*Enlivening the Six Sets of Relationship*

## **Enlivening the Six Sets of Relationship**

Communion, that value of complete union—Fullness of Union, Union of every level—may be achieved through experiencing Relationship on the three basic levels of expression: the body, or physical level; the mental level; and the level of the spirit.

**Physical – Physical:** (The Relationship of the Physical plane of existence with itself) The experience of the relationship between objects, between people. Enlivening this level will enhance health of the body. It will promote physical well-being, comforts on the physical level of the surroundings.

**Physical – Mental:** (The Relationship of the Physical plane of existence with the Mental plane of existence) Aspirations and goals.

**Physical – Spiritual:** (The Relationship of the Physical plane of existence with the Spiritual plane of existence) In this set we find the development of the ability to transform the body into Light.

**Mental – Mental:** (The Relationship of the Mental plane of existence with itself) In this aspect of the Relationship of the Mental plane of existence with itself, we find the awakening of understanding. No longer will our thoughts or actions be clouded by misjudgment. In this relationship, we enliven the recognition of truth, wisdom.

**Mental – Spiritual:** (The Relationship of the Mental plane of existence with the Spiritual plane) All glories of the objective Creation are open through the cultivation of this sublime level of Relationship.

**Spiritual – Spiritual** (The Relationship of the Spiritual plane of existence with itself) All Values of Creation fall under this most expanded level of Relationship. This is the Relationship of All Values, the Relationship of Totality with itself.

## Instructions:
