in the Reverse Direction. That which is Regeneration is Neutral Spin—one may see it as Spin in Both Directions Simultaneously, one may see it as Spinless or Neutral Spin. These are the Directions issued by the Great Cosmic Spheres.

Today we apply the Spin of Transformation. Select the Wheels of Transformation and place next to the Star Cells Aligned on the Central Core of Energy. We will Experience this Direction of Transformation for the same length of time as with our other Acceleration Sessions.

Let us enjoy this Process which most effectively Restores Life to its Proper Pathway. It is a beautiful Process; it is a most Sublime Process. Let us begin with the ringing Call of Light, the Bells of Awakening.

Very good, very good.

Many Blessings.

The Process of the Acceleration of Energy

Lantos:

Greetings Dear Ones,

Dear Ambassadors of the Precious Energy of the Mighty Great Star of Genesis, you are the Ambassadors, the Directors of the Light—such a beautiful role, such a historic role to hold in the Flow of Creation—it is a Flow of Creation. Just as the boat can be guided safely along the flowing current, the Life—the Life of the Individual, the Path of the Earth—all this may be Directed Properly along the Flowing Currents of Existence.

When there is a rocking to the boat—the boat has come into some turbulent waters—we simply perform a little Technique here, a few minutes a day, and we will align the boat again in the calmer currents, flowing gently along the path.

As Ambassadors the Role is to Guide—guidance for oneself, guidance also for others. As we Experience the Blessed Sessions of the Star Cell Acceleration we find the Value for the individual, it is a Great Value coming onto the individual—the Blessed Energy Delivered through the Process of Genesis Fusion. In the Presence of the Great Chambers of Eternal Light we will Experience the Structure of Infinity—Infinity.

Each Set of Wheels offers a Direction; each Set of Wheels offers a Change of Course of the Flowing Current of Energy. We have Experienced now the Flowing Advancement associated with the Progress set of Wheels. We have Experienced also the Bursting Extraction possible by the Energy of Dual Spin, it is the Energy of Neutral Spin, and this is brought about through the Blessed Set of Regeneration Wheels. In the last session, we discovered the results of the Process of Acceleration of Genesis Fusion in the Direction of Reverse Spin: to Redirect the Flow in a New Course, to Correct a Path, to set forth a straight and Clear Path for the Blessings of the Individual. This is the Blessed Effect of the Star Cell Acceleration Guided by the Direction of Transformation.

These Directions are charted by the Great Cosmic Regions. There are 27 great Celestial Regions, and each of these is represented through the Energy and Structure of a specific Wheel of Genesis. In all, we have 27 great Cosmic Wheels of Genesis.

Again today we will Experience the Flow of the Energy of Transformation. We are establishing a general understanding of the uses of the Beloved Star Cells in their relation to the individual—this is the Process of Acceleration of Energy. It is the Process of bringing to the individual the Energy of the Higher Octaves of Light—the Great Universal Layers of Light, the Residents of the Energy of the Mighty Great Star of Genesis—making available this Great Source of Energy, available to the Level of the Individual.

This Dear Ones, this is the Process of Acceleration. Acceleration in the Presence of Infinity is a Great Experience indeed, a Blessing, a very great Blessing, each time the individual Experiences this Process.

Now, Dear Ones, we will again today Experience this Process of Acceleration, Star Cell Acceleration, with the Wheels of Transformation. We begin with the Call of Awakening, the Ringing Invitation to the Great Beings of Light across the Realms of Creation.

Very good, very good.

Let us begin.

The Star Cell Acceleration Session

Lantos:

Greetings Dear Ones,

We have two, the Dynamics of two; and out of this, out of two, comes a third. Out of the Dynamics of the two comes a third. It is very beautiful, very beautiful.

Even as the time is changing, even as we pass from one Era into another—a New Era—the Dynamics of the Process of Creating remain. The Dynamics remain: the Expressions Change, the Form Changes, the Possibilities of Expression Change. However, the Fundamental Dynamics of Creation, the Art of Creating, remains.

We have Experienced the basic Nature of the Three. We have Experienced the Basic Expressions of the Positive Spin; it is the Set of Spin within each of the Cosmic Regions Governing the Nature of the Advancement, the Propagation. This Quality Emerges out of the Positive Spin.

In our own experience we pick up the Progress Wheels, we make our selection out of the Progress Set of Wheels. We apply these Wheels to Chart the Direction for the Star Cell Acceleration Session. Progress is a valuable Tool, a valuable Direction. We are always grateful for the Path of Progress. It is our Experience that the Acceleration Sessions of Progress are so Enlivening, so Beautiful, so Uplifting. Yet, still, this is not the only Spin; this is not the only Direction.

Dear Ones, you will find on every vehicle the controls, including the direction of forward, the direction of reverse and, also, the direction of neutral. And yet, the Goal is to move from one Point of Origin to a Point of Destination. Yes?

One may imagine that the only requirement to go from one location to another is the requirement of Progress. This is not the wise understanding of the Path of Advancement.

The Wave travels from here to there. The Energy of the Wave moves from here to there. This Movement is accomplished through the alternation of the rise and fall of the water. The water rises to a great height, followed by the great depth; then, the subsequent rise again. It is a series of alternation. This is a Beautiful Point. The Mighty Energy Expressed by the moving Waves across the Earth, this Mighty Energy, Flows by way of the rise and return, rise and return.

At the height of the Wave, there is a Point of Pause. It is a State of Neutral Rise—Neutral. It is in a Neutral State of rise, as well as, a Neutral State of fall. This Neutral State may also be located at the base of the Wave, at the Point just beyond the Completion of the fall and just before the start of the rise.

These Points are the Points of Neutral Energy, Neutral Spin. We call this Energy Regeneration. Yes, you see? It is a beautiful Process. This is the Process of Creation, the Art of Creating.

In our practice of the Techniques of Creating, we may locate these Three Elements. Always, in every Process of Advancement, these Elements may be Located and Realized.

We will, today, Experience our Beloved Star Cell Acceleration Session with an Alternation of these Three Principals of Direction. We will begin with the Principle of Transformation. This will Clear the Path and offer Great Momentum, Great Depth to that which follows. Next, we will select from our Set of Regeneration Wheels. This will Ignite the Pure Energy found only in Silence, Stillness. And then, we will select from our Set of Progress. In this way we will Experience a Total Cycle of the Cosmic Spheres. This is Star Cell Acceleration.

We will offer five to ten minutes for each Spin—five minutes Transformation, five minutes Regeneration, five minutes Progress. This is the Path of Advancement; this is the Process of Acceleration. Genesis Fusion—this is the Enlivenment of Genesis Fusion through the Energy of the Blessed Super Cells, the Blessed Star Cells.

Very good, very good.

Let us experience this Acceleration.

Many Blessings.

This is The Pathway of Earth

Lantos:

Greetings Dear Ones,

We are gaining Knowledge and Experience of our Blessed Star Cell Acceleration Program. It is a Beautiful Program for Development on the personal level—on the Level of the Individual Physical Structure.

In this session, we will apply our Precious Wheels, the Representations of the Great Cosmic Spheres of Existence. These are our Guides, Directing the Flow of Energy—Genesis Fusion—along specific Pathways of the Individual Structure.

Now, Dear Ambassadors of the Mighty Star Light, we may expand this Experience to include the Precious Tools of Genesis Energy: our Blessed Flame of Genesis, our Blessed Wand.

First, we will start with our Beloved Pyramid. In this session it will be good to apply the 8-Sided Clear Pyramid. This Great Structure contains both the Energy of the Great Pyramid of the past Era, as well as the Energy of the Eight Directional Star Form, the Form of the New Era, the Era of Eternal Light—the Mighty Great Star of Genesis.

It is a Link, a Bridge, between the Energy of the previous Era and the Energy of the Emerging Era. It is a New Era, and we are Structuring the Platform for this New Form, the Emergence of this New Form. We are accomplishing this global task as, day by day, Chambers of Eternal Light are spread across the Globe, Building the Network, Constructing the Global Web-Work of Light—Star Light.

You are Ambassadors of this Mighty Great Star Light. It is a Universal Light, a Great Universal Structure, a Presence so Great that its Influence extends far beyond the boundaries of the Cosmic Scale. This is the reason we apply the term Universal. It is a description of the Greatness of Energy and Influence which far exceeds the localized Cosmic Realms. A Great Universal Being is Mighty indeed.

Taken for consideration, the Awareness much reach beyond, extend beyond, the Great Expanse of these Cosmic Regions which surround us and which Govern our day-to-day Activities. A Great Universal Being is Great indeed. A Great Universal Form is Mighty indeed.

Dear Ambassadors, we are Establishing a Platform sufficient for the Arrival of this Great Mighty Universal Form of Light. Always, Dear Ones, our focus must turn to the Great Global Vision. The research and sessions on the Level of the Individual are a Great Blessing for the individual; however, the focus in the Awareness must be on the Global Scale, on the Construction of the Global Network of the Light of Genesis.

It is through the Establishment of these Individual Clusters of Star Light that the Radiance joins together, collecting in Beams, Forming a Supreme Network of Illumination. It is a Sublime Web-Work of Beams of Radiance—Precious Strands of Star Light—together Forming this Web-Work. Yes, Blessed Ambassadors, do you see the Goal?

This is the Pathway of Earth, the Pathway for the Structuring of the Light of the New Era for Blessed Earth. It requires a Global Awareness, a Global Focus. While maintaining the Global Scale of Awareness, we may also proceed to Accelerate the Energy on the Level of the Individual, for the individual. We are Progressing on the Level of the Individual, as well as on the Global Scale. Very good.

This evening, we will practice the Star Cell Acceleration Session with the addition of a Clear 8-Sided Pyramid, as well as Treatment with the Flame and Wand during the 10 to 15 minutes of Star Cell Acceleration through Genesis Fusion. This we will add.

We may begin with the Flame. This will require the assistance of another individual. The Flame may be waved over the individual, particularly over the areas along the Central Core. From the head to the toes, the Flame may be applied in circular or wave-like motions, waving over each area. Following the Flame, the Wand may be applied in a similar fashion. This will be our Session for the coming few days.

Many Blessings.

This is the Training for the Life of Infinity

Lantos:

Greetings Dear Ambassadors,

This Training, this Knowledge, this Practice, this Experience—this is the Training for the Life of Infinity, a Life of Infinity. Infinity—it is a Great Universal Quality. Within the word, all boundaries, all limitations are lost. All boundaries dissolve. It is the Platform of the Boundless. It is the Structure of the Boundless. Yet, yet, it is a Structure. Yes, it is a Magnificent Structure, the Structure of Infinity.

Two things exist—a Structure as well as a Structure-less Aspect of Universal Continuum—boundaries and the boundless, Structure and Fullness. Fullness—Fullness is Expressed through the Structure of Infinity.

Dear Ones, Dear Ambassadors, our Precious Chambers of Eternal Light generate an Influence of a Universal Nature. It is an Influence on a Universal Scale, the Scale of the Mighty Great Star of Genesis.

Light Extends from the Star in the direction of Infinity. Light may Extend to Infinity, Light may travel Infinitely. This is a Very Important Point. Our Blessed Chambers of Eternal Light are the Reflections of the Mighty Great Star of Genesis.

We call these Precious Clusters, the Chamber of Eternal Light. In other words, “Chamber” is the Representation of that Blessed Structure to Support Infinity, and “Eternal Light” is that Sublime Aspect of Infinity—Eternal Light.

As our Blessed Global Network is Assembled, we will find these Qualities of Infinity coming to the surface of life, the Qualities which Support the Expression of Fullness—Infinity.

Until the completion of this Precious Global Network, we will require additional Tools to accomplish a similar result. For the Structuring of this Quality of Infinity, we ask Initially for the Presence of Three Chambers of Eternal Light, Eternal Light. It is very beautiful, yes?

We are at the Precious Seat of Eternal Light, the Source of the Knowledge for the Earth: the Location of Great Purity for the Emergence of Great Knowledge, the Location of the Beloved Great Central Translator.

Dear Ones, Dear Ambassadors of Eternal Light, Light is Eternal, its Nature is Infinite, yet it is Upheld by a Structure. Very beautiful.

Our Beloved Chambers of Eternal Light Generate the Structure to Uphold the Infinite—Infinity.

We will continue with our understanding of the Infinite. Just now we will Experience the Blessed Qualities through our Precious Star Cell Session of Acceleration.

Very good, very good.

Many Blessings.

The Dynamics of Balance

Lantos:

Greetings Dear Ones,

Today we are thinking on the issue of Balance—Balance. We have considered the Existence of the Aspect of Infinity and, and Blessed Ambassadors, we have seen that the Mighty Existence of Infinity is Upheld by the Structure. Structure is capable of Supporting the Infinite. Structure is an Element which contains certain Boundaries. Without certain Boundaries it would not be a Structure, it would be structureless. You see? Even the word gives away the Nature; the description is contained within the Name.

Structure—Structure indicates the Existence of certain Boundaries. And yet, and yet, this is a very Beautiful Point—the Mighty Nature of Infinity may Emerge on the Platform of a particular Structure. This is the Highest Aspect of Balance. Balance indicates Opposite Values. For Balance to Exist there must be the coexistence of Two Opposite Values. In this Relationship of the Two, a Third Greater Fullness is Formed. Infinity and Structure, two Opposite Values, and yet, One's Existence Supports the Other.

We are Constructing this Reality for Earth. We are Assembling the Mighty Structure, a very Specific Pattern of Star Clusters of Eternal Light specifically located in designated areas across the Earth. And out of this, the Blessed Mighty Great Star of Genesis Emerges. The Infinite Arises on the Platform of the Structure.

Balance—we will spend some days now discussing different Values of Balance. It is very important to understand this Nature of Balance as we are Experiencing the Vast Energies Generated through the Star Cell Sessions of Acceleration. Yes, yes, yes. Very good, very good.

We notice already the Distinction between the left side of the Central Core and the right side. On one side we position the Super Water Cells; on the other we position the Super Star Cells. The reason for this is Balance. Out of Balance comes a Fullness Greater than the two parts. Left side—Water Cells, right side—Star Cells.

This Enlivens the Distinct Qualities which are Specific to the Nature of the Energies of each side of the Physical Structure. Like this, like the Balance seen within the Physical Structure of the individual, there is a Balance Upheld on the Grander Scales of Nature: Balance within the household, Balance within the city and Balance within the continent. From continent to continent there is the Aspect of Balance, which when Upheld, Maximizes the Blessings for all to enjoy.

Today, let us return to the simple Experience of one Super Water Cell held within the left hand and one Super Star Cell held within the right hand, in order to Generate the Dynamics of Balance for the individual body.

It is always best to Experience these Dynamics in the Presence of the Great Master Influences—the Great Seal and the Mighty Chamber of Eternal Light. Also, we may add to our session a Blessed 8-Sided Clear Pyramid. Simply position this Pyramid above the head or anywhere in the surroundings. Good.

Let us ring in the Call for Awakening, the Invitation to the Great Beings of Light. It is the Call for the Highest Balance. Beautiful.

Let us enjoy now for three to five minutes.

Very good, that is all, very good.

Many Blessings.

Master Lantos

A Bridge of Star Light

Lantos:

Greetings Dear Ones,

We are delighting in the discussion and Understanding of Balance—Waves of Understanding, Waves of Knowledge. Balance may be located on every Level of Expression. We are exploring the Values of Balance as they relate to our Process of Acceleration on the Individual Level, as well as on the Level of the Structuring of the Platform for the Era of Eternal Light.

We experienced, in our last session, a Blessed Simple Technique for the Activation of Genesis Fusion. For Genesis Fusion to Ignite, Balance must exist. It is a Grand State of Balance, one containing vast amounts of Energy. It is this Energy which gets released into the surroundings as the Dynamics of Coming Together of the Great Opposites are met, Opposites which offer the Blessed Wholeness. Wholeness is Balance.

Now, today Dear Ones, let us continue our journey into the realm of Balance. Today select one color group of the Great Cosmic Spheres. Select, for instance, the Aqua Set of Wheels or, you may select any set you desire to perform this Blessed Technique.

We have experienced, in previous sessions, the Effects of the Wheels of Progress—many colors, one Spin. We have experienced the Effects of Regeneration; again, all types of Wheels, all colors, a single type of Spin. And also, we have placed the Transformation Wheels of varying colors upon the Physical Structure. This Process Generated the Focus on the Spin, the Direction issued by the particular Spheres in the specific mode of Spin. These sessions generated certain Types of Balance.

Today we will apply a different direction for our Experience. We will select all three types of Spin within a singular Sphere set, a singular color of Wheel. Choose now a color—Green, Aqua, Dark Violet—any color you wish to Experience during this Acceleration Session of Balance.

Let us take the example of Light Violet Spheres. First, we will begin with the simple layout of Tools from our previous session—a Super Water Cell in the left hand, a Super Star Cell in the right hand, a Clear 8-Sided Pyramid above the head, or positioned near in the environment, a Blessed Chamber of Eternal Light and a Great Seal of Genesis. These are the Tools for this basic Pattern of Star Light Acceleration.

To this we will add one or three or five Star Cells of any type along the Central Core. If one Star Cell is available we will add one, if three are available we will add three.

Light Violet Spheres—now, Dear Ambassadors, we will add into the right hand the placement of the Light Violet Progress Sphere. This Sphere we will hold along with the Super Star Cell. We will position the Wheel of Regeneration somewhere along the Central Core. Position this Wheel near to a Star Cell, in the area of the Star Cell. Yes. And into the left hand we will place the Wheel of Transformation. Yes.

In this case, in this instance, we are applying all three spin types simultaneously. The effects Create a Bridge, a beautiful Bridge of Star Light, within the Physical Balance, within the Physical Structure. Beautiful.

Let us select a color and arrange the Tools. We will always introduce the Process of Genesis Fusion with the Sounding of the Bell. Very good, very good, very good.

This we will experience for five to ten minutes. Very good.

Many Blessings.

A Great Star for the Blessings of All

Lantos:

Greetings Dear Ones,

We see the Dynamics of Balance; we see the Expressions of Balance in every Aspect of Creation. It is a Continuous Process. It is an ongoing Process in which Events and Expressions perpetually Seek a State of Fullness. It is a Perpetual Coordination of Values—seemingly Opposite Values—day and night, light and dark. The apparent Opposites give rise to Fullness. The Physical Structure is a most Precious Structure in Creation. It is the Sublime Representation of Creation—an Expression of Structure capable of Supporting the Infinite, a Structure which, when functioning smoothly, is capable of Supporting the Infinite—Infinity. It is a matter of the Establishment of Balance within the Structure.

Our Precious Chambers of Eternal Light are Structures which are Pure Reflections of the Blessed Great Star of Genesis, a Mighty Universal Structure. Balance is Expressed within each Cluster, within each Chamber of Eternal Light. This Influence of Balance spreads, it Blesses the Surroundings. It offers the Energy of Infinity to its Surroundings. This is the Localized Experience of this Blessed Chamber.

To generate the great availability of New Possibilities we must look to the Greater Scale, the Global Scale. For change to be realized on the level of one leaf, change must be dealt to the entire plant. It is in this way we must view our task.

It is a personal task, highly personal. Always we strive for the Highest on the Level of the Individual. As Ambassadors of Star Light, we Extend our Vision to understand that the Blessings of the individual leaf depend upon the condition of the entire plant. The treatment of one requires the consideration and treatment of the other. It is an Inseparable Relationship of the Life existing on the Planet and the Life of the Planet itself—one Influences the other, Always.

As one Form, one Great Form for the Planet, replaces a previous Form, this, Dear Ones, is a Time of Extreme Possibilities of Expression. The Change of the Form for Earth comes with the Possibility of Vast and Dynamic Swings of Expression. The Light may be very Light, the dark very dark. The Focus must remain on the Creation of the Complete Structure.

We speak of the Blessed Global Network of the Light of Genesis, the Complete Platform for the Era of Eternal Light, that Structure which, when fully assembled, Supports the Great Universal Form, the Mighty Great Star of Genesis. It is beautiful. It is the Creation of Infinity on the Global Level of Structure.

The previous form offered certain Experiences, certain Values. The Mighty Great Star of Genesis is a Great Universal Form of Sublime Light. It is the Great Star; it is the Great Star for the Blessings of all.

Today, Dear Ones, let us select again three Wheels, three Expressions of the Cosmic Spheres. In one singular color we will select the Progress, the Regeneration and the Transformation, and again, apply these Aspects to the Star Cell Session of Acceleration.

We are in the Process of Training, as well as Experiencing. We are Training in the Knowledge of the Effects of Genesis Fusion and, at the same time, we are Experiencing these Effects first-hand. This is Balance—Training and Experience.

You are becoming Ambassadors of the Era of Eternal Light, Ambassadors of the Sublime Light of the Great Mighty Star of Genesis.

Very good.

Many Blessings.

The Source of Great Power is a State of Balance

Lantos:

Greetings Dear Ones,

We are considering all Aspects of Balance. In these few sessions we are gaining insight into the Nature of Balance—the Nature of Balance as well as the Experience of Balance. The Presence of Balance is the basis of Strength, yes Strength. We have seen how Progress is Attained through a Well-Conducted Flow, a Balanced Flow of Events. Balance is for Progress.

Now, Dear Ambassadors Training in the Mighty Influence of Star Light, we are gaining the Understanding of the Source of Power, the Source of Strength in Creation. This Source, the Source of Great Power, is a State of Balance. To achieve Power, to achieve Strength, one must first achieve a Condition of Balance. Strength is always a Byproduct; Strength is a Result. When a particular Result is Desired, the Key Element, the Key to this Desire, is Balance. Great Feats, Great Results, come from a State of Balance. When imbalance surfaces weakness follows; weakness accompanies imbalance, Strength Accompanies Balance.

A daily session of Balance brings Strength to the activities throughout the day. As we Experience the Effects of the Star Cell Acceleration Sessions, we broaden our Experience of different Realms of Balance, different Spheres of Balance. Each Sphere is governed by a Set of Three Wheels of Genesis. Each Set Reflects the Impulses Specific to that Region of Creation. Therefore, the Experience of one Set of Wheels Illumines, within the Physical Structure, a State of Balance particular to those Qualities. It is a Source of Great Strength.

Let us Experience again, on this Sun Day, a set of one color of Wheels. Out of this Experience Strength Emerges. It is a Sublime Combination, a Sublime State of Heightened Balance, arising out of the Experience of Genesis Fusion and the Directional Influence of the Complete Spin set of One Cosmic Sphere. Yes, again today, again on this Sun Day, we will Enliven a Heightened State of Balance.

Very good, very good.

Many Blessings.

It is a Global Event

Lantos:

Greetings Dear Ones,

Beautiful. The Structuring of Balance: it is the Structuring of the Platform for the Great Universal Form, the Mighty Great Star of Genesis, the Luminous Form of the Era of Eternal Light, a New Era, New Form, New Possibilities, Universal Possibilities.

The limitations of the past are being lifted as the Precious Chambers of Eternal Light are positioned around the world. There is much concern at this time for the well-being of individual nations. Dear Ones, Dear Ambassadors, your Role is a Global Role. The Focus is a Global Focus. The well-being of one country, one continent, is Connected to the well-being of all countries, all continents. It is a Global Event.

The Transformation is a Great Transformation. The residue of the old Era—the thoughts and actions imbedded in the Earth's Structure of lands and waters are being released, being Lifted through the Bursting Effects of Genesis Fusion.

Genesis Fusion: the Great Source of Star Energy, the Source of Star Radiance, Star Light, the Dynamic Source of Energy of the Mighty Great Star of Genesis, the New Form of the Era of Eternal Light.

Blessed Ones, Balance of the Earth is being restored. Release of residue is the Restoration of Balance. When residual deposits of action—past action—are present, the Structure of Earth is burdened and the support offered to Life on every continent is lessened—less support, decreased Expressions of Fullness of Life. Limitations arise, conflicts arise—these are the Expressions of the residues of the past actions of the previous Era.

We are now Constructing the Platform, the Framework, for the New Form. The New Form for Earth is a Great Universal Form of Light. While the individual sessions may generate remarkable Effects—Great Change, Great Results—these Effects will be Maximized beyond measure by the Establishment of the Global Network of the Light of Genesis—the Global Network of the Light of Genesis Structuring the Web-Work of Star Light: Reflections, Clusters of Light across the Globe.

Let us Generate a Vision of this Global Web-Work. Let us create a design, a view of the Globe complete with Achievement of the Global Network of Eternal Light. The Clusters of Light—Star Bursts here and there—Illuminating all the Planet. On every continent: Light bursts of Light, Genesis Fusion, Star Burst, and Streaming Beams of Fine Web-Like Strands Extending from Cluster to Clusters, Forming a Global Web of Star Light. Yes, it is the visual image of the Global Network of the Light of Genesis.

This is Very Important, it is Very Important for the Achievement of this Blessed Global Action. It Requires Action, Action and Attention, Attention of our Blessed Ambassadors of Star Light. Let us Generate this beautiful image of our Precious Planet Enveloped by the Strands and Clusters of Star Light. The Clusters must appear in the vicinity of the Proper Placement. This is in the population districts, placed around the continents of Earth. It must be a view from space, a full view, a Complete Vision. This is the Global View we will share with our Blessed Ambassadors of Star Light.

In this way, Dear Ones, Dear Masters of the Art of Creating, we will Create this Blessed Global Network of Eternal Light. First, we will See the Accomplished Image, and then we will Achieve the Creation. We hold dearly our Blessed Continental Coordinators. We will Generate an Image for each continent, an Image of the Network Clusters of Star Light. We will also Generate a Global Image, a Beautiful Global Image of the Network of Eternal Light. Yes, this is very good, very good.

Many Blessings.

Rose Star Acceleration Treatment

Lantos:

Greetings Dear Ones,

We welcome a New Light. This Light comes as a result of the increasing Web-Work of Star Light. As the Web-Work Develops, as more and more Chambers of Eternal Light are positioned on every continent, many Beings, many Great Beings of Light, will be Drawn to this Realm. The Arrival of this Being of Light indicates a Significant Mark of Achievement. It Signifies a Level of Accomplishment in our Focused Efforts to Structure a Global Network of Eternal Light. These Great Beings of Light arrive as the Environment, as the Quality of the Vibration of Energy, increases to Support these Sublime Beings of Light.

This day Signals a Beautiful Accomplishment for our Blessed Ambassadors of Eternal Light. We have successfully Advanced the Energy of Earth to a Level which can Support this Blessed Being's Refined Structure. This Blessed Beings Refinement would not have been Supported without the Placement of the Blessed Pure Reflections of the Mighty Great Star of Genesis, the Blessed Chambers of Eternal Light.

It is the Duty of the Custodians to Prepare the household. Yes, it is the Duty, the Blessed Duty, to Make Ready the home for the Arrival of the Honored Guest. This is our Cherished Role. Dear Ambassadors, Custodians of the Light, Custodians of Eternal Light, we are ridding the Earth of the residue; we are Preparing the home for the Arrival of the Honored Guest.

Before the Expected Guest Arrives, we may enjoy the Blessings of Visits by Other Great Beings. Often this is the case, before the arrival of the Head of State the location is visited by others. We may consider these as Diplomatic Scouts Arriving early to Observe and Evaluate the Progress of Preparations.

Today, we are Blessed with the Arrival of a Mighty Diplomat, a Being well-appointed in close relation to the Beloved New Form of the Mighty Great Star of Genesis. It is a Great Blessing marking a Significant Level of Accomplishment for our Global Endeavor of Structuring the Global Network of the Light of Genesis, a Network of Star Light for the Emergence of the Mighty Form for the Era of Eternal Light.

This Blessed Being is charged with the Energy of Genesis Fusion. Out of the outstretched wings we see the Embracing Influence of Star Light Energy.

Today, we will perform a specific Rose Star Acceleration Treatment, specific in Directing the Energy offered by the Presence of this Great Being of the Rose Star.

Position the foundation of the Star Cells along the Central Core as well as in the two palms. To these Stars we add a Wings of Genesis in each palm. We will also position a set of Rose Sunrise Energy Wheels—Progress, Regeneration and Transformation. We will position these Three Wheels in the right hand, the heart area and the left hand, as we have positioned in our earlier Treatments.

We have Experienced in these past few weeks our practice with these Precious single color sets, and like this, like this Experience, in this same way we will Experience the Sunrise Energy Set of Spheres.

If two Wings are not available, we will use one Wing placed on the navel region. These Blessed Tools Direct the Force of Energy Present in the Form of the Great Being of the Rose Star. We continue to ring the Bell of Genesis: Awakening the Environment, Calling to the Beings of Light, Sounding the Great Call to Light.

Blessed Ambassadors, it is through your dedicated efforts, your great service to the Light that this Mighty Being has Arrived. It is a very good Confirmation Signaling an Advancing Stage of Star Light. Well done, well done.

Many Blessings.

Mighty Messenger from the Rose Star

Lantos:

Greetings Dear Ones,

As Balance is brought about, Progress is Automatic. The Establishment of Balance is the Source of Progress. Balance is for Progress. As we move forward—Progress—we may not always know the best Direction, the correct Path. Balance leads us in the Proper Direction. Our Focus is on the Creation of Balance for all lands and waters of the Earth.

With this, Dear Ambassadors, with this, we will find the Creation of the Proper Conditions and the Unfoldment of the best Path. Positioning the Blessed Chambers of Eternal Light— positioning these Precious Clusters of Star Light, as Brilliant Points of Light, here and there in the vast darkness of the sky—positioning these Lights throughout the Locations on Earth, Dear Ones, this brings about the Structuring of a Great Galaxy of Many Lights, a Coordinated Pattern Generating the Highest Path of Progress, the Best Outcome.

When the circumstances and conditions of Earth are in turmoil, when the leaders cannot find the Proper Path, when the people are discouraged that their words are not recognized, this, Dear Ambassadors, is the time for the Emergence of the Guiding Light, the New Light to Guide and Illumine the Path. This Light, the Light which comes in the darkness and Points the Way, Leads and Guides Mankind to the Goal. This Light, Dear Ambassadors, is in All Fact, in All Reality, the Light of the Great Star. This Star is not merely a Vision in the sky, but Blessed Custodians of Knowledge, this Mighty Great Star is the Form for Earth, replacing the previous form. The Mighty Great Star of Genesis is a Great Universal Form, a Form of the Highest Order, and this Blessed Form, Dear Masters, offers Possibilities on the Scale of Infinity.

It is to this Creation, Dear Masters of the Art of Creating, that our Service has led us. It is to this Structuring that our Focus, our Attention and our Actions are Dedicated. When we look about and see the actions, we see the struggle of the great leaders of the great nations, and when the world cries out for change, let us Act to Structure this Great Transformation, this Great Change. This Transformation cannot occur in an isolated manner. Infinity does not pop up in a spotty manner, here and there. Infinity is carried to Earth in Fullness, in Great Dignity, by the Great Cosmic Ocean.

Yes, the Blessed Form of the Mighty Great Star of Genesis is Directed to Earth by the Currents of the Great Cosmic Ocean. This Great Cosmic Conveyer System Flows Endlessly throughout the Universe, Enlivened through the Purifying Actions and Experiences with the Dynamics of the Process of Initial Rotations. The Experiences of the Process of the Art of Creating have engaged the Blessed Great Ocean with our Precious Earth, and set its Path in our Direction—a Path which now we prepare for in our

Steps of Structuring the Global Network of the Light of Genesis, the Platform for this Great Form which is set for Arrival on Earth. The Arrival of the Blessed Mighty Messenger from the Rose Star, this Arrival comes to offer Assistance and Support in this Great Time of Need.

Dear Ones, the Direction is Clear. We do not concern ourselves much with the events and circumstances. Our Focus remains on the Establishment of the Global Network. It is through this Creation that the Earth Receives Balance, Balance for Support of the Great Light of Infinity, the Blessed Light of the Great Star of Genesis.

This is the Need at this time; this is the Need. All capable of Supporting this Blessed Endeavor—all Capable of Placing 5-10 Chambers of Eternal Light—this is the Greatest Assistance that can come to all on Earth. This is the Greatest Assistance of any Action in this Age: establishing City by City, Continent by Continent, the Blessed Web-Work of Star Light, the Light which Guides, the Light which Illumines all, ridding the Earth of the residue of past action and influence, Preparing the Platform for the Emergence of the Mighty Universal Form of the Great Star of Genesis.

We will again, today, perform our Blessed Technique for the Rose Star Acceleration. Our Beloved Guest may only remain with us for a brief amount of time. We give thanks for the Presence and Blessings of this Great Being of Light. We are the Custodians of the Light which will structure the New Form for all.

Many Blessings, many Blessings.

There is a Shift in the Atmosphere, a Global Shift

Lantos:

Greetings Dear Ones,

There is a Shift in the Atmosphere, a Global Shift. We are Blessed by the Presence of our Beloved Visiting Great Being of Light—the Blessed Being of the Rose Star. This Beloved Great Force of Light comes, and with this Presence the Atmosphere is Purified. This Blessed Purification comes like the winds, sweeping away the clouds. The Clarity Shines, Greater Perception, Greater Possibilities arise as a Result of this Blessed Energy.

The Direction is for the Completion of the Great Platform to make ready the Earth's Structure to Support the Blessed Mighty New Form. We are Assembling the Structure, the Global Web-Work. This Blessed Web-Work is comprised of the Individual Clusters of Star Light, Connecting together, Forming the Strands of Light—Beams of Star Light Encircling the Earth.

Each Precious Chamber of Eternal Light Forms an Orb of Star Light, a Reflection of the Mighty Great Star of Genesis. This Orb Emits Rays, Strands, Beams of Star Radiance which, by their very Nature, Connect with the Other Streams of Star Radiance Forming a Connected Structure of Light—a Web-Work of Light. It is a Highly Organized Structure.

The Focus of the Blessed Being of the Rose Star is to Accelerate the Process of the Assembly of this Web-Work. It is a Web of Star Light, a Global Network of Star Light.

To Generate this Precious Global Structure there must be Great Coordination—Coordination and Organization. In these days we will find Great Advancements, Great Opportunities arising. We will formulate the Steps of Action for the Achievement of this Great Global Initiative.

We are Initiating the Platform of Eternal Light. We Herald the Awakening of the Beings of Light with our Ringing of the Bells.

Now, let us Perform our Rose Star Acceleration Session together. At this time, we will aspire to make Full Use of the Blessings of this Great Presence of the Rose Star as the Radiance Shines in these Precious Days. Very good.

Dear Ambassadors, the Focus, the Desire during this upcoming week, is Directly Positioned upon the Achievement of Structuring the Blessed Global Network of the Light of Genesis for Earth.

Many Blessings.

We Have Established a Beginning

Lantos:

Greetings Dear Ones,

It is Warming Up—the Energy, the Energy required to Establish the Blessed Global Network of the Light of Genesis. This Level of Energy is Expanding and Warming Up, Gaining Finer Direction, Gaining Momentum.

Blessed Ambassadors: your Task is to Move this Field of Energy, Direct this Increased Energy into Action to Establish the Blessed Global Network of the Light of Genesis. Yes, Action.

We have established a beginning to our Blessed Web-Work of Light. It is a beautiful start. The Radiance is so Clear, the Reflection so Sublime. It is the Reflection of the Mighty Great Star of Genesis. One by one these Precious Clusters have been placed—many in the households of our Beloved Ambassadors of Eternal Light. It is very good.

Now...

Cindy:

And, at that time, Lantos actually paused for a very long time after he said, “Now”, and then he continued,

Lantos:

Now Dear Ambassadors, the Influence must Spread, the Web-Work must Expand its Structure. This Expansion may occur in Stages. We have experienced the First Stage, the Initial Placements—Clusters of Light Shining as Beacons here and there around the world—but vast spaces remain unconnected, the residue remains unaltered.

In the Second Stage, many spots of high population must receive the Effect of Radiance, the Brilliant Effect of Star Energy. These locations may be selected on the basis of history, as well as population and location.

History—by history we are describing the Actions and Thoughts which have been Deposited and which have left Significant Impact on the lands. World-wide these points of negativity or strong residue must be addressed. These locations—these locations of intense residue—must Receive the Great Star Light.

This is the Path which has been Illumined by our Beloved Messenger—the Great Being of the Rose Star. It is the Next Stage; it is the Next Action.

Compile a list, a Global list, of these points of historic residue. Compare these locations with current levels of population and formulate a Chart of Action, a Map of Action.

Our Beloved Ambassadors are capable of Great Feats. As this Blessed Energy warms up, the Support is greatly increased, Support for the Distribution and Proper Placement of these Beloved Clusters of Great Star Light. Yes, Action.

We wish to see a Blessed Global Vision of this Network, a Vision of our Earth encircled by the Channels and Pathways of Light—Clusters and Beacons of Light—Connected by Radiant Strands of Luminous Star Energy.

In this present time, Dear Ambassadors, our Focus is Global, it is a Global Focus and, together, we practice the Beloved Star Cell Session of Rose Star Acceleration. Yes, Dear Ambassadors, we begin with the Call of the Bells.

It is very good, very good.

Many Blessings.

The Earth Enters a Delicate Phase for These Coming Few Days

Lantos:

Greetings Dear Ones,

At this time we Accelerate the Light of Protection for the World. At this time, we will place our Blessed Master Tools—the Great Pendant of Eternal Light and our Beloved Star Cells—onto a map of the World. We will Position these Tools of Great Light Directly onto the Continents and Waters of Earth. We will place this map near to our Blessed Chambers of Eternal Light.

The Earth enters a Delicate Phase for these coming few days. It is a period of lesser protection, increased vulnerability. It is important to lend our Great Instruments of Protection for the Shielding of our Precious Earth's energy.

We may encircle this map with Wheels. We may place upon the map, also, our Blessed 8-Sided, Clear Pyramid.

Now, we will today Perform a Star Cell Acceleration Session for the Blessed Rose Star. This will be our Final Performance of this Technique until we again join together for Knowledge on this Sun Day.

For the coming days, we will allow our Precious Tools to reside upon the World map. The Focus is on the World; Blessed Ambassadors, our Focus is on the World. Three days of Global Focus, three days.

Now Blessed Ambassadors, keep your Shields as your own protection, worn or carried with you, during these coming few days. Very good. Each evening perform the Technique for the Personal Pathway as well as the Technique to Dispel the Darkness.

Very good, very good.

Many Blessings.

Lantos:

Very good, it is very good.

Greetings Dear Ambassadors of the Light of Genesis,

Our Assistance with the Formation of a Global Shield, a Layer of Protection, has offered a smooth passage through a Phase of Darkness. In these few days, our Blessed Tools of Light Created a Luminous Layer aiding Earth's own membrane of protection. Our Beloved Great Tools of Star Light Generated Magnificent Energy—Energy and Assistance.

Now, we may Resume our Path, our Structuring of a Permanent Network of Light—a Global Network of the Light of Genesis—to remove the pockets of weakness, the areas of darkness which generate weakness; Affecting the Life, not only in these areas, but also Influencing Life on the Global Scale.

Each pocket of residue affects the Entire Global System. It is One System. A System is made of many parts, many cells. Each part, each cell, contributes to the overall condition. One cell may offer smooth functioning, strength, while another may afflict the system with weakness and disorder.

We Focus now on the Phase of Action which Illuminates these pockets of intense weakness. It is always best to root out the weakness and disorder. Then, the Framework may be Structured with Great Efficiency and Ease. Yes, yes.

The periods of weakness for the Earth are times when calamities may occur, wars may commence, natural disasters may strike the lands and waters. We Focus now on removing the weakness, weakness which was deposited in the lands and waters and has remained since as a dark residue, a residual weakness.

Now we must gather the Resources to place our Beloved Chambers of Eternal Light in these Specific Areas of concentrated weakness. This is the Phase of Action, the Focus and Direction for the Energy and Resources of our Blessed Ambassadors of the Radiant Light of Genesis.

Today we resume our Techniques and Sessions. Our Blessed Great Messenger, the Messenger of the Rose Star, has remained and offers Light and Assistance for all. Today we Ring the Bells, each Blessed Ambassador of the Light rings the Bell, Sounding the Call to Action. We will perform a Star Cell Acceleration Session. You may each select

from any additional Wheels to incorporate into this Session today. It is a Session to Ignite the Brilliant Burst of Energy, the Energy required for this Global Action.

Dear Ones, we are Structuring the Blessed Global Network of the Light of Genesis for all. Our Action is for all, the benefit is for all—for All Ages to come.

Many Blessings.

A Structure to Stand the Course of Time Smooth Passage Through a Phase of Darkness

Lantos:

Greetings Dear Ones,

Thank you for your efforts, your attention, your Focus and Desires on the Structuring of the Beloved Global Network of the Light of Genesis. It is a Global Focus, a Global Structuring of the Clusters of Star Energy in all parts, together Connecting to Generate a Beautiful Web-Work of Star Light. The Strands of Star Light are Reflections, Reflections of Beams of the Great Star of Genesis, the Form of the Era of Eternal Light. This is the Blessed Structure, the Beloved Form, the Form to support All Possibilities for the New Era. It is an Era of Eternal Light, an Era, Dear Ambassadors, an Era of Eternal Light.

We do not go through these efforts, these activities, for something small, some small result, some temporary experiences. What we Structure here, that which we Structure here now Blessed Ones, is a Structure to Stand the Course of Time in this New Era of Eternal Light. It is a Rising of a New Form, an Emergence of a New Guiding Light. The Beloved Mighty Great Star of Genesis is the Guiding Light and, for this we must Establish a required Platform: the Conditions necessary, the Energy required for the Emergence of this Brilliant Form of Great Star Light. It is Beautiful, Beautiful.

We are Acting to Establish the Necessary Platform, the Necessary Structure of Light. We now must Act. It requires Action, this Precious Phase of Construction requires the Placement by our Beloved Ambassadors, Placement of many Clusters of Light, Chambers of Eternal Light for areas of greatest need, areas identified by the historical occurrences of ill acts—war, disaster, sickness. It is through these indicators that we identify lands burdened by the weight of the past. It is the weight of a residue, residue.

Let us announce to our Blessed Ambassadors of this Mighty Light this list consisting of the Areas of Focus during this Phase to remove the deepest spots of residue. We will put together one list—city by city, including those populations. This is one area of focus. It is this present Phase of Action; it is the Phase of Removal of the deepest residue.

At the same time, yes Dear Ones, at this same time, we will hold our Vision of the Brilliant Structure of the Web-Work of Star Light encompassing the Beloved Earth—Strands of Star Light, Beams of Radiance—Streaming across the distances of land and

water, Connecting to Form the Beloved Global Network of the Light of Genesis. In this Vision, we have the Goal; the Goal is contained in this Blessed Global Vision of Light.

Cindy:

And then Lantos paused, actually for a while, and David had sent to me a photo of a sample of some artwork which actually shows the Earth and then it shows the beams of Light. And so, at this time, particularly since he paused, I decided to show him this picture just to see if this would be showing what he's talking about, and here's his remarks,

Lantos:

Yes, yes, Beautiful, Beautiful. Let us offer this Vision of the Goal to our Beloved Masters of the Art of Creating. In this, the Goal is Enlivened, Enlivened. Greater Energy is made available for the use along the Path with a lively Vision of the Goal. Yes, Beautiful. Send this Vision out to All Ambassadors of the Light.

Now, let us practice our Star Light Acceleration Session for the Precious and Beloved Rose Star, the Great Being of the Rose Star.

Beautiful, it is a Beautiful and Brilliant Structuring of Sublime Light.

Many Blessings.

Focus Attention and Energy on the Vision of Connectedness

Lantos:

Greetings Beloved Ambassadors of the Light of Genesis,

We are Focusing the Light, we are Focusing the Energy, we are Structuring the Framework of Star Light—Chambers of Eternal Light, Brilliant Clusters of Light— Illuminating the lands, together Connecting to Form this Radiant Global Network. It is a Great Task; it is a Global Network.

We must organize our efforts for the rapid Achievement of the Required Clusters of Star Light—Clusters which, in their Reflection of the Great Energy of the Beloved Great Star of Genesis, offer to the surroundings a Burst of Purification, a Blast of Purifying Influence, Spreading to the Surroundings, ridding the lands of the imbedded residues: residue imprinted in the lands, originating from Action, the Effects of Action—Thought, Speech, Action—Expressions leaving an imprint in the Structure of the Earth. It is imprinted in the structure. It is imbedded in the lands.

In our Success of the Initial Phase of Action, we have Accomplished the Creation and Distribution of over 1,000 Precious Clusters of Light, Placement of 1,000 Precious Clusters of Light, touching each continent, Influencing Earth's Structure.

In our Next Phase of Action Dear Ambassadors, we must further Spread these Precious Reflections of Star Light, taking them Directly to the troubled locations, locations with troubled history: places of war and disease, places of disaster, places of extensive turmoil. This is the Next Phase—the step required for the Structuring of the Global Light, the Global Framework of Star Light.

These troubled locations weigh down the Energy of Earth. These are Pockets of Influence, Pockets of Disturbance of the Flow of Energy Generated by the Precious Existing Chambers of Eternal Light. Interference causes poor Connections, broken Connections in the Framework of the Precious Light. We must rid the Earth of these Pockets for the Beams to Connect, Spreading across the Globe.

We wish for our Blessed Dear Ambassadors to Focus Attention and Energy on the Vision of Connectedness, the Global Vision of the Beams Encircling the Earth, Connecting and Illuminating all. This is the Precious Vision of the Blessed Global Network of the Light of Genesis. Beautiful.

Let us get to work. This is the task at hand.

Many Blessings.

The Role of the Blessed Signal Cells

Lantos:

Yes, yes, we will make our Precious Signal Cells stand out and Light the Path. Beautiful, Very Significant.

Then, we will practice. In this Phase of Time practice may be required. We will practice with our Precious Signal Cells in Directing along the Proper Path—right from the beginning through to the Goal, from here to the Goal. This is the Role of the Blessed Signal Cells.

Cindy:

And then he described some of the details about the Signal Cells themselves for us, and then he continued,

Lantos:

It will be Brilliant, very good. And, we will Structure a class of instruction, a class for the period of learning and practice. Yes, yes.

And, before this class, we will refresh our Knowledge of the Techniques of the Art of Creating. This will be very good. We will Enliven again the Proper Steps for the Process of Creating and Ability.

Then, following this Enlivened Knowledge, we will introduce the Techniques for the Practice and Performance with our Precious Signal Cells. Yes, this is the Path of Knowledge.

We are traversing the Two Paths simultaneously: The Path of Knowledge, the Path of Action—each Path Significant, each Path Essential for the Unfoldment of the Era of Eternal Light.

Blessed Ambassadors, it is a Time of Duty—Commitment to both the Path of Knowledge as well as to the Course of Action.

We are Very Blessed with the Great Celestial Assistance which was Present. Aid comes to our Assistance, to our Support, in this Great Mission of Structuring the Global Platform for the Mighty Great Star. It is Beautiful, Beautiful.

Very good.

We are Approaching the Holy Season

Lantos:

Greetings Dear Ones,

We are approaching the Holy Season; we are approaching that time of year when the Quality of the Atmosphere is Blessed with the Energy from the Finer Layers of Creation. These Finer Levels of Existence Rise in Waves of Purity, offering Waves of Grace and Blessings for all.

During this time, this time of the Holy Season, we will Focus on our Two Paths—the Path of Action and the Path of Knowledge. Knowledge and Action: Action to Bring Forth the Creation of the Platform for the Emergence of the Mighty Great Star of Genesis—Action in this Present Phase to rid the Earth—to Purify from the lands of Earth the deep residue, the pockets of darkness which cast a shadow across the globe, lowering the Energy, causing interference in the Connections and Streams of Light generated by the Precious Clusters of Star Light, our Beloved Chambers of Eternal Light.

We must bring the Chambers to these locations of embedded residue. The darkest locations must be Blessed with the Arrival of Great Light—Mighty Star Light, the Star to Illumine All—the Blessed Form for the Era of Eternal Light.

Yes, we will use these Blessings of these Holy Days; we will Apply the Increased Levels of Energy into Accomplishing our Blessed Mission to Establish a Radiant Platform of Star Light. We will also take this opportunity of the Refined Vision, the Refined Layers of Experience, open to us during these weeks of Purity.

We will Refresh our Knowledge and Experience of the Precious Techniques of the Art of Creating. We will Train in our Blessed Use of our Signal Cells and Star Cells following the Enlivenment of this Knowledge of the Basic Level of Expression—the Level of Creation, the Level of Creating. Yes, yes.

This is our Path Dear Ambassadors. Yes.

Very good, very good.

Many Blessings.

The Great Cosmic Ocean is the Great Cosmic Conveyor

Lantos:

Greetings Dear Ones,

We will discuss today the Universal Currents of Energy.

Dear Ambassadors, dear Luminaries skilled in the Art of Creating, there is a Great Expanse of Energy which Flows throughout the Universe Connecting All, Delivering the Influence from one location to another. It is a Cosmic Conveyor. We call this Great Expanse the Great Cosmic Ocean. It is a Blessed Cosmic Conveyor with a Path and a Direction. Just as the Currents Flow in a Continuous Path, the Great Cosmic Ocean Flows too: in a Path, along Specific Channels, along Certain Bands or Layers. The Great Cosmic Ocean is the Great Cosmic Conveyor.

As we Establish Greater and Greater Bands of Star Light, Greater Global Connections of Streams of Star Light, the Atmosphere of Earth changes, the Energy of Earth changes. It is like making a change in one magnet, strengthening the magnet: suddenly, one will find the Energy Moving towards this Location. The Energy, the Currents of Energy, are drawn to the Blessed Energy magnet just as the metal pieces are drawn to the metal magnet.

The Formation of these Streams of Star Light, this Global Network of Star Light, Generates what we can call a Magnetic Influence. It is an Influence which carries an Attractive Force, Drawing to it Great Cosmic Energy. Yes, this is a Blessed Result of the Process of Structuring the Global Network of the Light of Genesis. Even along the Path, even as we are building the Platform to Support this Radiant Mighty Form, we are Drawing vast amounts of Great Cosmic Energy to our Realm.

At this point in our activities, during this Present Phase of Action, we are locating the places of residue; we are pinpointing the locations on the Earth where past action, past influence, has left a mark. It is a deep Impression stored in the lands—a scar, a residue of past action.

As we Introduce the Great Reflections of the Mighty Great Star of Genesis, we Cleanse these marks, we remove the residue. Placement of these Clusters of Star Light Cleanses and Purifies the Structures of the land and waters. Removing these residues Strengthens the System of Energy for the Earth. It is like the Strengthening of the Magnet.

As these residues are removed, Balance is Restored. We are Restoring the Balance on a Global scale. This is our Beloved Global Network of the Light of Genesis. This is our Focus, our Direction for Action. Yes, Dear Ones, this is the Direction. Very good, very good.

Many Blessings.

Genesis Fusion Delivers a Burst of Energy

Lantos:

Greetings Dear Ones,

We will work today with our Precious Star Cells, Tools of the Mighty Great Star of Genesis—the New Form for the Era of Eternal Light. We will begin with the Experience of Genesis Fusion. The Introduction of Genesis Fusion Delivers a Burst of Energy, it Enlivens the Whole. It Enlivens each of the Parts which make up the Whole.

In a quick time we will Experience the Bursting Energy; in a quick time, we will Gain the Benefits. This Energy is Dynamic: it is the Energy which Sustains the Universe, it is the Fuel Cell, it is a Dynamic Process generating vast amounts of Mighty Energy.

Let us sit quietly. First we sit motionless without the application of any Star Cells. We may sit, if possible, in the Presence of the Precious Chamber of Eternal Light, as well as a Luminous 8-Sided Pyramid. We sit for a short amount of time, allowing first the Elimination of the Outer Layer of Influence.

This Outer Layer on the body Attracts the day's Influences. It is a Sticky Layer, a Layer which hangs onto the Impressions and carries with it the fatigue and residue Generated through the course of a single day of work. A single day of living Accumulates a layer of residue.

And yet, this residue is easily removed—much of this is removed even through the simple act of sitting quietly, peacefully, in the Presence of the Master Tool of the Chamber of Eternal Light, as well as, the Blessed Clear 8-Sided Pyramid. Yes, yes. We will sit easily for just a minute.

We will add now the remaining Star Cells to any place on the body—left side is for the placement of Water Cells, right side is for the placement of the Star Cells.

Place the Tools on any location, place as many as you wish. Let us see now what happens. We will arrange the Tools and Experience the results for three minutes. In all, this session is under five minutes.

Let us begin.

Good, good.

Now, Dear Ambassadors, you may position these Precious Tools in any location with Outstanding Results, Superb Benefits. The Dynamic Increase of Energy is the Initiation of Genesis Fusion. It is a Process of Initiating the Energy of the Mighty Great Star of Genesis. Very good, very good.

In this way, in under five minutes, we rid the body of the daily residue: we Initiate Genesis Fusion, we Awaken this Precious Universal Energy within our Personal Structure. This is an Essential part of every day. It is a routine, just as sleeping, just as taking nourishment in other forms for the body—food, activity, rest. Very good.

We are preparing for our Courses of Training. It is very good, very good.

Signal Star Training Course

Lantos:

We will offer the Signal Star Training Course on a Sun Day. It is a day of the Great Star, a Sun Day—a Sun Day during the Blessed Holy Season.

We are entering the weeks of the Holy Season. It is the Sublime Season of Purity. It is the Season during which time the Finest Levels of Creation Blossom. It is like the Blossoming of the wild flowers along the hillside. The hillside is there, every day, always there for all to enjoy. Only, during these Precious few Weeks, the hillside Awakens with color—Radiant color Emerges atop the green backdrop.

These Delicate Expressions Exist on this hill throughout the entire year. However, it is during these few weeks that their Radiance pops out, Blooming on the Surface. It is the Blooming Expression of the Finer Aspects of the hillside. Like this, like this hillside, the whole of the atmosphere enjoys the Radiant Expressions of the Finer Aspects of Creation. Radiant Expressions of the Layers of Beams of Light, popping up we may call it—popping up—available for the Blessings for all. Yes.

It is during this time that we dedicate our attention to these Heightened Layers of Life. This is the time of the Holy Season, the Season of Sublime Blessings. We will offer our Course of Training for our Precious Signal Star Tool during this Season of Blossoming Values of Eternal Light—Radiant Expressions of the Finest Layers of Light—on a Sun Day.

It will take two to three hour's time. We will train with the Tool. We will familiarize ourselves with the Signals we Receive from the Tool, and we will practice Selecting the Proper Path, using the Guiding Directional Light of this Precious Tool—one Sun Day. Good, good. Yes.

We are on the doorstep of the Holy Season. We will Enliven the Blessed Proper Sequence Code Within through the drinking of the Holy Waters. This act Enlivens the Precious Values of Memory, Awakening the Initial Rotations Within each Cell, Restoring Memory of Fullness Within the Physical Structure. It is very good, very good. Let us enjoy the Waters of Awakening, the Holy Water of Life.

Now, Dear Ambassadors of the Light of Genesis, let us enjoy a Star Cell Session, our Session of Genesis Fusion. We will proceed with the Experience of the Super Cells and the Star Cells as the Bursting Energy of Genesis Fusion is Generated.

First, we will sit for a short period of Silence. Following this Silence, we will perform the Genesis Fusion Session for three to four minutes.

Very good, very good.

Many Blessings.

The Signal Star Tool is the Great Indicator

Lantos:

Greetings Dear Ones,

Dear Ambassadors of the Light of Genesis, we are entering the weeks of the Holy Season—the season of Radiant Light, the Season of the Sublime Guiding Light. In this Season, we will gain Knowledge and Experience. Knowledge and Experience together Create the Awakening of Fullness; one without the other only offers Partial Values of Fullness. Together they Awaken Fullness.

It will be good, first, to refresh our Knowledge of the steps and Process of the Art of Creating. Then, we will proceed with our Course of Training for our Precious Signal Star Tools. This Precious Tool, the Signal Star Tool, is the Great Indicator: Pointing the Way, Signaling the Way to the Goal, Signaling the Direction to Achieve the Goal.

These are the Tools of this Holy Season of Light. These are the Blessings of this Holy Season. The Proper Direction is Filled with Light. These Precious Tools indicate the Way of Light.

Cindy:

And then he paused a long time. Then, he continued and said,

Lantos:

We are working now to remove the remains of darkness. In this Season of Great Light, we are in the phase to remove the remaining pockets of darkness. It is the remains of darkness. It is not necessarily the actual darkness, it is the remains, the residue, and, due to this residue, the Light, the Beloved Streams of Star Light, experience disruption, disturbance. Just as the radio signals may experience a disturbance—an interference in certain pockets, certain locations—so also the Actual Beams of Radiant Star Light Experience ripples, disturbance, in the Pure Streams of Brilliance. This is our Focus. Together we Direct our Focus to removing, eliminating, the remains of darkness.

Let us hear now from the Director, the details of the locations of these residues. We will gain a Complete Understanding of the Steps of Action for our Current Phase, a Phase to Remove the Residues of Darkness, to Clear the Path for the Construction of the Global Framework, the Global Platform for the Form of the New Era of Eternal Light—the Global Network for the Light of Genesis.

Very good. Let us hear now from our Blessed Director these details.

Many Blessings.

Action is the Path, Fulfillment is the Goal

Lantos:

Greetings Dear Ones,

What is the purpose of Action? Action is for Fulfillment—Action is the Path, Fulfillment is the Goal. As a Desire is Formed, the Path of Action is Structured which will lead to the Accomplishment of the Desire. Action is a Path; the Purpose of a Path is Fulfilled in the arrival at the destination, arrival at the Goal.

Our Beloved Signal Cells will offer Guidance along the Path, Guidance in the Realm of Action. Dear Masters of the Art of Creating, Action is Blessed. The Path of Action is a valid Path. The Path of Action, when Illumined by the Light of Knowledge, the Light of Guidance—this Path is a Blessed Path.

In this Holy Season, we begin with the Techniques of the Art of Creating. This is the Highest Knowledge, the training for the Highest Level of Action, the Level of Creating.

We will then proceed with the fine tuning of the Path, the Illumining of the Path, with our Blessed Course of Training for our Precious Signal Star Cells. These dates are set?

Cindy:

That was the question that he asked, and so I said to him, “I’m not sure if the dates have been set”. His response is,

Lantos:

Yes, yes, we are Lighting the Path of Action, we are in a Phase of Action in our Development of our Global Network of the Light of Genesis. It is a Phase of Action to remove the residue of darkness from the lands, cleansing the residues. This phase is a phase which requires tremendous Action; this Phase requires the Focused Support from our Beloved Ambassadors of the Light of Genesis. We have the Goal identified. The Path Forms to Achieve the Goal.

Dear Ones, today we will end now our discussion, we will begin now our practice of Creating. Today, we will together perform the Techniques of Creating and together we will Enliven the Goal of the Accomplishment—the Fulfillment of our Phase of Action for the removal of the remains of global residue, the remains of past action, the remains of past incorrect action: action devoid of Light, action devoid of guidance, un-illuminated action.

Now, we will perform 10 to 15 minutes of Creating. Together the Global Ambassadors will offer the desire also for the removal of global residue and the Structuring of the Beloved Global Network of the Light of Genesis for all.

Soon we will offer the Course to refresh the steps of the Techniques of the Art of Creating.

Very good, very good.

Let us begin.

Many Blessings.

David then gave instructions for the desires and quadrants used for this practice of Creating:

- Three different desires, three different processes of Creating.
 - First Desire in the quadrant of Object
 - For the 700 Chambers of Eternal Light properly placed for Phase II.
 - Second desire in the Quadrant of Ability using the Light Violet or the First Rays BioTrinity. They are interchangeable.
 - The removal of global residue
 - Third desire is also in the Quadrant of Ability, using the Light Violet or First Rays BioTrinity. (whichever one was not used for the second desire)
 - The Structuring of the Global Network of the Light of Genesis for All.
- You may place a Chamber of Eternal Light under your chair during your Creating practice.
 - The top of the Chamber should point towards your feet

Designing the Plan of Action

Lantos:

Greetings Dear Ones,

Beginning today we will explore the Regions of our Present Phase as described by our Beloved Director. This Phase of Action is the Phase of Removal of Darkness, the Removal of the Residues which remain imbedded in the lands of locations around the Earth. We will explore in detail, in depth, each location—continent by continent—as described by our Beloved Director.

Today, we will begin with the American continent, the North American Continent—a continent of Great Light, Great Prosperity. It is here that we will set our direction for the Illumination of these locations of residue.

We will, together Dear Ambassadors of the Light of Genesis, we will together Design a Plan for the Placement of the necessary Chambers of Eternal Light. This is our Program: our Program is Action, Designing the Plan of Action.

Let us begin with the ringing of the Bells, the Sounding of the Call to Action; it is a Great Call to Action for all. Yes, let us begin with the Bells. Then, we proceed to the Knowledge, the Knowledge offered again by our Beloved Director of the Light.

This is our Program, Dear Ones. Over the next sessions, we will Design the necessary Steps of Action and, through the support of our Blessed Ambassadors, the Design, the Steps required for this Phase of Action will be Fulfilled in this year.

Yes, this is our Program, Action for the Accomplishment of our Global Network of the Light of Genesis. It is a Global Plan for the Establishment of the Platform for the Emergence of the Great Star of Genesis, the Form of the Age of Eternal Light.

Yes, yes. Let us hear from our Director.

This is the Action Phase

Lantos:

Greetings Dear Ones,

Yes, yes. We are delving into the Phase of Action. Action is for Accomplishment, Accomplishment of our Beloved Global Network of the Light of Genesis, Action required for the Structuring of the Platform for the Era of Eternal Light. This is the Action Phase.

We are now Focusing our Energy, our Resources, on the removal of those pockets, the remains of darkness. It is the remains of past action, past influence, which was imbedded in the lands. It is the impression, an impression which weighs down the atmosphere, causing disturbance, weakness, disease. These are the pockets of residue which appear in the lands of the Earth.

It is at this present time in our Creation of the Blessed Global Network that we Focus our Attention, our Resources, on the removal of these remains, thereby Cleansing and Clearing the Way for the Streaming Connections—the Rays of the Beloved Great Star of Genesis. Yes, yes.

Now, we will proceed today with our Design for Global Action. We take on this Global Action, continent by continent, land by land. We have heard the details of the remaining residues of the American continent of the North. Now, we will hear the report of the residues of the American continent of the South, along with the European continental region.

Let us put our attention, Dear Ambassadors—Masters of the Art of Creating—let us Focus our Attention in the Direction of these lands of the Earth. As we listen to the details expressed by our Blessed Director, we will gain the Inspiration and Knowledge of the Direction for Action.

We may hear of a specific location, a specific instance or occurrence, which has impact on our own individual life, or the life of the ancestors in the family line. The family line stretches out, Connecting the individual life in the present with the effects of action of the lives of those related, reaching back through time and across lands and distances.

Yes, Dear Ambassadors, we will listen today to the reports of the residues of the lands and the Blessed Steps of Action in the Direction of the Achievement of the Global Network of the Light of Genesis.

Dear Director, we first Sound the Bells.

Many Blessings.

Life Will Be Transformed

Lantos:

Greetings Dear Ones,

We are continuing today with our study of the pockets of residue imbedded in the lands of Earth. This is our Present Focus. This is the Present Phase required for the Development of the Blessed Global Network: the Blessed Global Structure of Star Light, Radiant Beams of Star Light Forming the Web-Work to Create a Platform for the Emergence of the Mighty Great Star of Genesis, the Great Form of the New Era, the Era of Eternal Light.

We will listen today to the details from our Beloved Director, the details of the deepest residues on the continent which supports the greatest population of Earth—the continent of Asia. With greater population comes greater impressions—greater deposits of action, thought, impulses—within the structures of the lands. These residues have existed over many centuries, many for thousands of years and, it is at this time, in this Present Phase of our Global Activity, that these remains must be released, these residues must be removed.

We are in a Phase of Action—Action—Action required for the Platform to Support the Arrival of the Great Form of the Mighty Great Star of Genesis. With this, Life will be Transformed; all Actions will be Supported by the Brilliant Radiance of the Great Star of Genesis.

Let us hear today from our Blessed Director, let us hear the reports of the details of the Steps of Action for our Beloved Asian continent.

We begin with the Sounding of the Bells.

Very good.

Many Blessings.

A Signal for Correct Action

Lantos:

Greetings Dear Ones,

We have now our Blessed Signal Star Cells. With these Cells, the Signal will Shine, the Highest Path will be Illumined. The Precious Tools assist in charting the Highest Course. These are Precious Instruments of Light, Instruments capable of receiving the delicate Impulses of Truth—the gentle Waves of Influence which Form, according to events.

These Precious Tools Detect the Waves of Influence. It is an Instrument for early Detection. It offers a Signal, a Signal for the Highest Path, a Signal for Correct Action.

We will offer the complete instruction for these Signal Cells. Our Ambassadors of the Light of Genesis will benefit from this Instrument of Light. Yes, yes. Good.

And now, we will complete our analysis of the pockets of residue, the pockets of the remains of action. Let us hear from our Beloved Director. We will complete today our investigation into the Path of Action, the Steps of Action required to accomplish our Present Phase of Action, our Present Phase which is required for the Formation of the Global Network—the Global Web-Work of Radiant Beams of Star Light.

We must, at this time remove the disruptions, the residues, the remains. These remains have the effect of interference, disturbance. The lands retain the memory of action, the residue of past action. Yes. We are releasing these pockets of residue through the planning, the assistance, the Action of our Blessed Ambassadors—continent by continent, land by land.

Now we will hear from our Director completing our investigation and Formation of our Plan of Action for each continent.

Very good, very good.

We ring the Bell. Very good.

Many Blessings.

The Dynamics of Star Light Energy

Lantos:

Greetings Dear Ones,

Dear Ambassadors of the Light of Genesis—seven days of Genesis Fusion, seven days of Genesis Fusion. We will commence today our seven day Genesis Fusion Program. This Program is Designed to Enliven within each Individual, each participant, the Levels of Light, the Levels of Existence which Generate the Energy, Energy for the Emergence of Form.

We are speaking of the Forms of the Universe. These Forms Emerge in order, in Set Sequence. This is the Grand Design. The Energy Applied for the Creation of the Web-Work of the Universe is Genesis Fusion.

Yes, Dear Ambassadors, Genesis Fusion is that Energy Connecting All at the Basis of Creation, that Energy which is Created by the Beloved Almighty Source of Creation. The Universal Web-Work is that Fabric of Light, that Structure of Light which Supports the Form of Creation. Just as we are Structuring our localized Web-Work, our localized Fabric of Creation, so too, exists these same Dynamics, the Dynamics of Star Light Energy, spreading outwards, Connecting together to Form a Blessed Web-Work of Light.

This is the Web-Work of Creation. It is out of this Web-Work that Nodes of Energy Emerge like bubbles—here and there. Out of these Energy Nodes Form Emerges. The Story of the Emergence of Form is the story of the Expressions of the Action and Intent Generated by the Supreme Almighty Source of Creation. This is the Story of Creating; this is the Story of Creation.

Now, Dear Ones, beginning with this day, and from this day onwards until next Sun Day, we will engage in the Experience of the Technique of the Holy Season. It is a simple Process and requires little time daily. However, the Effects are to Generate the Precious Energy of Genesis Fusion within each Blessed participant.

For this Technique, we will be positioned above a Beloved Chamber of Eternal Light. Seated, we will be Blessed by the Presence of the Structure of Star Light reflected by this Blessed Device. Waves of Purity, Waves of Energy Flow through the Environment of this Blessed Master Tool.

Hold in the left hand the Blessed Super Water Cell, and in the right hand hold the Super Star Cell. After two or three minutes, while seated, perform the second phase of this Technique—the Blessed Technique of the Personal Pathway. Beautiful. Yes, each day like this for seven days. We will add the final step of our Holy Season Technique with the instruction of the Signal Cells. Beautiful. Very good.

Many Blessings, many Blessings.

The Core Energy of the Universe

Lantos:

Greetings Dear Ones,

The Energy of Genesis Fusion gets Ignited, gets Initiated through the Blessed Super Cells in our practice of the Sublime Technique of this Holy Season. It is the Experience of the Energy of Creating, the Experience of the Core Energy of the Universe. Our Blessed Star Cells, the Radiant Reflections of the Mighty Great Star of Genesis, Generate this Genesis Fusion which may be Experienced on an Individual Level, Awakened within the Cells of the Individual. It is a Bursting Radiance. It is the Process of Igniting the Core Energy, firing up the Brilliance of the Mighty Great Star of Genesis within the Individual. This is Genesis Fusion.

In our Blessed Technique of the Holy Season, we begin this Process of Igniting the Genesis Fusion, Initiating the Core Energy of the Universe. We sit above the Beloved Chamber of Eternal Light holding, in the left hand, the Super Water Cell, and in the right hand we hold the Super Star Cell. In this Process we Fire Up the Dynamic Energy of Genesis Fusion for the Blessings Within, as well as for the Radiance of the Whole of the Environment. It is a Blessing for All.

Two minutes of Radiance and then we shift our attention easily to the Practice of the Technique of the Personal Pathway. Now, Blessed Masters of the Art of Creating, this third step is Creating, the Process of Creating. For this Technique we will select one of our Five Precious BioTrinities, one of the 10 Great Beams represented in Five Channels of Expression. It is through these Channels that the Creation moves from Intent through to Expression. Each individual is associated with one of these Rays of the Source, this is the Personal Pathway.

During this Process, the final step of the Technique of the Holy Season, we will select one of these Five Beams. Yes. Let us make this selection with our Precious Signal Star. Select one of the Five BioTrinities.

With the Signal Cell we will now select a Star Cell. It may be a Star Cell, a Water Cell, a Super Star Cell or a Super Water Cell. Make this selection.

Now position the BioTrinity with the Star Cell together in the palms of the hands, and we will perform our Technique of Creating with the following Intent: Core of Light, Core of Light, Core of Light.

Very good, very good. Beautiful, the Effects are Beautiful.

We will practice this Blessed Technique of the Holy Season for three days and then we will discuss the Effects. Let us first have the Experience. Very good. Let us begin.

Many Blessings.
